

UNEP-Regional Seas Coral Reef Partnership Workshop

Agenda

- Venue: Second Global Conference on Land-Ocean Connections (GLOC-2)
2-4 October 2013, Montego Bay, Jamaica
- Time: Thursday 3 October, 11:00-18:00, Media Room ('Mount Salem' room)
Friday 4 October, 14:00-18:00, 'Trelawny Room'

Background:

The urgency in addressing the downward trajectory of the world's coral reefs is reflected in Aichi Biodiversity Target 10, Paragraph 176 of *The Future We Want*, the Secretary-General's Oceans Compact and the International Coral Reef Initiative (ICRI) Call to Action and Framework for Action. The Regional Seas Strategic Directions 2013-2016, adopted in 2012, include effectively applying an ecosystem approach in the management of the marine and coastal environment, strengthened efforts to address common objectives, and coordinated regional implementation of relevant global and regional initiatives, such as ICRI. To this end, UNEP and Regional Seas committed to collaboration through a global coral reef partnership (strategic direction 6). In taking this forward UNEP has developed draft partnership Terms of Reference and an initial biennial Work Programme, through consultation with Regional Seas programmes, the ICRI Secretariat and a range of organizations and governments. A Workshop is organized during GLOC-2.

Purpose and outputs:

The purpose of the Workshop is to provide information on partnership development to date, seek broader collaboration in the partnership, discuss and provide input towards defining partnership structure and thematic priorities; and provide guidance on further development of the partnership.

Outputs of the sessions will include:

- Document describing partnership structure, main themes and operational modalities, reflecting recommendations from the session;
- Confirmed elements for a work programme 2014-15, including identification of priority activities;
- Indication of participation in and contributions towards activities by participating organizations;
- Guidance to UNEP e.g. on matters related to development of the partnership business plan; partnership visual identity, communication, etc.

Documents:

1. Agenda;
2. Background/information document;
3. Brief synthesis of consultation with Regional Seas Programmes;
4. Partnership draft Terms of Reference;
5. Partnership draft Work Programme 2014-15.
