Nairobi

Excellencies,
Ladies and Gentlemen,

On the solemn occasion of the inception of the United Nations Environment Assembly of the United Nations’ Environment Programme’s activities with its first ever session that is taking place on June 23-27, 2014 in Nairobi, Kenya I would like to convey to you all my heartfelt felicitations coupled with warm greetings.

At a time when the entire humanity is caring to protect the environment and the mother earth and inherit them to our future generations way deeper than before the significance of policy and activities to be pursued by UNEP would be much broader.

While preserving and protecting the pasture based animal husbandry, traditional cultural heritages and nomadic civilization in an effort to encouraging environmentally conducive socio-economic development the State and Government of Mongolia have recently adopted their “Green Development Policy” and joined into the Partnership For Green Economy (PAGE). This is a matter of utmost pleasure to note that we are looking forward to encourage and support every initiative for the sake of climate change and natural environment to be put forwarded by the United Nations Environment Assembly of the UNEP, which you all are providing leadership in the coming years.

May I offer you and the UNEP’s multifaceted activities greater success and well-being.

Respectfully,

Tsakhiagiin ELBEGDORJ,
PRESIDENT OF MONGOLIA

June 23, 2014.
Ulaanbaatar
