

Highlights from the First Day / Purpose of the Second Day

Inception Workshop on: Promoting the
elimination of the use of lead paints in China and
Africa

Beijing, 27th April 2016

Presented by UNEP

Highlights from the First Day

- Great commitment initiation project. Key involvement Gov. China (MEP –NERC– & MIIT), National Quality Supervision Testing Center for Paint & CNCIA
- Steps-steps manner: baseline situation and awareness raising with gradual phase out of lead in paint at all industry levels and participation of different ministries
- Good understanding Project & its components. Linkages Lead Paint Alliance (phase out of lead paint by 2020) and its tools e.g. documents, toolkit, UNEP's ref. docs, etc.
- Existing legally binding controls (GB) and 13th 5-year industry plan (1016-2020)
- Presentations of some challenges of the elimination of lead paint e.g. paint industry, lack of knowledge and public awareness
- Chinese Coatings Industry: Significant contribution (28% to the Global coating industry total volume 2015 and its growth). Lead replacement already taken place

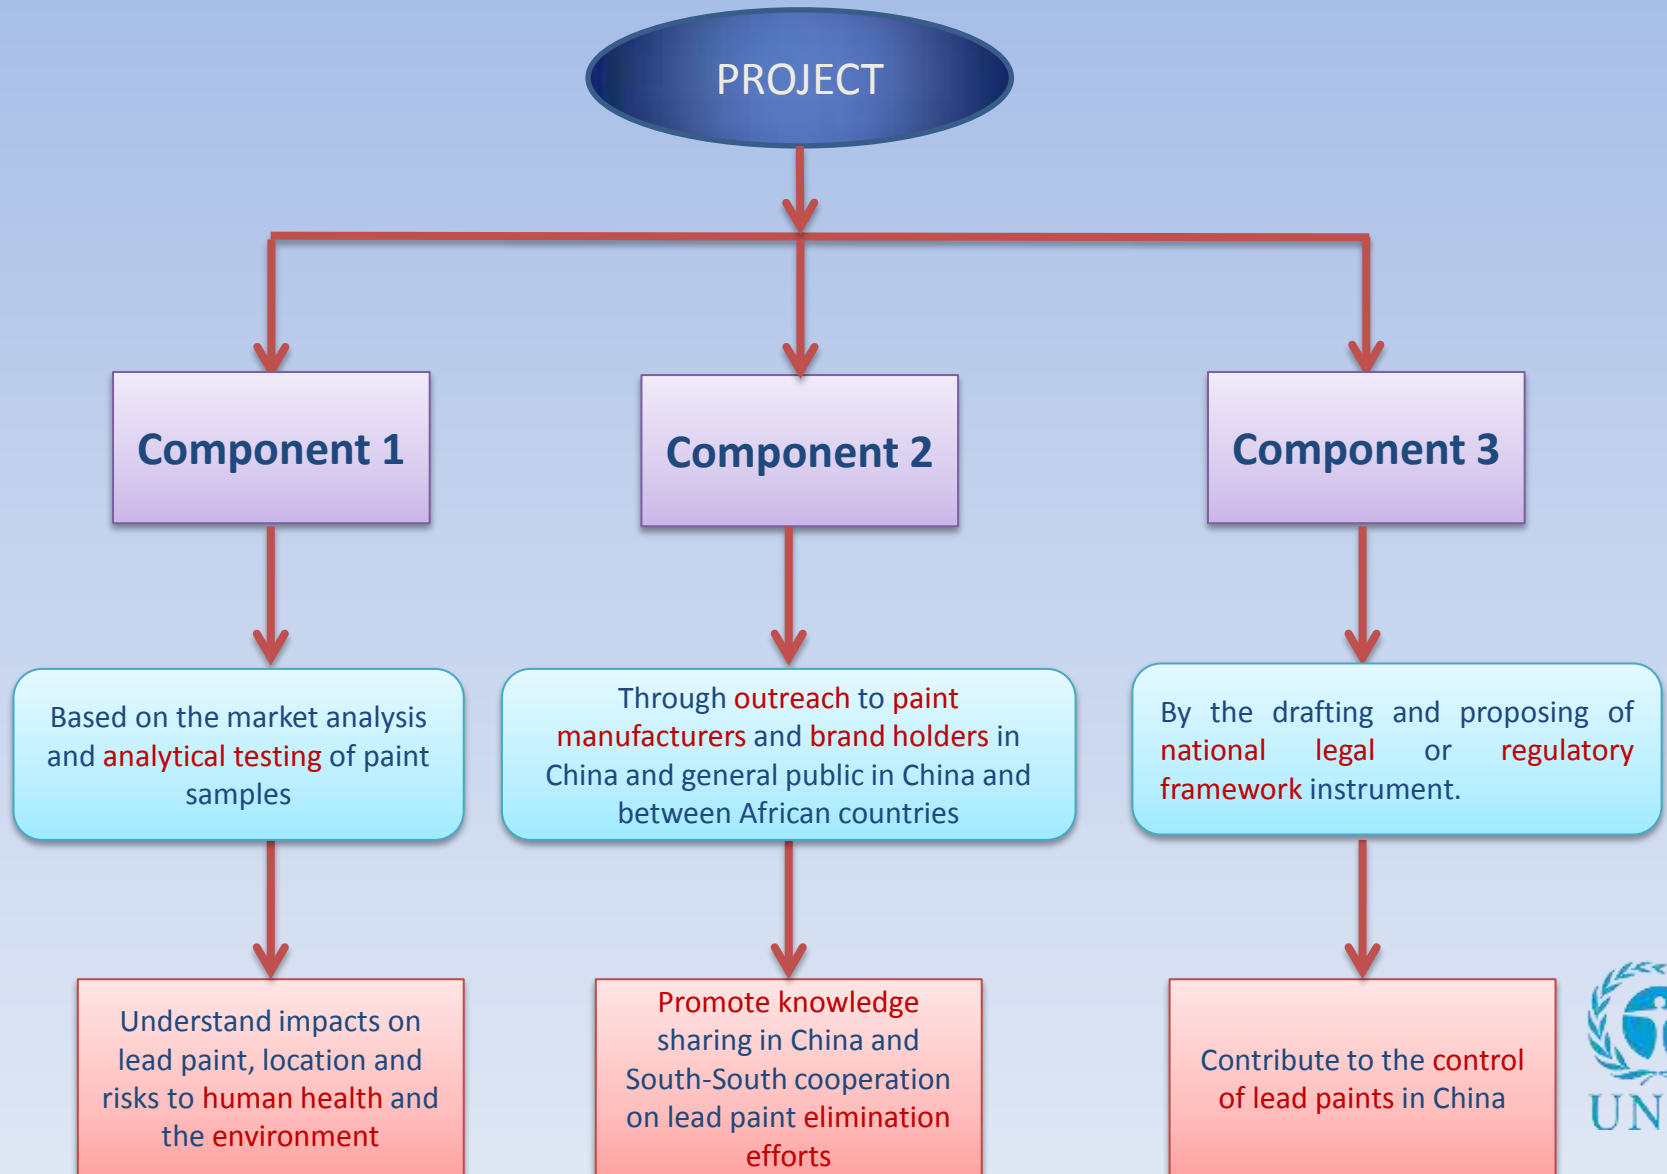

Highlights from the First Day (Cont.)

- Recognition of some lead contained coatings produced (mostly concentrated in SME that could be accounting for ~ 50% (?))
- Excellent laboratory facilities, analysis control (soluble/total) and QA
- Suggested visit of the international expert (Component 1)
- Project workplan adjustments to be further discussed (Components)
- Further discussion on what a “*strategy*” (Component 2 & 3) could include
- Linkages and lessons learn from current GEF African project and south-south key cooperation and exchange of information
- Complementary support & participation: UNEP (3 Divisions) and BCRC
- Upcoming possible opportunities for GOVs –including China- to discussed C & W issues, including Pb and Pb in paint (UNEA2 – May 2016), 11th ICWMT11 (Oct. 2016) and LPA’s international week of action

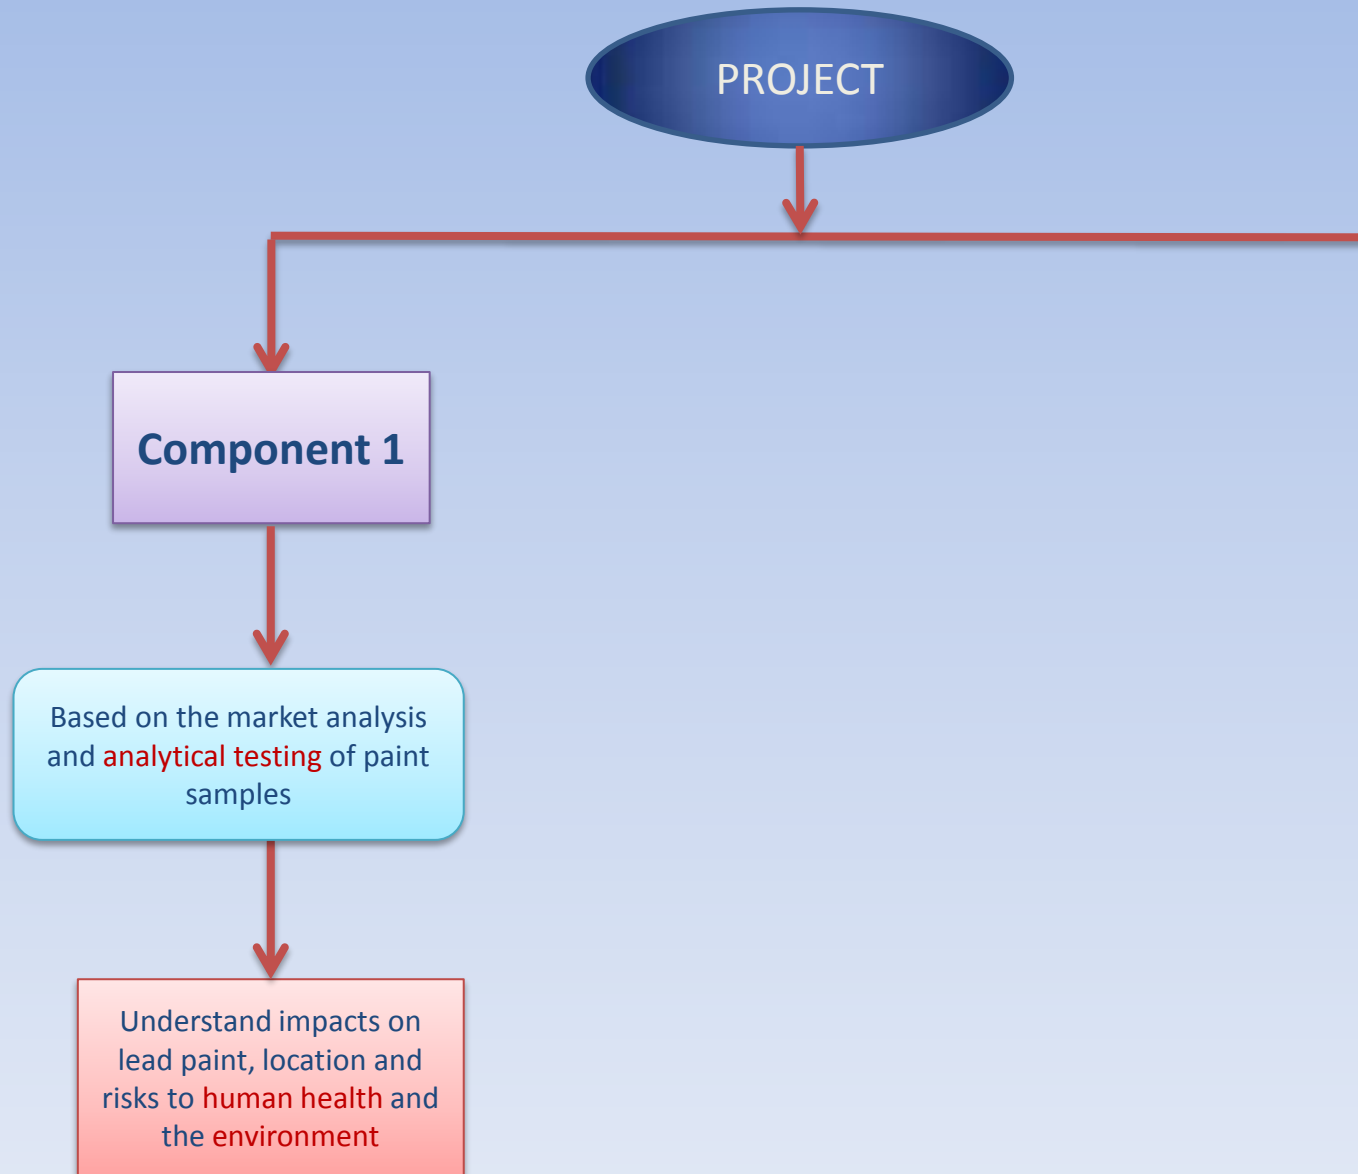

Purpose of the Second Day

- Group Discussion: Path Forward on Project Activities
- Suggested approach by project components and its activities
- Next steps

Group Discussion: Path Forward on Project Activities

Group Discussion: Path Forward on Project Activities (Component 1)

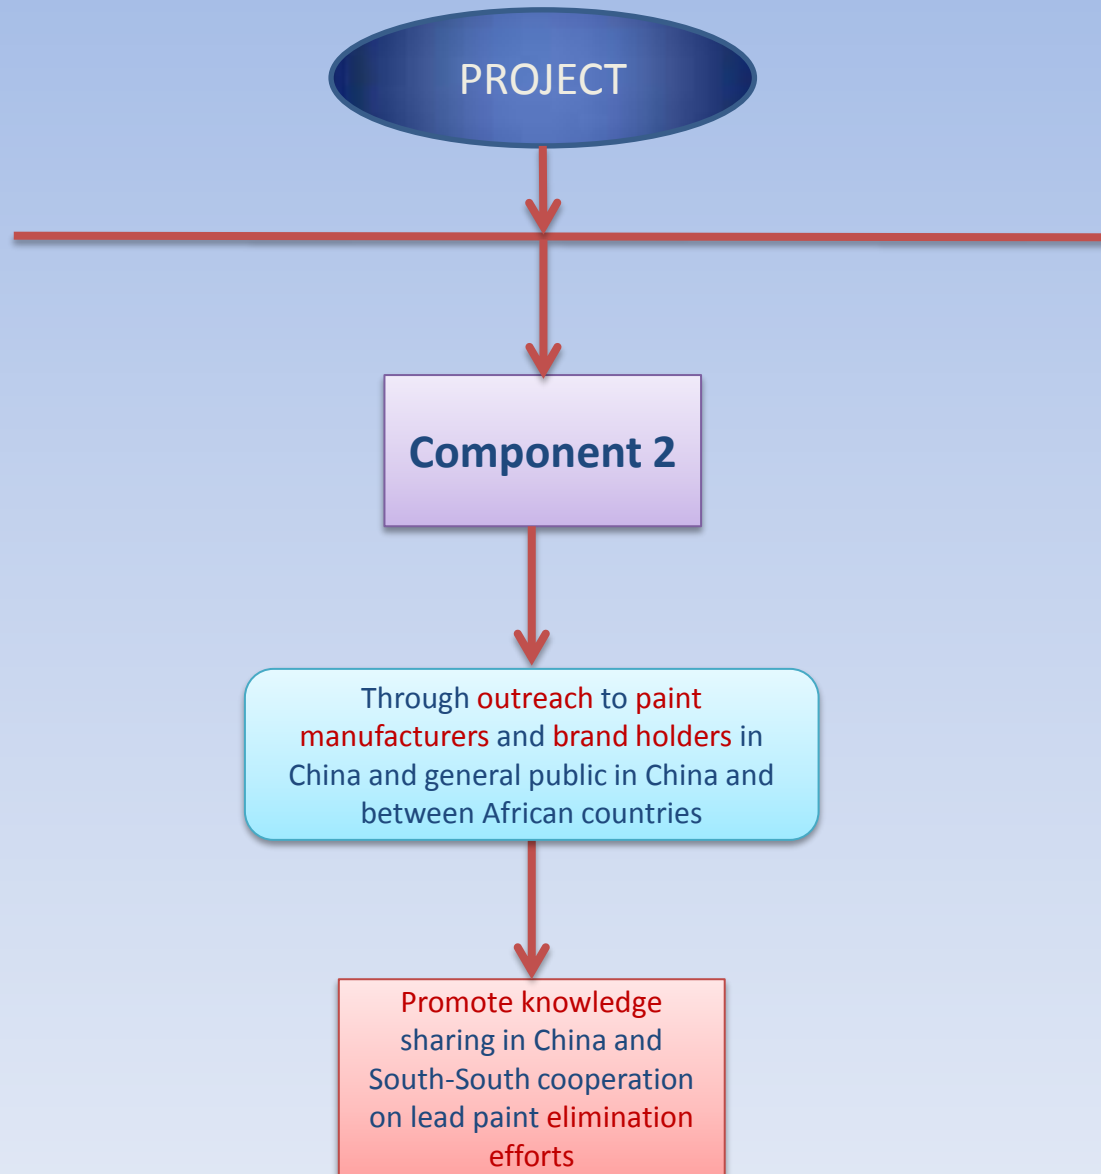

Group Discussion: Path Forward on Project Activities (Component 1)

- National market survey (paint categories, brands, locally manufactured in China, province distribution, uses –domestically?, variety of paints produced by industry and SMEs (brands/manufactures))
- Site survey: identification of mix-paint industry productions, including SMEs (Linkages with Component 2: Target 10 paint manufacturers)
- Market analysis and sample testing (define brands, paint categories, colors, testing method(s) soluble vs. total lead content, workplan for testing and budget considerations, reporting (90,600, 1000 ppm))
- Suggested guidance from international expert
- Survey & technical report (including QA)

Group Discussion: Path Forward on Project Activities (Component 1)

Group Discussion: Path Forward on Project Activities (Component 2)

Group Discussion: Path Forward on Project Activities (Component 2)

- Identification of key multi-stakeholder national committee members (MEP, MIIT, CNCIA, others key stakeholders....)
- Awareness raising and outreach activities («strategy») to different stakeholders (including but not limited to 10 paint manufacturers and brand holders activities organized).
- Discussion on materials to be developed and examples
- Linkages and possible participation of the LPA's week of action (Oct. 2016) and the work of the LPA e.g. China becoming a partner
- Carry out outreach activities civil society, paint industry and national paint manufacturers
- South-south cooperation workshop
- Complementary support from UNEP DCPI (African component linkages)

Group Discussion: Path Forward on Project Activities (Component 3)

Group Discussion: Path Forward on Project Activities (Component 3)

- Assessment of existing legal and regulatory framework
- Relevance to 13th 5-year industry plan
- Inclusion of possible elements for management demand analysis
- “Strategy” to Government officials and political leaders
- Stakeholder and government consultation
- Amendments as necessary
- Complementary support from UNEP DELC
