

Bahrain Women Association - for Human Development

Dear both Mr. Ado and UNEP Secretariat,

We have reviewed the content of the document: "Draft Ministerial Declaration" and found it satisfactory, and would highly appreciate to add a point (h) under "Main priority 3: Support robust engagement of civil society... " as follows:

h) We call donors and funding agencies to support to national capacity-building activities, for both NGO & officials in particular in developing countries, including participation in international conferences to keep them up-to-date, and to enable them to support the initiatives for environmental challenges.

Kind regards,

Fatima Frutan
Deputy Chief, Environmental Citizenship Program
Bahrain Women Association - for Human Development
