

Inputs on the Draft Outline Document for the Ministerial Outcome Document of the UN Environment Assembly

Paragraphs:

- **Main priority 1: Ensure the transparency, accountability and comparability of global environment data, and develop science-policy-business partnerships on innovative data technologies and digital solutions**
 - To amend bullet 1 as follows: “Establish comprehensive environmental monitoring systems (including citizen observations and satellite monitoring) to improve data collection and foster cross-border environmental monitoring data exchange, (for example in the form of pilot projects on establishing global real time ambient air quality and deforestation monitoring systems).”
 - To amend bullet 5 as follows: “Enhance integrated use, analysis and sharing of environmental data from various sources (smart devices, mobile applications, environmental monitoring and research).”
 - To add as a separate bullet - “To provide an appropriate platform for better transparency and accountability.”
- **Main priority 2: Foster sustainable and efficient resource management by promoting decarbonisation, detoxification and decoupling of resource use, to enhance ecosystem resilience and protection of the planet’s natural systems.**
 - To amend bullet 4 as follows: “Maximise the benefits of sound waste management with the special focus on food, plastics, electronic wastes and marine litter.”
 - To add as separate bullets:
 - Encourage extended producer responsibility to support sound waste management and promote circular economy.
 - Promote sustainable procurement in both public and private sector to stimulate demand and market for sustainable products and services for a greener economy.
 - Develop an action plan for sustainable measures to combat the effects of climate change on production and consumption patterns.
- **Main priority 3: Support robust engagement of civil society, citizens and academia in promoting innovative approaches for meeting global environmental challenges and sustainable production and consumption.**
 - To amend bullet 6 as follows: “ Promote and raise awareness for sustainability in sectors such as industrial, energy, transportation, business, tourism, amongst others.”

- To add as separate bullets:
 - “Promote environmental stewardship and encourage partnership initiatives between public and private sector and civil society to meet environmental conservation and protection targets.”
 - “Promote and raise awareness for sustainable livelihood in coastal communities.”
 - “Encourage youth and women to engage in innovative solutions to promote sustainable consumption and production”
 - “Allocate adequate resources to minimise effects of natural disasters and provide more resilient measures.”
 - “Establish a common ground or platform that will promote participatory approach with all stakeholders, including civil society, academics and citizens.”
