Template for 2 page bulletin summarising project results and key lessons

The lessons derived from the evaluation of projects comprise one of the most important outcomes of the entire evaluation exercise. Even where high quality lessons are developed, they are seldom communicated effectively to their intended audiences. In order to aid their dissemination and communication to both external and internal audiences, the Evaluation Office has developed a bulletin that presents an abridged version of the key project results and lessons within a 2-page write up. The recommended structure for preparing a summary that will be used for the bulletin is presented below to serve as a guideline:

[Enter Project Title]
