

EcAp MED II Project Deliverables

Output 1. Progress in the implementation of EcAp new monitoring requirements in selected countries in the Mediterranean (2015-2018)

National IMAP based Monitoring Programmes for Biodiversity and Non-Indigenous Species (SPA/RAC)

[National IMAP based monitoring programme for biodiversity and NIS in Algeria](#)

[National IMAP based monitoring programme for biodiversity and NIS in Egypt](#)

[National IMAP based monitoring programme for biodiversity and NIS in Israel](#)

[National IMAP based monitoring programme for biodiversity and NIS in Lebanon](#)

[National IMAP based monitoring programme for biodiversity and NIS in Libya](#)

[National IMAP based monitoring programme for biodiversity and NIS in Morocco](#)

[National IMAP based monitoring programme for biodiversity and NIS in Tunisia](#)

National IMAP based Monitoring Programmes for Coast and Hydrography (PAP/RAC)

[National IMAP based monitoring programme for coast and hydrography in Algeria](#)

National IMAP based monitoring programme for coast and hydrography in Egypt*

[National IMAP based monitoring programme for coast and hydrography in Israel](#)

[National IMAP based monitoring programme for coast and hydrography in Lebanon](#)

[National IMAP based monitoring programme for coast and hydrography in Libya](#)

[National IMAP based monitoring programme for coast and hydrography in Morocco](#)

[National IMAP based monitoring programme for coast and hydrography in Tunisia](#)

National IMAP based Monitoring Programmes for Pollution and Marine Litter (MED POL)

National IMAP based monitoring programme for pollution and marine litter in Algeria*

National IMAP based monitoring programme for pollution and marine litter in Egypt*

National IMAP based monitoring programme for pollution and marine litter in Israel

National IMAP based monitoring programme for pollution and marine litter in Lebanon*

National IMAP based monitoring programme for pollution and marine litter in Libya*

National IMAP based monitoring programme for pollution and marine litter in Morocco*

National IMAP based monitoring programme for pollution and marine litter in Tunisia*

*In preparation

Training workshops

[1st Training on monitoring techniques of the common indicators related to biodiversity and NIS \(16-22 July 2017, Kuriat islands, Tunisia\)](#)

[2nd training on monitoring techniques of the common indicators related to biodiversity and NIS \(22-28 September 2017, Samos Island, Greece\)](#)

[EcAp/ASI training workshop on cetacean monitoring technique \(25-28 February 2019, Bizerte, Tunisia\)](#)

[National training session on monitoring techniques of seabirds in Tunisia \(10-13 May 2018, Kerkennah islands\)](#)

[National training session on monitoring techniques of marine habitats and seabirds in Morocco](#) (26-29 June 2018, Al Hoceima National Park)

[National training session on monitoring techniques of marine turtles in Lebanon](#) (3-7 July 2018, Tyre Coast Nature Reserve)

[National training session on monitoring techniques of marine turtles in Egypt](#) (20-23 July 2018, Northern coast of Egypt.)

[National training session on monitoring techniques of marine habitats, seabirds and NIS in Algeria](#) (9-13 September 2018, Rachgoun Island)

Output 2: Establishment of sub-regional cooperation in EcAp implementation in the Mediterranean region

Reports and Publications

(2018) Report of the Meeting on IMAP Implementation: Best Practices, Gaps and Common Challenges	Eng	Fr
(2017) Final Report-CORMON-Coast and hydrography Madrid	Eng	
(2017) Sub-regional expert group meeting on Coast and Hydrography indicators (English only)	Eng	
(2017) Evolution of built-up area in coastal zones of Mediterranean countries between 1975 to 2015 (English only)	Eng	
(2015) Guidance document on how to reflect changes in hydrographical conditions in relevant assessment (English only)	Eng	
(2015) Monitoring and Assessment Methodological Guidance on Land Use Change (English only)	Eng	
(2015) Pilot project in the Adriatic on testing the candidate common indicator “Land use change” in the Mediterranean (English only)	Eng	

Training workshops

(2016) Rapport du premier atelier de formation sur les indicateurs relatifs à la côte et à l’hydrographie (French only)		Fr
(2017) PAP/RAC Second training workshop on Coast and Hydrography indicators (English only)	Eng	

Meetings

[CORMON meeting on Coast and Hydrography](#) (Rome 21-22 May 2019)

Output 3: Stronger Ecosystem Approach related science-policy interface in the Mediterranean

<http://planbleu.org/en/publications/strengthen-structure-and-sustain-science-policy-interface-spi-imap-implementation>

Reports and Publications

- (2019) Science-Policy Interface (SPI) to support monitoring implementation plans as well as sub-regional and regional policy developments regarding EcAp clusters on pollution, contaminants & eutrophication, marine biodiversity & fisheries, coast & hydrography (English only) [Eng](#)
- (2018) Science-policy interfaces for environmental governance in the Mediterranean [Eng](#) [Fr](#)
- (2016) Enhancing the Science Policy Interface in the Mediterranean for Marine Pollution based on Ecosystem Approach [Eng](#) [Fr](#)

Training Workshops

- (2017) [Joint Workshop on Science Policy Interface \(SPI\) strengthening and Ecosystem Approach Coordination Group Meeting on IMAP scales of monitoring and assessment, including the next QSR](#)
- (2017) [Workshop on Science Policy Interface \(SPI\) strengthening for the implementation of the UNEP/MAP IMAP in relation to Marine Litter, Biodiversity & fisheries, Hydrography, with a focus on the Risk Based Approach \(RBA\) for monitoring](#)
- (2016) [Workshop on Science Policy Interface \(SPI\) strengthening in the field of Marine Protected Areas and Marine biodiversity in the Mediterranean](#)
- (2016) [Workshop on Science Policy Interface \(SPI\) strengthening for the implementation of the UNEP/MAP Integrated Monitoring and Assessment Programme, for Pollution](#)
- (2015) [Inception Workshop EcAp "Implementation of the Ecosystem Approach in the Mediterranean: strengthening the science-policy interface"](#)

Output 4: EcAp related data-management, including quality assurance is established/ strengthened in the Mediterranean

[IMAP Pilot Info System](#)

News Items

- [01/18: Workshop for the validation of the national monitoring programme for biodiversity in Lebanon](#)
- [12/17: national IMAPs for Coast and Hydrography](#)
