Re: UNEP Global Mercury Partnership

Dear Dr. Younes:

Reaction Engineering International (REI) is interested in becoming a partner in the UNEP Global Mercury Partnership, and we are pleased to submit the enclosed application form. We strongly support national and international efforts to better understand the impacts of mercury emissions on the environment and to identify cost-effective control technologies that can reduce the release of mercury and its compounds. Due to its global transport, mercury can truly be considered a global challenge, and because of this, we believe that the UNEP Global Mercury Partnership is of pivotal importance.

REI has been involved for over a decade in U.S. government and industrial programs directed at understanding and curbing mercury emissions as well as in fundamental science investigations of mercury chemistry in combustion systems. Our proposed representative, Dr. Constance Senior, has been participating in all Mercury Experts Meetings organized by Dr. Lesley Sloss of International Clean Coal Centre in the UK. Through these meetings in which UNEP officials have participated, she became familiar with the objectives of the Partnership.

We believe we can contribute to the success of the UNEP Global Mercury Partnership utilizing our experience from the US programs as well as our depth of experience in mercury chemistry and behavior.

Sincerely,

Bradley R. Adams
President

UNEP GLOBAL MERCURY PARTNERSHIP REGISTRATION FORM *

Partnership Area	<p>Please check partnership areas that your organization intends to contribute to:</p> <p> <input type="checkbox"/> artisanal and small scale gold mining <input type="checkbox"/> mercury cell chlor alkali production <input type="checkbox"/> mercury air transport and fate research <input type="checkbox"/> mercury in products <input checked="" type="checkbox"/> mercury releases from coal combustion <input type="checkbox"/> mercury waste management </p> <p>Please indicate in your support letter how your organization intends to contribute to each of the indicated partnership areas.</p>
