RE: UNEP Global Mercury Partnership

Dear Sirs,

Great Lakes Solutions wishes to express our support for the UNEP Global Mercury Partnership goal of protect human health and the global environment from the release of mercury and its compounds by minimizing and, where feasible, ultimately eliminating global, anthropogenic mercury releases to air, water and land. Great Lakes Solutions is a company that has at the heart of its mission to continually provide new and innovative options to industries looking to reduce the impact of their operations and products on society and the environment.

In relation to mercury, we have developed a line of products that are being utilized to reduce mercury emissions from coal combustion processes. These products may also find application in other combustion processes where there is a need to deal with mercury emissions. Through cooperative arrangements with power generation companies, consulting engineering organizations and academic research, these products provide a cost effective and efficient means of removing mercury from the flue gases.

Our participation in the partnership will encourage further strengthening of the capacities of developing countries and those in transition by providing further opportunities to share and exchange information on mercury control technologies for combustion processes. We will be able to contribute technical expertise, commercial information and materials for use in laboratory experiments, pilot projects, trials and even full scale mercury reduction installations.

Attached to our letter is the Partnership Registration Form and we are looking forward to be confirmed as a participant in the Global Mercury Partnership.

Regards

Robert Campbell  
Director, Global Advocacy

# UNEP GLOBAL MERCURY PARTNERSHIP REGISTRATION FORM \*

<b>Partnership Area</b>	<p>Please check partnership areas that your organization intends to contribute to:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> artisanal and small scale gold mining</li> <li><input type="checkbox"/> mercury cell chlor alkali production</li> <li><input type="checkbox"/> mercury air transport and fate research</li> <li><input type="checkbox"/> mercury in products</li> <li><input checked="" type="checkbox"/> mercury releases from coal combustion</li> <li><input type="checkbox"/> mercury waste management</li> </ul> <p>Please indicate in your support letter how your organization intends to contribute to each of the indicated partnership areas.</p>
<b>Organization Name</b>	Great Lakes Solutions, a Chemtura Business
<b>Name, Functional Title of Representative</b>	Robert Campbell Director, Global Advocacy
<b>Address of Organization</b>	1801 Highway 52 West Lafayette IN 47906
<b>Tel. No</b>	+1 765 497 6173
