RE: UNEP Global Mercury Partnership

To whom it may concern;

Headwater LLC wishes to express our support for the UNEP Global Mercury Partnership goal of protect human health and the global environment from the release of mercury and its compounds by minimizing and, where feasible, ultimately eliminating global, anthropogenic mercury releases to air, water and land. Headwater LLC has served as a consultant to NGO and IGOs already listed as partners and seeks to independently join this undertaking given the wealth of knowledge, associations and background Headwater has on mercury issues.

Headwater wants to bring our expertise and experience in working with partners to accomplish the goal of helping protect human health and the global environment from the release of mercury and its compounds by minimizing, and where feasible, ultimately eliminating global, anthropogenic mercury releases to air, water and land.

Over the past ten years, Headwater, as a consultant and representative of businesses, NGOs and IGOs, has participated in the treaty language development including all sessions of the negotiations, the mercury partnerships in all the areas indicated we seek to participate in, and in independent activities beneficial to the treaty, its implementation and the reduction of mercury as a global pollutant and its implications to affecting human and environmental health.

Thank-you for considering providing Headwater LLC with the opportunity to independently join the partnerships and to participate as an active partner in the areas of Waste, Transport and Fate, Products, and Supply and Storage.

Sincerely,

A handwritten signature in blue ink, appearing to read "ERU", is written over a horizontal line.

Eric Uram
Principal, Headwater LLC
