Subject:
UNEP Global Mercury Partnership

Dear Dr. Younes:

ARCADIS is interested in becoming a partner in the UNEP Global Mercury Partnership, and we are pleased to submit the enclosed application form. We strongly support national and international efforts to reduce the human health risks and environmental degradation resulting from the release of mercury and its compounds to the environment. Due to its global transport, mercury can truly be considered a global challenge, and because of this, we believe that the UNEP Global Mercury Partnership is of pivotal importance.

ARCADIS has been involved for over a decade in U.S. government and industrial programs directed at understanding and curbing mercury emissions as well as addressing mercury monitoring and waste disposal issues. Our proposed representative, Dr. Wojciech Jozewicz, has been participating in all Mercury Experts Meetings organized by Dr. Lesley Sloss of International Clean Coal Centre in the UK. Through these meetings in which UNEP officials have participated, he became familiar with the objectives of the Partnership.

We believe we can contribute to the success of the UNEP Global Mercury Partnership utilizing our experience from the US programs as well as that gained by ARCADIS professionals throughout more than 100 locations worldwide.

Sincerely,

ARCADIS

Andrew J. Murphy
Senior Vice President
