Dear Sir/Madam,

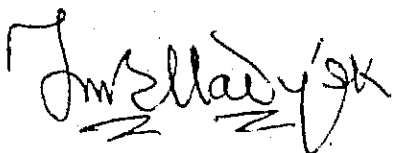

Re: Letter of support to the UNEP Global Mercury Partnership:

My name is Ellady Muyambi and I work for the Uganda Network on Toxic Free Malaria Control (UNETMAC) as the Secretary General. UNETMAC is a Ugandan registered non- for profit, non- governmental organization. It is an umbrella organization which co-ordinates, supports and builds capacity for its partner organizations to engage in sustainable malaria control initiatives, sound chemicals management approaches as well as sustainable community development initiatives.

Having realized that the UNEP Global Mercury Partnership is the main mechanism for the delivery of immediate actions on mercury whose overall goal is to protect human health and the global environment from the release of mercury and its compounds by minimizing and, where feasible, ultimately eliminating global, anthropogenic mercury releases to air, water and land, I do hereby express our organization's commitment to contribute to the achievement of this important goal especially in the areas of mercury in products and mercury waste management.

My organization hereby commits itself to contribute to the overall goal of the partnership by contributing in-kind resources or expertise to the development and implementation of partnership activities as well as help in networking with other organizations/agencies/individuals addressing mercury issues.

Sincerely yours,

ELLADY MUYAMBI
SECRETARY GENERAL
