SUBJECT: Support for the UNEP Global Mercury Partnership Program and Commitment to achieving the partnership goal

Dear Sir/Madam,

The **New World Hope Organization (NWHO)** wishes to formally apply for Partnership to UNEP global mercury partnership Program.

New World Hope is a non-profit, non-political, non-religious & non-governmental organization, established in 1996. **New World Hope Organization (NWHO)** was registered in 2005, as an NGO with the Government of Pakistan under Societies Registration Act. XXI of 1860 (**Registration No. RJSC/DISTT RWP / 40**). The Organization [NWHO] is engaged in humanitarian, environment and participatory development and sustainability here at home and abroad. We at NWHO remain focused on our philosophy of: "Improvement of the quality of life for all peoples, strengthening people for disasters and emergencies, participatory involvement regardless of race, religion or gender ,creed or nationality, and the preservation of Earth, and environmental development".

The New World Hope Organization (NWHO) requests to formally join the UNEP Global Mercury Partnership and we would like to support the Partnership's goal to protect human health and the global environment from the release of mercury and its compounds by minimizing and, where feasible, ultimately eliminating global, anthropogenic mercury releases to air, water and land.

The NWHO is interested to become a partner to the UNEP Global Mercury Partnership and; we are interested in supporting the work of the Global Mercury Partnership, specifically in the areas of Mercury Waste Management, Mercury in Products, Mercury Releases from Coal Combustion And Artisanal and Small-Scale Gold Mining.

We can/will;

- share experiences and skills with other organizations involved in the UNEP Global Mercury Partnership
- contribute by raising awareness of the mercury related issues.
- contribute time and expertise to work with other organizations, agencies, individuals and companies,
 - to promote initiatives that reduce and eliminate use of mercury in small-scale gold mining and;
- reduce and eliminate mercury emissions from large-scale mining.
