Online meeting
Steering Committee of the Global Alliance for alternatives to DDT
9 NOVEMBER 2016
Agenda

1. Opening of the meeting and adoption of the agenda
2. Implementation of the Road Map
3. Outcomes of the DDT Expert Group Meeting (Road Map discussion, WHO presentations, Outcomes)
4. Stockpiles of DDT
5. Looking toward COP 8 (Questionnaire, webinar series, awareness raising materials)
6. Projects
7. Membership of the Global Alliance
8. Work plan of the Global Alliance
9. Next steps
Agenda (2)

- Opportunity to share information and comments
- Closure of the meeting
Implementation of the Road Map for the Development of Alternatives to DDT

Jacqueline Alvarez, UNEP Chemical and Waste Branch
1. Invitation
2. Objective of road map
3. Structure and activities
4. Key actors
5. COP7 and looking toward COP 8
6. UNE activities
7. Next steps
Decision SC-6/1 on DDT (2013)

The COP:

• 11. Invites UNEP, in consultation with the WHO, the DDT expert group and the Secretariat, to prepare a road map for the development of alternatives to DDT, in line with paragraph 2 above, and to present it to the COP at its 7th meeting.

• Decision SC-7/2 on DDT (2015)

The COP:

9. ...invites the UNEP to lead the implementation of the road map in consultation with the WHO, the DDT expert group and the Secretariat, and invites UNEP to report on progress in the implementation of the road map to the COP 8
The seventh Conference of the Parties (2015)

- The key elements of the Road Map are reproduced in *UNEP/POPS/COP.7/5*

- The full Road Map is contained in UNEP/POPS/COP.7/INF/6

- UNEP’s progress report on the Global Alliance is contained in *UNEP/POPS/COP7/INF/7*
The objective of the Road Map is to make locally safe, effective, affordable and environmentally sound alternatives available for a sustainable transition away from DDT.

The Road Map:

- **Provides a framework for action**, aiming to coordinate efforts and establish synergies among actors and projects;
- **Does not set a specific phase-out date**; rather, it promotes the development of alternatives, assesses progress regularly, and decides on the phase-out only when locally safe, effective, affordable and environmentally sound alternatives are available.
The Road Map consists of three elements:

1) Establish management and reporting procedures
2) Implement the Road Map
3) Eliminate stockpiles and waste
Key actors:

- Parties to the Stockholm Convention
- UNEP Chemicals and Waste Branch
- World Health Organization (WHO)
- Regional Centers
- Global Alliance on Alternatives to DDT
- DDT Expert group
- Industry and the private sector
- Civil society
- Academia
- Donors
DDT Expert Group meeting

- Discussion of the Road Map
- Presentations by the World Health Organization
- Final outcomes
Some data on stockpiles

Figure 12 – Reported amount of pesticide stockpiles awaiting final disposal in the states
Looking toward COP 8

The eight Conference of the Parties (May – April 2017)

- Webinar series – themes and dates
- Awareness Raising materials
- Report on implementation of the Road Map – Questionnaire
Online questionnaire about the implementation of the Road Map

- Strategy to compile information in order to report to COP 8
- Based on the Road Map
- Audience: users, holders, key stakeholders implementing projects
- Aim to have final results before January 2017
- Resulting in a public document with statistics
Stockiles and contaminated sites inventory (Jointly with BRS Secretariat)

GEF Project: ESM of DDT waste in Kyrgyzstan and Tajistan
(gef Grant: 15 M)

• GEF Project: Development and promotion of non-POPs alternatives to DDT in India
  • (gef Grant: 10.3M)
Monitoring (biotic and abiotic)

Case studies (jointly with BRS Secretariat)

• YOU?
Demonstration of effectiveness of diversified, environmentally sound and sustainable interventions, and strengthening national capacity for innovative implementation of integrated vector management (IVM) for disease prevention and control in the WHO AFRO Region.
