

Costa Rican Proposal on the Wording of the Title of the Pollution Theme for the Third Session of the UN Environment Assembly

The Republic of Costa Rica would like to share its proposal for the title for the UNEA3 theme on Pollution:

Title suggested by the Republic of Costa Rica:

“A Clean Environment for All”

The rationale for this title is:

- ‘Clean’ is an easy to understand common-language term for a pollution free condition;
- ‘Environment’ is what the UN Environment Assembly’s mandate is about;
- ‘For all’ is in line with the universal notion of ‘Leaving No One Behind’ paying attention to the human rights agenda and Agenda 2030 on Sustainable Development;

The Republic of Costa Rica is looking forward to discussions on the title of the theme. The Special Mission of the Republic of Costa Rica in Nairobi avails itself of this opportunity to renew the assurances of its highest consideration.
