

**This short report is based on the key messages from the regional consultations which took place in Baku.**

**There was no European caucus meeting today, will organize a follow up meeting.**

## **6 key themes**

### **1. Participation & access to info**

- UNEP spearhead work on global convention on principle 10
- train ALL UNEP staff on CSO participation, highlight and strengthen the role of regional office
- inclusive participation: make increased use of translation + adapt the channel of communication to each constituency
- establish an ombudsperson for future generations with a mandate covering UNEP policies and programs

### **2. Education**

- strengthen Education for sustainable, with stakeholders and UNESCO
- include focus on ESD in SDGs,
- mainstream sustainable consumption and production in ESD

### **3. Sustainable Consumption and Production**

- mainstream sustainable consumption and production in national policy, organize national consultation,
- develop frameworks for Environmental Impact Assessment + Strategic Environmental Assessment,
- strengthen legal frameworks for green procurement
- organize a regional conference on this matter

### **4. Science and policy interface**

- Strengthen role of technology in the Green Economy,
- Make greater use e-media for sustainability

### **5. Post 2015**

- Ensure full participation of the MGS and in particular youth,
- Rely on a Human Rights based approach,
- Integrate the need to address global commons,

### **6. Chemicals**

- support Global Chemicals Outlook recommendations,
- call the UNEP-Regional Office for Europe to follow up
