# SOCIAL MEDIA HIGHLIGHTS

IDB 2015

Post Details

22 May was the International Day for Biological Diversity. UNEP engaged social media audiences through a campaign, sending out five tweets, recording 94,251 impressions and 354RT's. Three Facebook posts, reaching 55,956 unique users, recording 1,116 likes and 284 shares.

INSTAGRAM

This month, UNEP's Instagram account recorded **23.3% growth**. UNEP engaged followers in a WED 2015 build up campaign, sending out 10 WED related posts. Popular posts including regram above recorded high engagement with Leonardo Di Caprio's support recording **23,942 likes** on UNEP's post.

ITU 150 YEARS  
ANNIVERSARY

ITU, on 17 May celebrated its 150 year anniversary. UNEP supported ITU's campaign, sending out three tweets which recorded 113,101 impressions and 108 RT's. Two Facebook posts reaching 5,170 unique users and recording 901 shares from UNEP's posts.

RT – Retweet

FB – Facebook

Engagements – total of comments, likes and shares  
Regram: re-post of an original post on Instagram via screenshot onto one's feed.

GLOSSARY

## TWITTER

May saw an increase in followers, a constant engagement rate, marginally fewer replies and lower impression numbers. Lower tweet numbers during two 5-day periods of the reporting period may account for the decrease in impressions. Impressions and engagement rates were generally higher on weekends and weekend Twitter posting should be increased to match audience engagement. 103 of 235 tweets (44%) of posts included visuals compared to 38% last month. Average retweet rate was 44 RT's per post, a decrease of 18% compared to last month's 54. Tweets promoting international days and WED-related content yielded high numbers. Increasing overall number tweets, especially on weekends, and greater number of visuals per monthly posts should be pursued. UNEP's participation in a twitter chat also recorded an increase in engagement rate as well as followers. Participation is encouraged for growth.

**What worked:**

- + WED posters with calls-to-action in tweet text
- + Info boxes from 2014 Annual Report
- + Emotional content
- + Visual content: Visual posts with text overlay
- + Twitter chat participation – spike in followers during chat

**What did not work:**

- + Text only posts (should be further reduced)
- + Replies to other tweets
- + Charts

## FACEBOOK

The number of new followers for FB was up this month, the number of posts was slightly down (83 in May, 86 in April) and total reach was down. The engagement rate remained constant. On average, posts reached 15,036 unique individuals. Many top-performing posts consisted of three sentences or less of text, a link and a high-quality, impactful photograph. More posting should be done in the 7:00-8:00 p.m. EAT window, as this is the period in which the highest number of UNEP's Facebook fans are online. Additionally, posts should seek comments from readers that will lead to interactions with UNEP, as the lack of comments on posts affects reach.

**What worked:**

- + Strong images, especially landscape and wildlife photographs with bright colours
- + Emotional content with positive narrative
- + Posts related to International Day of Biological Diversity (IDB)

**What did not work:**

- + Posts that reported news without highlighting positive outcomes or possibilities
- + International Migratory Bird Day posts
- + Posts without facts and figures

UNEP

Posted by Hootsuite [?] · May 17 at 2:30pm ·

Biodiversity plays an important role in mitigating #climatechange. Even our cities are linked to biodiversity. Ecosystem based solutions to urban water run-off, climate control and other challenges can help protect biodiversity at the same time being cost effective. More: <http://ow.ly/N2YVt>

# TWITTER OVERVIEW

## BEST DAY THIS MONTH

SOURCE: TWITTER ANALYTICS

SOURCE: TWITTER COUNTER

## KEY FACTS

### Best day of the month

Wednesday, May 13, 2015 UNEP recorded **182,292 Impressions** mainly attributed to participation in #YouthNow twitter chat.

### Key data on this day

- WED 2015 Earth Day
- UNEP participated in #YouthNow Twitter Chat
- 19 tweets sent
- UNEP promoted Global Green Growth Forum as well as COP21 build up campaign,

Impressions compared to previous month **1.2%** ↑

Followers compared to previous month **4.8%** ↑

\* **Impressions** is the potential number of users that saw the tweet. E.g. if you have 2,000 followers and send the same message two times, your reach is 2,000 but impressions is 4,000 - because those 2000 people could potentially have seen the message twice.

## WEB

**Bounce Rate:** The percentage of visitors to a particular website who navigate away from the site after viewing only one page.

**Direct Traffic:** Represents traffic to the web site with no referrer as one of the following: 1) the visitor typed the domain name directly into their browser, 2) the visitor bookmarked the site, 3) the visitor clicked on an email, shortcut, or other direct link

**Page Views:** An instance of an Internet user visiting a particular page on a website.

**Referring Domain:** A web site that refers a visitor to your site by linking to it.

**Visitors:** The number of inferred individual people (filtered for spiders and robots), within a designated reporting timeframe, with activity consisting of one or more visits to a site.

**Visits:** An instance of an Internet user visiting a particular page on a website.

## SOCIAL MEDIA

**Engagement Rate:** Is the percentage of people who saw a post and liked, shared, clicked or commented on it. Monthly engagement rate can be used as a benchmark to measure how posts perform on a daily/weekly basis.  
$$\text{Eng. Rate} = (\text{Engaged users}/\text{Reach}) * 100$$

**Fans:** Users who "like" a particular page

**Followers:** Users who have subscribed to your Twitter updates and will see your Tweets show up in their news stream.

**Replies:** Replies are mentions that start with the @handle of a specific user you're engaging.

**Retweet:** A retweet is when a user shares a post of another user with their followers. Twitter enables this action with their "retweet" button.

**Impressions:** Is the *potential* number of users that saw the tweet. E.g. if you have 2,000 followers and send the same message two times, your reach is 2,000 but impressions is 4,000 - because those 2000 people could potentially have seen the message twice.

**Reach:** Is the total number of estimated unique Twitter users that saw a tweet from UNEP.

**Tweets:** Any message you send out to your followers.
