7 GLOSSARY

TWITTER

Although reach was down compared to Jan engagement rates were generally good with an increase in RT's, mentions, replies and favourites compared to Jan. The average retweet rate was **70** RTs per post an increase by 22% compared to last month. Engagement rate was, however, slightly lower than the average for the past six months, suggesting that @UNEP's engagement potential should be advanced.

Follower increase remained steady compared to last month although slightly under the average for the past six months (Feb was 13,770, average 14,142)

What worked:

- + Fact driven and strong content (positive/negative)
- + Emotional content
- + Visual content: Visual posts / infographics / videos give good returns
- + RT's of fact and visual solid content from other credible accounts

What did not work:

- + Text only posts (should be further reduced)
- + General announcements (of e.g. events – necessary but more context often needed)
- + 'Talking heads' visuals and videos

FACEBOOK

Overall engagement, reach and follower growth figures saw an increase compared to Jan metrics. Engagement rate was 4% compared to 3.52% last month. Compared to peers such as UNDP and FAO UNEP record a slightly lower engagement suggesting efforts to increase engagement rates should be put into place.

What worked:

- + Fact driven and strong content (positive/negative)
- + Emotional content
- + 'Big' environment news
- + Highlights from UNEP reports.

What did not work:

- + Call outs for e.g. Champions nominations, SEED award needs stronger wording to record better engagement rates.
- + Promotion of past content e.g. Champions video and Ian Somerhalder video.
- + Difficult subjects for example Mercury PR

FACEBOOK OVERVIEW

UNEP has a total of **150,099** fans on Facebook as of Feb 23, 2015. This month **628,170** people saw UNEP's information from **60** posts

TOP POST THIS MONTH *(shared on Monday 2nd at 11:31am)*

UNEP
February 2 at 11:31am · Edited ·

Research has confirmed that 64% of wetlands worldwide have been lost since 1900, and that 76% of populations of freshwater plants and animals have disappeared in the last 40 years alone, which is worse than any other ecosystem.

Today is World Wetlands Day: Make a pledge to support wetlands or enter your wetland photo to the photo contest to win a flight to anywhere in the world!

Wetlands for Our Future: Act Now to Prevent, Stop, and Reverse Wetland...

World Wetlands Day is celebrated every year on 2 February to help raise public awareness about the...

GLOSSARY

WEB

Bounce Rate: The percentage of visitors to a particular website who navigate away from the site after viewing only one page.

Direct Traffic: Represents traffic to the web site with no referrer as one of the following: 1) the visitor typed the domain name directly into their browser, 2) the visitor bookmarked the site, 3) the visitor clicked on an email, shortcut, or other direct link.

Page Views: An instance of an Internet user visiting a particular page on a website.

Referring Domain: A web site that refers a visitor to your site by linking to it.

Visitors: The number of inferred individual people (filtered for spiders and robots), within a designated reporting timeframe, with activity consisting of one or more visits to a site.

Visits: An instance of an Internet user visiting a particular page on a website.

SOCIAL MEDIA

Engagement Rate: Is the percentage of people who saw a post and liked, shared, clicked or commented on it.

Fans: Users who "like" a particular page in Facebook.

Followers: Users who have subscribed to your Twitter updates and will see your Tweets show up in their news stream.

Impressions: The number of times content associated with your page is displayed. The key difference between Impressions and Reach, is that Impressions measure the number of times your content is displayed, while Reach measures the number of unique people who saw your content.

For example: If five people each saw a post twice, the result would be ten Impressions (times displayed) and a Reach of five (unique people who saw it).

Reach: Is the total number of estimated unique Twitter users that saw a tweet from UNEP.

Replies: Replies are mentions that start with the @handle of a specific user you're engaging.

Retweet: A retweet is when a user shares a post of another user with their followers. Twitter enables this action with their "retweet" button.

Tweets: Any message you send out to your followers.
