2021: Establishment of plans in all marine waters of MS
Key requirements of the MSPD

1. Involve stakeholders
2. Develop cross-border cooperation
3. Apply an ecosystem-based approach
4. Use the best available data and share information
5. Take into account land-sea interaction
6. Promote the coexistence of activities
7. Review plans at least every 10 years
MSP Directive Implementation Support Strategy

- **Priorities:**
  - capacity building
  - cross-border cooperation

- **Tools:**
  - a. expert group
  - b. assistance mechanism
  - c. funding projects
a. Member States Expert Group on MSP

- Exchange of best practices and update on transposition/implementation in each MS and at sea-basin scale

- Guidance on technical issues: (WP 2017)
  - Ecosystem-based approach
  - Links between land planning and marine planning
  - Data collection, use of data and identification of knowledge gaps 2016
  - Mechanism for cross-border cooperation
  - Common approach to Third Country involvement
  - Cross-sectorial cooperation 2014/2015/2016 - continued
  - Best practices in monitoring
  - Public participation
b. Assistance mechanism: EU MSP Platform

- **Technical support for Member States**
  - Disseminate practical information and gather best practices in a practical way: **Website Platform**
  - **Focal Points** for the different Sea-basins to be able to answer Member States/NGOs/Industries' questions at short notice.

- **Studies (2017)**
  - where a gap in knowledge has been identified by the Commission and the expert group. (MSP and Blue Growth)

- **Workshops and Conferences**
  - June 2017 (**WS on Land Sea Interactions**)
  - October 2017 (MSP and Blue Growth)
  - December 2017 (MSP cross border projects)
c. Cross-border projects (EU)

Maritime Spatial Planning (MSP)

Cooperation projects

Assistance to MS to transpose directive
Priorities

• **Support the work of competent authorities** and/or inter-ministerial bodies in charge of developing and implementing maritime spatial plans; **Involvement of planning authorities** or bodies appointed to act on behalf of.

• **Develop a vision for the sea basin:** Use a scenario-based method which should allow identifying and evaluating future potential uses, needs and maritime spatial development options.

• Ensure an **effective engagement with and participation of stakeholders** in the design and implementation of MSP processes;

• Support the coherent application of an ecosystem-based approach and the integration of land-sea interactions;

• Develop, review and/or implement a monitoring and evaluation framework designed to ensure effective and sustainable use of maritime spaces;

• Make use of the best available data and information by encouraging sharing of information.
MSP cross-border projects

International MSP : first steps

1. Study on International good practices for cross-border MSP *(Jan 2016 – May 2017)*

Assist the EC and Member States in the **implementation of the MSP Directive** through the identification of good practices in MSP (focus on **cross-border cooperation**);

Develop recommendations that can support the **promotion of information and knowledge exchange** in MSP at an international level.

2. International MSP : first steps

- Address global challenges
- Accelerate the processus of MSP worldwide
- Boosting jobs, growth and innovation
- Build trust between actors
- How to communicate on MSP
- Spread knowledge on specific themes
- Spread knowledge on process
