

WEBINAR:

Experience of the LIRA Guidance in Latin America and the Caribbean and development of further guidance for chemicals management

Friday 30 June 2017 // 9:00-10:30 am Panama time

Within the framework of the Intergovernmental Network on Chemicals and Waste for Latin America and the Caribbean, a programme of initial actions to facilitate the exchange of information and experiences has been initiated in 2017.

We are glad to invite you to the third webinar, where the Government of Uruguay will share its experience in the use of the LIRA Guidance¹ on the development of legal and institutional infrastructure and measures for recovering costs of national administration for the sound management of chemicals. Information will also be provided on the process to develop further documents for supporting chemicals legislation and institutional capacity, and the last meeting of the Expert Group established to support this activity.

Agenda:

- **Opening** – *UN Environment Latin America and the Caribbean Office*
- **Use of the LIRA Guidance in Uruguay** – *Ms. Gabriela Medina, Ministry of Housing, Land Planning and Environment, Uruguay.*
- **Development of further guidance for chemicals management** - *Ms. Maria Delvin, UN Environment, and Mr. Juan Simonelli, Ministry of Environment and Sustainable Development, Argentina.*
- **Questions and answers**

The webinar will be run in English and Spanish with consecutive translation.
