

**UNITED NATIONS  
ENVIRONMENT PROGRAMME  
MEDITERRANEAN ACTION PLAN**

12 July 2017  
Original: English

---

Meeting of the MAP Focal Points

Athens, Greece, 12-15 September 2017

**Agenda item 5: Specific Matters for Consideration and Action by the Meeting**

**Draft Decision: Amendments to Annex II to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean**

For environmental and cost-saving reasons, this document is printed in a limited number. Delegates are kindly requested to bring their copies to meetings and not to request additional copies.

**Note by the Secretariat**

1. The Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean (SPA/BD Protocol) established a List of endangered or threatened species and a List of species whose exploitation is regulated (Article 12). These two lists respectively constitute Annexes II and III to the Protocol. Contracting Parties have the obligation to adopt concerted measures to ensure the protection and the conservation of animal and plant species appearing in these annexes.
2. By Decision IG.17/14 of COP 15 (Almeria, Spain, 15-18 January 2008), the Contracting Parties have adopted the “Common criteria for proposing amendments to Annexes II and III of the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean”.
3. According to “the Procedure to be followed in amending Annexes II and III of the Protocol” (Decision IG.17/14) Spain submitted on the 9 March 2017 proposals on four new Anthozoa species (*Isidella elongata*, *Dendrophyllia cornigera*, *Dendrophyllia ramea* and *Desmophyllum dianthus*) to be included in Annex II, using the “Form for proposing amendments to the Annex II and Annex III of the SPA/BD Protocol”.
4. Moreover, in view of the taxonomic changes which occurred since the last amendments of Annexes II and III, the denomination of a number of marine and coastal bird species has been changed. This taxonomic update was done in the framework of the updating of the Action Plan for the conservation of bird species listed in Annex II to SPA/BD Protocol, based on new scientific data.
5. The proposed amendments as well as the updated taxonomic changes on species denomination were submitted to the 13<sup>th</sup> Meeting of Focal Points of SPA/RAC (Alexandria, Egypt, 9-12 May 2017).
6. The Meeting approved the proposed amendment of Annex II and agreed to submit the Spanish proposals for adoption by COP 20.
7. The implementation of this Decision is linked to Outputs 3.1.1. and 3.2.1 of the proposed Programme of Work. It has no budgetary implications on MTF resources.

**Draft Decision IG.23/10**

**Amendments to Annex II to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean**

*The 20<sup>th</sup> Meeting of the Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols,*

*Having regard to the Barcelona Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean, and in particular Article 23 thereof, which establishes the amendment procedure for Annexes to the Barcelona Convention and to any of its Protocols,*

*Having regard to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean, hereinafter referred to as the SPA/BD Protocol, and in particular Articles 14 and 16 thereof, on the procedure to amend the Annexes to the SPA/BD Protocol and the adoption of common criteria for the inclusion of additional species in the Annexes to the SPA/BD Protocol respectively,*

*Recalling Decision IG.17/4 of the 15<sup>th</sup> Meeting of the Contracting Parties (COP 15) (Almeria, 15-18 January 2008), on Common Criteria for proposing amendments to Annexes II and III to the SPA/BD Protocol, as well as Decision IG.21/6 of COP 18 (Istanbul, Turkey, 3-6 December 2013) on Amendments of Annexes II and III to the SPA/BD Protocol,*

*Reaffirming the need to ensure that the lists of species appearing in Annexes II and III to the SPA/BD Protocol are updated, taking into account the evolution of the conservation status of species, the need for additional protection as well as the emergence of new scientific data,*

*Taking into account the proposal submitted by Spain at the 13<sup>th</sup> Meeting of Focal Points of SPA/RAC (Alexandria, Egypt, 9-12 May 2017), to amend Annex II to the SPA/BD Protocol, to include four new Anthozoa species (*Isidella elongata*, *Dendrophyllia cornigera*, *Dendrophyllia ramea* and *Desmophyllum dianthus*) listed in the IUCN Red List as “Critically Endangered”, “Endangered”, “Vulnerable” and “Endangered” respectively,*

*Taking also into account the need to align the denomination of the species listed in Annex II to the SPA/BD Protocol with the taxonomic changes that occur frequently, as well as with a rectification concerning the belonging of species to particular taxonomic groups,*

*Having considered the report of the 13<sup>th</sup> Meeting of Focal Points of SPA/RAC (Alexandria, Egypt, 9-12 May 2017) and the conclusion to include the four proposed Anthozoa species in Annex II to the SPA/BD Protocol,*

1. *Adopts* the amendments to Annex II to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean, as presented in Annex I to this Decision;
2. *Invites* the Depositary to communicate without delay to all the Contracting Parties the adopted amendments, pursuant to Article 23 (2) (iii) of the Barcelona Convention.
