

Global Major Group and Stakeholder Forum 2017:

27-28 November 2017
UN Gigiri Complex, Conference Room 1
Nairobi, Kenya

Draft agenda as of 22 November 2017

The 2017 United Nations Environment Assembly will give Major Groups and Stakeholders the unique opportunity to come together and to actively engage with the two-day **Global Major Groups and Stakeholder Forum 2017**). The Global Major Groups and Stakeholders Forum 2017 will take place on November 27 and 28 at the UN compound in Nairobi, Kenya and it will mobilize Major Groups and other Stakeholders to engage in a multi-stakeholders setting that will also include policymakers, learning from each other, developing partnerships and creating their input into the UN Environment Assembly. Participation in the Global Major Groups and Stakeholders Forum-2017 is open to representatives of Major Groups organizations accredited to UNEP, non-accredited organizations, member states and representatives of international organizations. Representatives of MGS need to register through <http://goo.gl/forms/Ev3qqvFJBN> .

Note that registration for participation in the Global Major Groups and Stakeholders Forum does not include registration for UN Environment Assembly itself. For UN Environment Assembly-3 participation kindly also register under: www.unep.org/unea. Non-accredited MGS organizations may not participate in UN Environment Assembly and the Open Ended Committee of Permanent Representatives itself, but in parallel events, such as the Sustainable Innovation Forum or side events and Green Room event if they received an invitation.

Background

The Global Major Groups and Stakeholders Forum will be held on 27-28 November 2017, to kick-start the series of important activities leading to the 2017 UN Environment Assembly that will take place on 4-6 December. The Forum will precede the third session of the Open-Ended Meeting of the Committee of Permanent Representatives on 29 November to 1 December and the Science-Policy-Business Forum on 2-3 December.

The Global Major Groups and Stakeholders Forum is a crucial opportunity for civil society organizations and major groups to collectively engage on the agenda and influence the outcome of UN Environment Assembly, including other official events around it. It is a multi-stakeholder process self-organized by Major Groups and Stakeholders accredited with UN Environment, open to the participation of accredited and non-accredited civil society organizations, the private sector and Member States. The Forum provides Major Groups and Stakeholders the opportunity to deliberate and coordinate their collective inputs into both the Open Ended Meeting of the Committee of Permanent Representatives and the UN Environment Assembly itself. Civil society and stakeholders may also participate in the Science, Policy and Business Forum and other events around UN Environment Assembly-2017.

Global Major Groups and Stakeholders Forum sessions are designed to allow spaces for voices from the grassroots and communities worldwide affected by various forms of pollution such as air, land, freshwater and marine including cross-cutting themes such as noise, military and chemical pollution to be heard and influence actions. Responses of communities and civil society to address pollution and present viable alternatives will be highlighted at the Forum. Interactive methodologies will be adopted in the sessions to encourage active engagement with the participants. Expertise, relevant experiences, regional and gender balance are key considerations in the choice of panelists to enhance the outcomes of the Forum.

The Forum is sponsored by the Nordic Council, the Konrad Adenauer Foundation, the African Network for Animal Welfare and the Pan African Climate Justice Alliance

Objectives:

1. To facilitate Major Groups and Stakeholders preparations for engagement in the Open Ended Meeting of the Committee of Permanent Representatives and the 2017 UN Environment Assembly;
2. To inform participants on engagement opportunities at the 2017 UN Environment Assembly formal program and events;
3. To provide a platform for grassroots and communities to present their experiences and actions on pollution;
4. To present Civil Society Organizations and community actions to address pollution; and
5. To formulate Major Groups and Stakeholders positions and recommendations on UN Environment Assembly Resolutions

Expected Outcomes:

1. Collective* Major Groups and Stakeholders statements and positions on themes of the 2017 UN Environment Assembly

2. Concrete recommendations related to 2017 UN Environment Assembly draft Resolutions; and
3. Collage of community stories and actions on pollution
4. Interaction with some relevant UN Environment Assembly-3 actors such as UNE directives and other UN Agencies, governments, etc.
