Revised reporting format for the implementation of the Barcelona Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols

The Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols at their twentieth meeting,

Having regard to the Barcelona Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols, in particular article 26 of the Barcelona Convention and relevant articles of its Protocols addressing reporting obligations,

Recalling decision IG. 17/3 of the fifteenth meeting of the Contracting Parties (COP 15) (Almeria, Spain, 15-18 January 2008), by which the Contracting Parties adopted the reporting format for the implementation of the Barcelona Convention and its Protocols,

Recalling also decisions IG.22/16 and IG.22/20, adopted by the Contracting Parties at their nineteenth meeting (COP 19) (Athens, Greece, 9-12 February 2016), by which the Contracting Parties requested a simplified and practical draft of the report form for the Barcelona Convention and its Protocols,

Reiterating that national reporting is an obligation for all Contracting Parties, and that timely submission of national reports is essential for keeping under review the implementation of the Barcelona Convention and its Protocols, thereby contributing to strengthening the impact of the Mediterranean Action Plan system,

Recalling article 17 (vi) of the Barcelona Convention, requesting the Secretariat to report regularly to the Contracting Parties on the implementation of the Barcelona Convention and its Protocols,

Recognizing the challenges faced by Parties in reporting on the implementation of the Barcelona Convention and its Protocols, and the need to ensure that legal and technical advice is delivered to facilitate their reporting process,

Noting with appreciation the efforts made by Contracting Parties to report on their implementation of the Barcelona Convention and its Protocols using the online Barcelona Convention Reporting System,

1. *Adopt* the revised reporting format for the implementation of the Barcelona Convention and its Protocols as set out in Annex I to the present decision;
2. *Urge* Contracting Parties to use the revised reporting format when submitting their national implementation reports, starting with those for the biennium 2016–2017, to be submitted by December 2018;
3. *Request* the Secretariat to ensure that the revised reporting format is accessible on the online Barcelona Convention Reporting System, with a view to enabling Contracting Parties to submit their national implementation reports, starting with those for the biennium 2016–2017;
4. *Request* the Secretariat to submit to each meeting of the Contracting Parties, on the basis of an analysis of the information contained in the national reports, a report on the general advances made in the region, including at the legal and institutional levels, in implementing the Barcelona Convention and its Protocols along with proposals for further measures, as necessary.

¹Note: Tables 2 to 5 harmonized to follow the Revised Electronic Reporting Format of the London Convention and its Protocol on Dumping (LC 33/15 Annex 5)

²If countries have ratified both the 1976 Protocol and the 1995 Protocol, the report should include information on the 1995 Protocol only.

³The 1976 Protocol has specific permit categories (e.g. 1976 Protocol Article 5 – Special Permits, 1976 Protocol Article 6– General Permits, 1976 Protocol Article 8 –Force Majeureand1976ProtocolArticle9–CriticalSituation), while the1995 Protocol does not have specific categories, except Force Majeure(Article8) and Critical Situation (Article 9). If more than one permit was issued for a specific waste, please insert another row(s)for each additional permit to provide the information.

⁴The 1976 Protocol does not provide specific waste categories; however, the 1995 Protocol does provide specific waste categories (i.e. dredged material; fish waste or organic materials resulting from the processing of fish and other marine organisms; platforms and other man-made structures at sea and inert uncontaminated geological materials (see Column2.3).

⁵Specify the reporting units commonly used by the individual Contracting Party in their dumping at sea permits.
