REPORT ON THE CELEBRATION OF THE WORLD OZONE DAY IN MONGOLIA

14-16 SEPTEMBER 2017

THEME: CARING FOR ALL LIFE UNDER THE SUN

Country	Subject	References, links, pictures
Mongolia	<p>The World Ozone Day in Mongolia has successfully celebrated from 14th to 16th of September 2017, organized by National Ozone Authority, Ministry of Environment and Tourism of Mongolia in Ulaanbaatar.</p> <p>This year is very special for the global Ozone Heroes. Because, we are also celebrating the 30th Anniversary of the historic achievement of the Montreal Protocol for the phasing out the ozone depleting substances.</p> <p>In this year, World Ozone Day on the theme of “Caring for all life under the sun” has been celebrated by having scientific lecture for the general public, press conference for all national televisions and also mountain trekking to the Bogd Khan Mountain, the Special Protected Area in South of Ulaanbaatar.</p>	 
	<p>1. Scientific lecture for the stakeholders and general public</p> <p>The scientific and cognitive lecture on the theme of “Caring for all life under the sun” for stakeholders and general public been organized on 14 September 2017 at the National Legislation Institute, Ulaanbaatar.</p> <p>In the scientific lecture dedicated to the 30th Anniversary of the Montreal Protocol at ozone depleting substances and World ozone day “Caring for all life under the</p>	

sun” participated about 120 people including delegates from Ministry of Environment and Tourism, Government Implementing Agency, Government Agency for Policy Coordination on the State Property, Ministry of Construction and Urban Development, Ministry of Food, Agriculture and Light Industry, Ministry of Education and Science, Ministry of Mining and Heavy Industry, Ministry of Health, Customs General Administration, Customs Administration in Ulaanbaatar, General Agency for Specialized Investigation, Metropolitan Professional Inspection Department, National Emergency Management Agency, Metropolitan Emergency Department, Civil Aviation Authority, Energy Regulatory Commission, National Agency for Meteorology and Environment Monitoring, Mongolian Agency for Standardization and Metrology, Mongolian Heating, Air Conditioning and Refrigeration Association, stakeholders refrigeration servicing and ODS contained refrigeration equipment importing entities, XPS and polyurethane foam industries, students from University of Science and Technology, Institute of Technology, “Eco-Asia” Institute, The Asia Foundation, non-government organizations and consultants.

The lector answered for all key questions and it gave the beneficial and latest information about the phase out of the consumption and production of the ozone depleting substances and historic achievements of Montreal Protocol. The lecture started broadcasting on “Soyon Gereeruulegch” TV of Mongolia from 16th to 30th of September, 2017 in 15 times for all nations of Mongolia.

1.1 During the lecture Prof. Adiyasuren Ts., announced Mrs. Enkhtuya S., who has awarded the Fighting Pollution Crime in Asia from the Asia Environmental Enforcement Award 2017 in Bangkok, Thailand on 8th of September, 2017.

1.2 After the lecture Prof. Adiyasuren Ts., the Director of NOA and Mrs. Dulamsuren D., the Senior HPMP officer of NOA had given interview to the journalists from Mongolian National Broadcaster- MNB and VTV.

4. Activities of Awareness raising for general public

4.1 TV Interviews

- Prof. Adiyasuren Ts., the Director of National Ozone Authority and Senior HPMP officer Mrs. Dulamsuren D., gave interview about Ozone Layer, alternative technology and 30th Anniversary of Montreal Protocol to MNB, the Mongolian National Broadcaster on 14 September 2017, which broadcasted in that afternoon news at 13:40pm and evening at 20:00pm in headline news "Time Trindle".

<http://www.mnb.mn/i/122423>

- Prof. Adiyasuren Ts., the Director of National Ozone Authority of Mongolia gave interview about Ozone Layer, Climate Change Issues and 30th Anniversary of Montreal Protocol to VTV on 14 September 2017.

- Mrs. Dulamsuren D., the Senior HPMP Officer of NOA disseminated information of ozone depleting substances and their damages to ozone layer on the interview to MNC television at the “Talking hour” news which was broadcasted in four times on 14 September 2017.

<https://www.youtube.com/watch?v=A4drkyYx2fQ>.

4. Published awareness materials and social media:

- Two posters themed “30th Anniversary of Montreal Protocol: Caring for all life under the sun” and “Scientific and cognitive lecture themed Caring for all life under the sun” reflected some of human induced ecological problems.

<https://www.facebook.com/ozonemongolia/>

- Disseminated newly released “Ozone Action in Mongolia” newsletter, Volume 6 during the scientific lecture “Caring for all life under the sun” and press conference at MET on 14 and 15 September 2017.

- Press release for press conference disseminated to the journalists during the scientific lecture on “Caring for all life under the sun” and press conference on 14 and 15 September 2015.

- A new PSA message on “Ozone layer protection and avoiding use of ODS contained equipment” produced and disseminated to the general public on NOA facebook page.

https://www.facebook.com/ozonemongolia/?hc_ref=ARR6xEIs4YG4uh-UEBY5vavSxxODSpf-LGn8IV96UiBeINpcdb7jFS5rWF0dY1w4edo.

- A new PSA message on ozone layer protection and avoiding use of ODS contained equipment produced and disseminated to the general public on youtube.

<https://www.youtube.com/watch?v=ZVODHJm1qo>.

	<ul style="list-style-type: none"> - The newly updated PSA of ozone layer protection message of Miss Mongolia 2009 Badamgerel Kh was broadcasted in public broadcasting display (LED Screen) of the biggest food chain store of “Nomin Holding” group. 	
	<ul style="list-style-type: none"> - Press conference news themed “Appearing a sign of ozone layer recovery” the 30th Anniversary of the Montreal Protocol disseminated at Ministry of Environment and Tourism website on 15 September 2017. 	https://www.mne.mn/?p=2161
	<ul style="list-style-type: none"> - Press conference news on the World Ozone Day and the 30th Anniversary of the Montreal Protocol disseminated on MNB TV website. 	http://www.mnb.mn/i/122507
	<ul style="list-style-type: none"> - Press conference news themed “Prof. Adiyasuren Ts.: Ozone depleting substances are decreasing and appearing a sign of ozone layer recovery” disseminated on ikon.mn website on 15 September 2017. 	http://www.ikon.mn/n/13tz
	<ul style="list-style-type: none"> - National news website news.mn was disseminated news themed “Appearing a sign of ozone layer recovery” on 15 September 2017. 	https://www.news.mn/?id=9735
	<ul style="list-style-type: none"> - National news website gogo.mn was disseminated news themed “16 September 	http://news.gogo.mn/r/214657

	<p>2017: International Day for the Preservation of Ozone Layer” on 12 September 2017.</p>	
<ul style="list-style-type: none"> - National website news ugluu.mn was disseminated news themed “Questions and answers about ozone layer” on 13 September 2017. 		<p>http://www.ugluu.mn/31003.html</p>
<ul style="list-style-type: none"> - “MONTSAME” Mongolian News Agency disseminated information themed “Ozone hole decreased by 4 million square km” on 15 September 2017. 		<p>http://www.montsame.mn/read/65806.</p>
<ul style="list-style-type: none"> - DVD of feature-length scientific lecture themed “Caring for all life under the sun” by Prof. Adiyasuren Ts., the Director of National Ozone Authority in Mongolia was produced and uploaded in NOA facebook page. 	<ul style="list-style-type: none"> - Senior HPMP Officer Mrs. Dulamsuren Dash has delivered information about legal framework of preserving ozone layer and phase out of ozone depleting substances at international and national level at a seminar to Refrigeration Engineering students of University of Science and Technology on 19 September 2017. 	
	<ul style="list-style-type: none"> - Assa.mn website disseminated information of scientific lecture “Caring for all life under the sun” on 15 	
		<p>http://www.assa.mn/content/45337.shtml?a=mi ning</p>

	<p>September 2015. It was a good source for raising public awareness.</p>	
	<p>- Mongolian HVACR Association disseminated information on celebration of 30th Anniversary of Montreal Protocol and benefits of saving ozone layer during the mountain trekking in Bogd Khan Mountain of the Special Protected Area at the link of its facebook page on 18 September 2017.</p>	<p>https://www.facebook.com/mongolianHVACRassociation/?ref=page_internal</p>
	<p>- The NOA and “Next Electronics” electrical appliances importing entity have produced a new logo in the framework of the private-state partnership which displayed all consumer information of refrigerators including “Ozone friendly R-600a” and “Energy efficiency” information will be used as a stick in each selling refrigerator for choosing of ozone-climate friendly alternatives for the end-users.</p>
