PoW delivery going well but...

- EGR 2019 & EGR 10 year summary
 - Emissions continue to grow
 - business-as-usual trajectory
- Policies & projects have not changed the trajectory
 - Discrepancies between governmental policies

Looking Ahead

Climate Change

- Science is clear
- Effects of climate change is regularly felt across the world and needed solutions are available, in use and economical
- Public attention

- Transparency
- Carbon majors

Possible points for discussion

- How can we better support countries to translate policies into action?
- Are there transformative actions that we should build up for 2022-2025?
