

PROGRAMME PERFORMANCE REVIEW

January 2018 to June 2019

United Nations
Environment Programme

Gary Lewis
Director, Policy and Programme Division

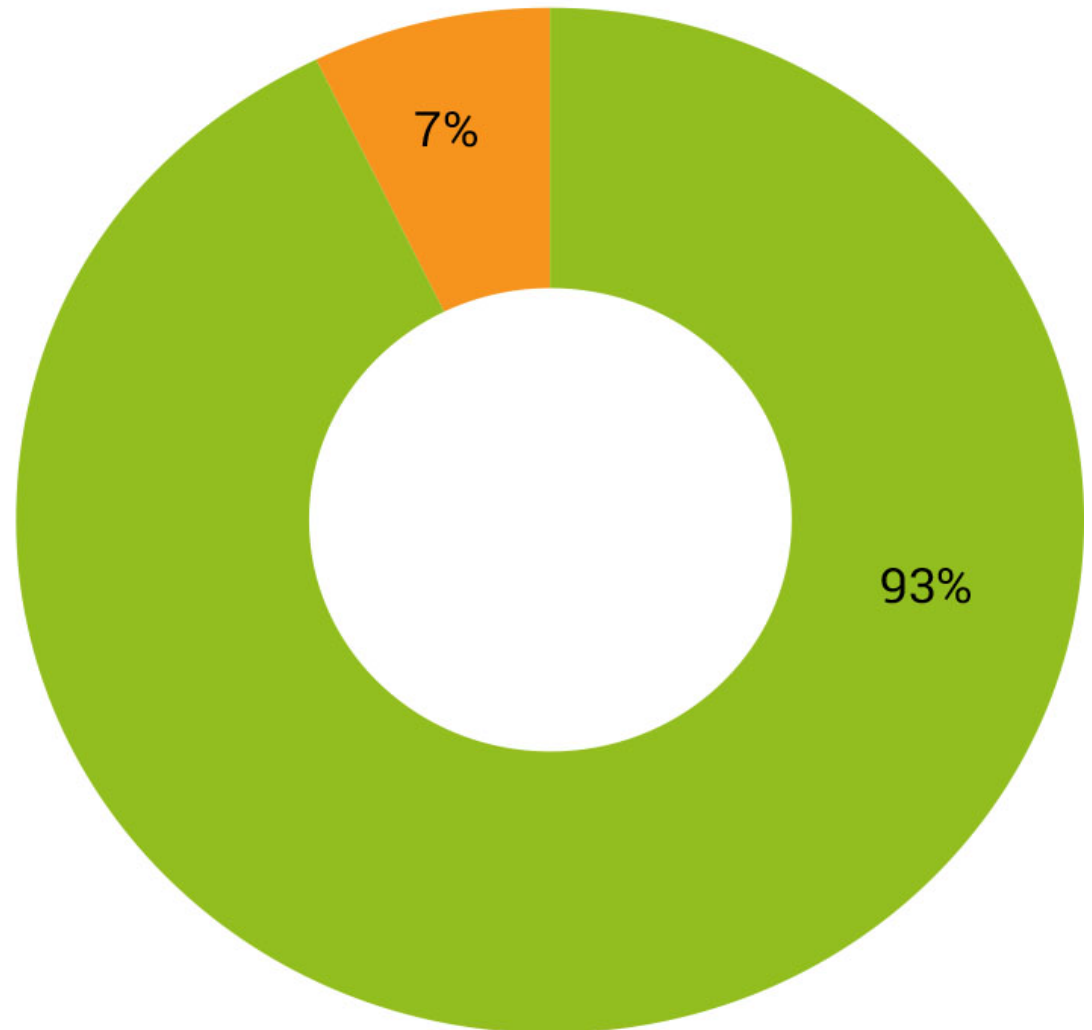

6th Annual Subcommittee – 07 October 2019

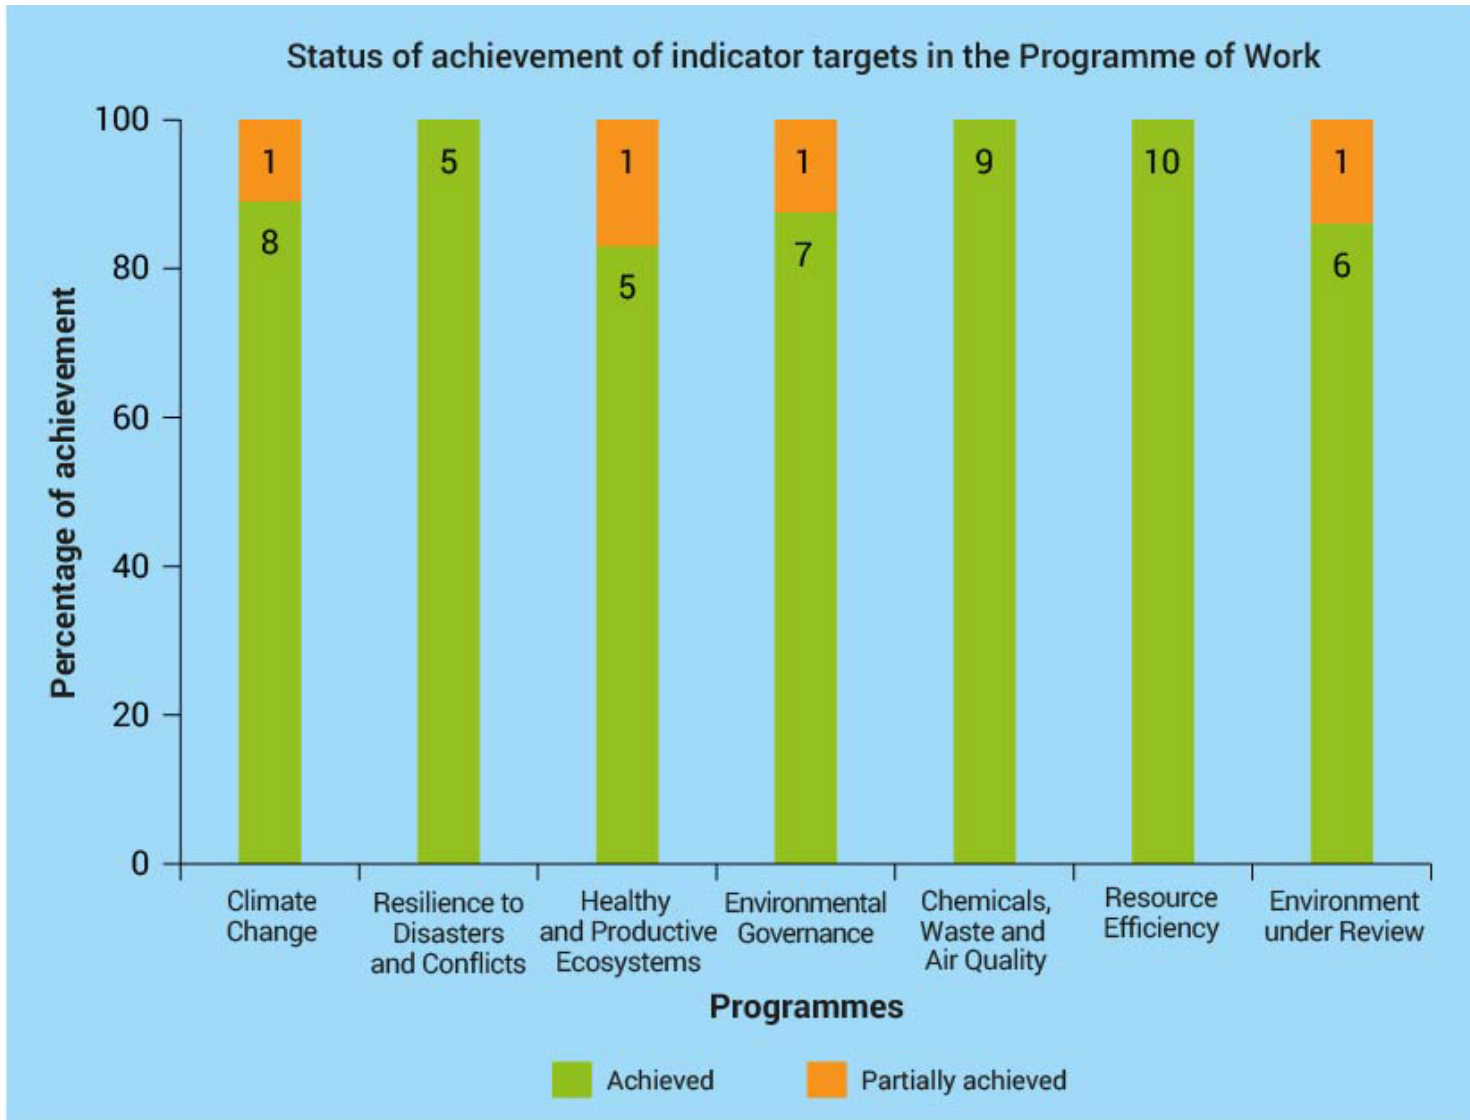

June 2019 Progress Overview

Achievement of Expected Accomplishments and Indicator Targets

-  Achieved ($\geq 100\%$)
-  Partially achieved (60%–99%)

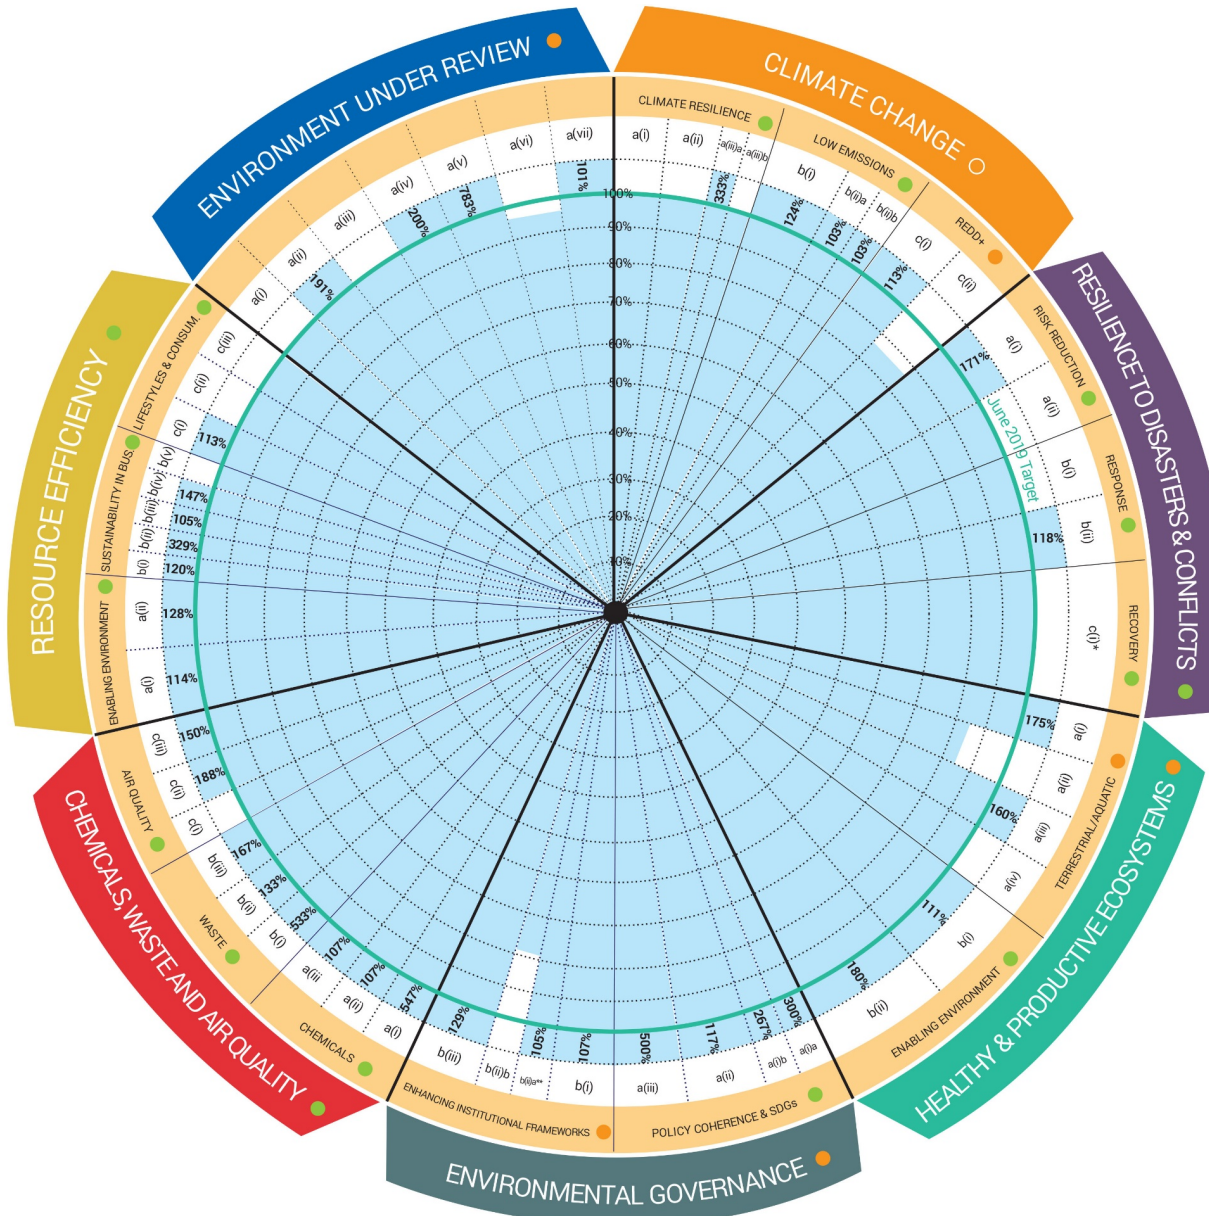

Achievement of June 2019 indicator targets by Sub-programme

The figures in the bar chart represent the number of indicator targets

June 2019 Progress Overview

Expected Accomplishments and Indicator Targets

Selected Highlights of UNEP support Jan 2018 – Jun 2019

- **SP1:** Assets managed under a low-carbon mandate = \$51 billion.
- **SP2:** Reducing risks to natural disasters, e.g. flood and drought management in Burkina Faso, Thailand and Uganda.
- **SP3:** Transboundary elephant conservation and management in the Kavango-Zambezi Conservation Area.
- **SP4:** Integration of environmental priorities in country UNDAFs/UNSDCFs.
- **SP5:** Countries and regions are taking action on marine litter.
- **SP6:** Countries and businesses are adopting more resource efficiency policies and practices, e.g. sustainable tourism.
- **SP7:** Timeliness of the science made available by UNEP for decision-making, e.g. GEO-6 or the World Environment Situation Room.

Seeking your Guidance

- 1. Reducing the implementation lag**
- 2. Leveraging the Private Sector**
- 3. From awareness to action**
