**SUSTAINABLE INFRASTRUCTURE PARTNERSHIP**
Countries are transitioning their economies to be sustainable and inclusive, aligned with the 2030 Agenda and the Paris Agreement.

Countries (including government, the private sector and other stakeholders) are implementing policies, national development planning, practices and investments for a just transition to inclusive green economies based on sustainable consumption and production patterns.

**Policy makers understand and implement SCP and Green Economy policies**
- National policy champions are supported to deliver on sustainable consumption and production pathways.
- Developing and delivering regionally coordinated capacity building
- Facilitating South-South cooperation, peer-to-peer learning, and networking
- Measuring and assessing impacts of national policies and instruments

**Small and Medium Sized enterprises adopt SCP-circular practices**
- Small and medium size enterprises are supported to integrate sustainability at the core of business activities in high impact sectors.
- Providing capacity building to SMEs and start ups at regional level
- Facilitating exchange across strategic partners, SME networking and engagement with policy makers to raise SME awareness and scaling up and replicating best practices
- Engaging financial institutions to provide financing for SME innovation and start-ups

**Youth increasingly make informed consumption choices**
- Youth engaged, informed, and empowered as responsible citizens and consumers, sustainability innovators, advocates and future leaders.
- Engaging formal and non-formal youth networks through awareness raising and information campaigns
- Connecting youth leaders with science, business, NGOs, and policy makers
- Facilitating student peer-to-peer learning and networking with higher education institutions

**Outputs**
- Activities
- Assumptions

**Drivers**
- Stable economic conditions conducive to Sustainable Development
- Continued support for regional and multilateral efforts and support to 2030 Agenda
- Increased investments in green technologies
- Public & Private sector commitment to implement Sustainable Development Agenda

**Assumptions**
- Clear UN Environment mandate on Sustainable Consumption and Production and Inclusive Green Economy
- Continued support for regional and multilateral efforts and support to 2030 Agenda
- Delivery platforms including effective regional outreach

**Impacts**
- Policy makers understand and implement SCP and Green Economy policies
- Small and Medium Sized enterprises adopt SCP-circular practices
- Youth increasingly make informed consumption choices

**Intermediate Outcomes**
- National policy champions are supported to deliver on sustainable consumption and production pathways.
- Developing and delivering regionally coordinated capacity building
- Facilitating South-South cooperation, peer-to-peer learning, and networking
- Measuring and assessing impacts of national policies and instruments

**Overall Outcome**
- Countries are transitioning their economies to be sustainable and inclusive, aligned with the 2030 Agenda and the Paris Agreement.

Overview of Portfolio
Project Focus Areas by Expected Accomplishment

- **Expected Accomplishment A**
  - Enabling Environment

- **Expected Accomplishment B**
  - Sustainability in Businesses

- **Expected Accomplishment C**
  - Lifestyles and Consumption

Science-Policy Interface:
International Resource Panel, Green Growth Knowledge Partnership

**Life-cycle Approaches**

- Economic and Fiscal Policy
- One Planet Network
- Partnership for Action on Green Economy
- Environment and Trade Hub
- Resource Efficient Cities

- Sustainable Finance
- Circular Economy
- Extractives Hub/MRG
- Sustainable Tourism
- Buildings & Construction
- Sustainable Food Systems
- Sustainable Infrastructure

- Sustainable Lifestyles and Education
- Food Loss and Waste
- Consumer Information & Eco-labeling
- Sustainable Public Procurement
