**Note on consultations on the development of an action plan for implementation of paragraph 88.**

The Secretariat would like to propose two options for clustering the sub-paragraphs of paragraph 88 of “The future we want” outcome document adopted at the UN Conference on Sustainable Development (Rio+20) to facilitate the Member States consultations, during tentatively proposed sub-committee meetings on 5 and 26 March 2020:

**OPTION 1:**

**Cluster I:**

- (a) Establish universal membership;
- (c) Enhance the voice and coordination function;
- (g) Progressively consolidate headquarters functions in Nairobi, as well as strengthen its regional presence;
- (h) Ensure the active participation of all relevant stakeholders.

The above clustering builds around the themes of **inclusivity of all people, participation of all stakeholders and outreach capacity**.

**Cluster II:**

- (b) Have secure, stable, adequate and increased financial resources;
- (d) Promote a strong science-policy interface;
- (e) Disseminate and share evidence-based environmental information, and raise public awareness;
- (f) Provide capacity-building to countries, as well as support, and facilitate access to technology.

The second cluster above builds around themes associated with **means of implementation, provision of strong and sound data/information and knowledge and capacity building**.

**OPTION 2:**

- (b) Have secure, stable, adequate and increased financial resources;
