

15 MAY 2020

UNEP MGCY welcomes opportunity to provide comments to the **Note from the Secretariat for the consultation meeting on the CPR-based review: Options under subparagraph 10 (d)**

The following points should be noted –

- We note that the alpha version of the portal will be live by the end of May
- We suggest that alpha version be open to comments from member states and MGOS
  - This can be done via providing structure of website in document format where comments can be sent
  - And accepting any further comments
- While we understand that “indicators” of implementation of the resolutions are adopted by UNEA, we are still concerned and want to give further inputs on how information will be presented
  - Does it allow MS to report on specific activities or projects?
  - Does it allow for feature to add tags such as “youth”, “business”, “economy”, etc to the actions ?
  - There should also be flexibility to provide broad SDGs on which these actions link to
  - How does one qualify these information in a more equitable manner – is there going to be a “limit” on which MS or which UNEP division can upload what content?
  - Verification – how can one get further details about an activity ?
  - Balancing this from being an implementation reporting vs “promotional” platform
- A lot of our concerns come from the fact that we have not yet seen “first look” of this portal
- We also want to state that MGOS must be included in the inputting processes of design, because the portal is about **BOTH member state actions and UNEP Program of Work – the latter of which includes in large part cooperation and engagement of stakeholders.**
- We believe that further deadlines on launch of different versions should be flexible to allow inputs to be reflected
- We are keen to provide inputs on further steps
