Emne: On Ministerial Declaration Inputs

Dear Sir/Madam,

In response to your of His Excellency Sveinung Rotevatn , Minister of Climate and Environment, Norway

I would like to share my messages on the first question:

- What would you, as government/organization/stakeholder, welcome as the most important elements and /or key messages from the ministers in the declaration to address the theme in an impactful manner?

They are:

1. Success in the achievement of SDGs starts with the intelligent implementation of MEAs at national level, assessment and report of progress
2. UNEP encourages intelligent implementation of MEAs at national level as means to save the planet and achieve the sustainable development goals

Yours

Gilbert KUEPOUO, Ph.D.,
