The Integrating Water, Land and Ecosystems Management in Caribbean Small Island Developing States is a five-year multi-focal area regional project.

IWEco Overview

The Integrating Water, Land and Ecosystems Management in Caribbean Small Island Developing States is a five-year multi-focal area regional project.

IWEco is the continuation of IWCAM Project, which finished in 2011:

integrating water, land and ecosystems management in caribbean small island developing states

Integrating Water, Land and Ecosystems Management in Caribbean SIDS

September 2016 – September 2021

Map of the Project

Participating Countries:

National Projects:

- Antigua and Barbuda
- Cuba
- Dominican Republic
- Jamaica
- St Kitts and Nevis
- St Lucia
- St Vincent and the Grenadines
- Trinidad and Tobago

Regional contribution:

- Barbados
- Grenada

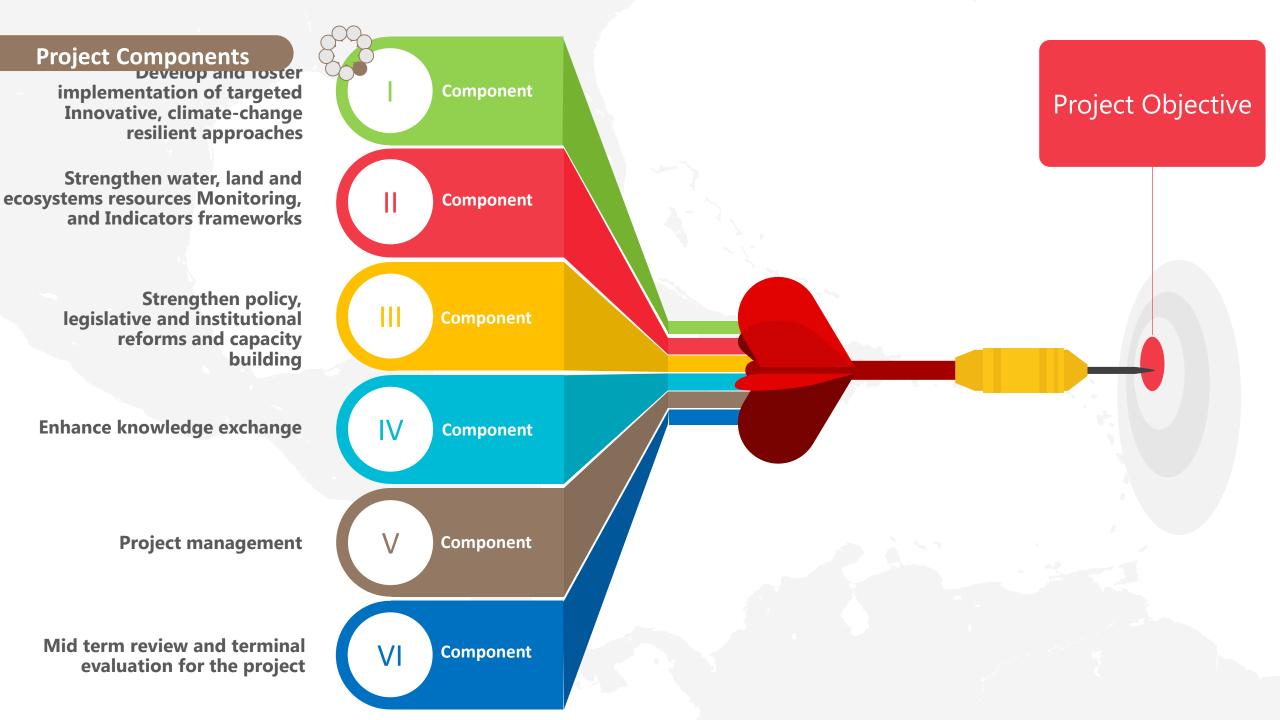

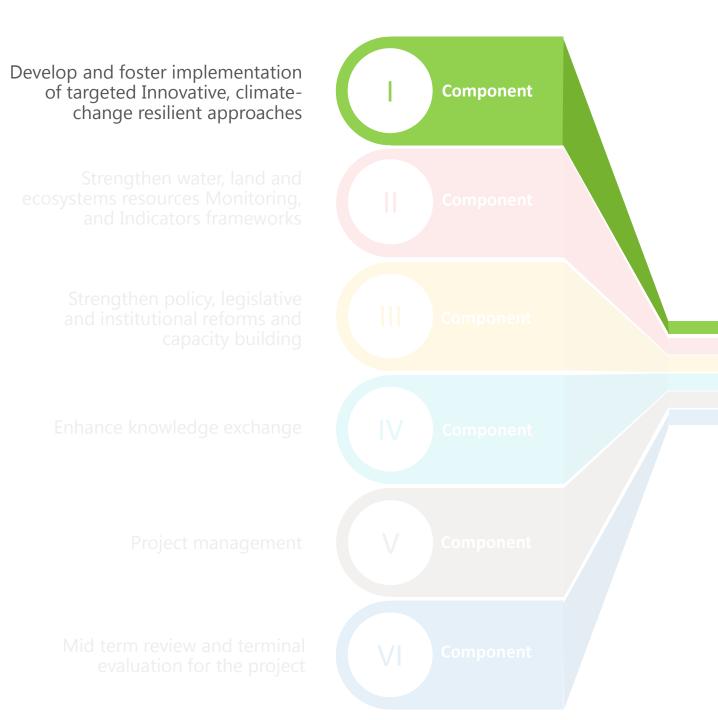

Project Objective

To contribute to the preservation of **Caribbean COSYSTEMS** sustainability of livelihoods through the application of existing proven technologies and approaches that are appropriate for small island developing states through improved fresh and coastal **Water resources management,**

sustainable **land** management and sustai-nable forest management that also seek to enhance resilience of socio-ecological systems to the impacts of **climate change.**

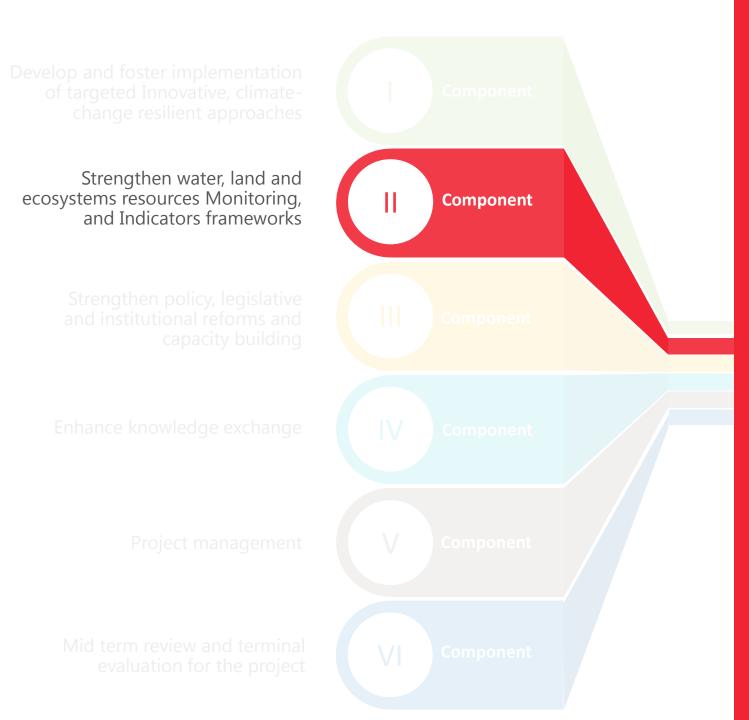

Outcome C1.1: Verifiable, evidence-based stress reduction at project sites through appropriate sustainable water, land and ecosystems management interventions that account for climate change.

Outcome C1.2: Enhanced livelihood opportunities and socio-economic co-benefits for targeted communities from improved ecosystem services functioning.

Outcome 2.1: Strengthened national systems for monitoring of environmental status with respect to key international agreements.

Outcome 3.1: Strengthened national policy and legislation for the effective management of water, land and ecosystems resources that account for climate change and enhanced capacity.

Outcome 4.1: Improved engagement and information access for practitioners and other stakeholders through targeted knowledge sharing networks.

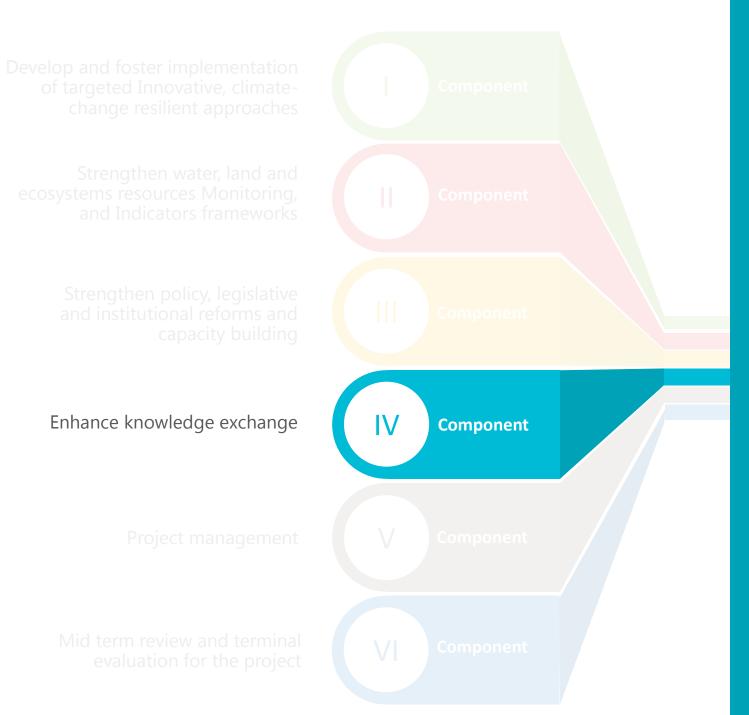

Outcome 2.1: Strengthened national and regional systems for monitoring of environmental status with respect to key international agreements.

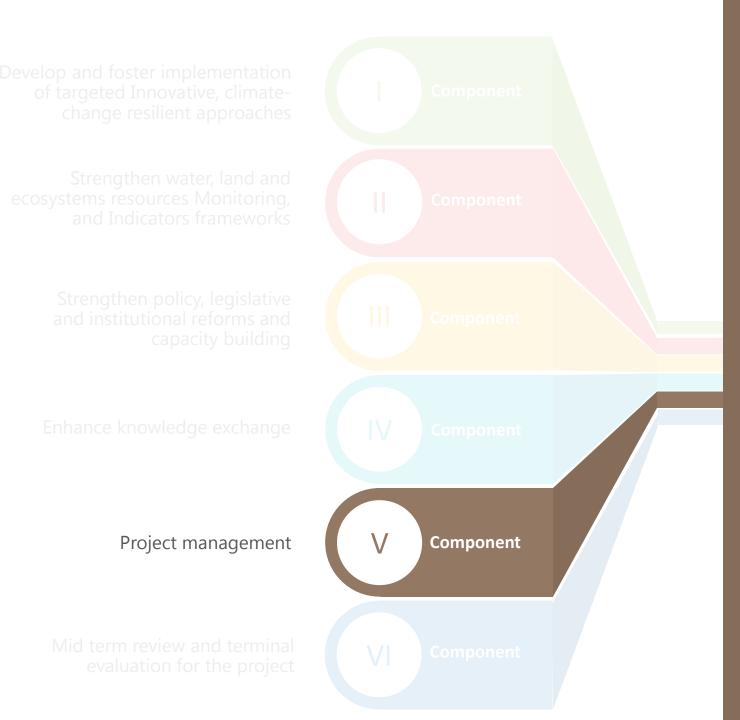

Outcome 3.1: Strengthened policy and legislation for the effective management of water, land and ecosystems resources that account for climate change.

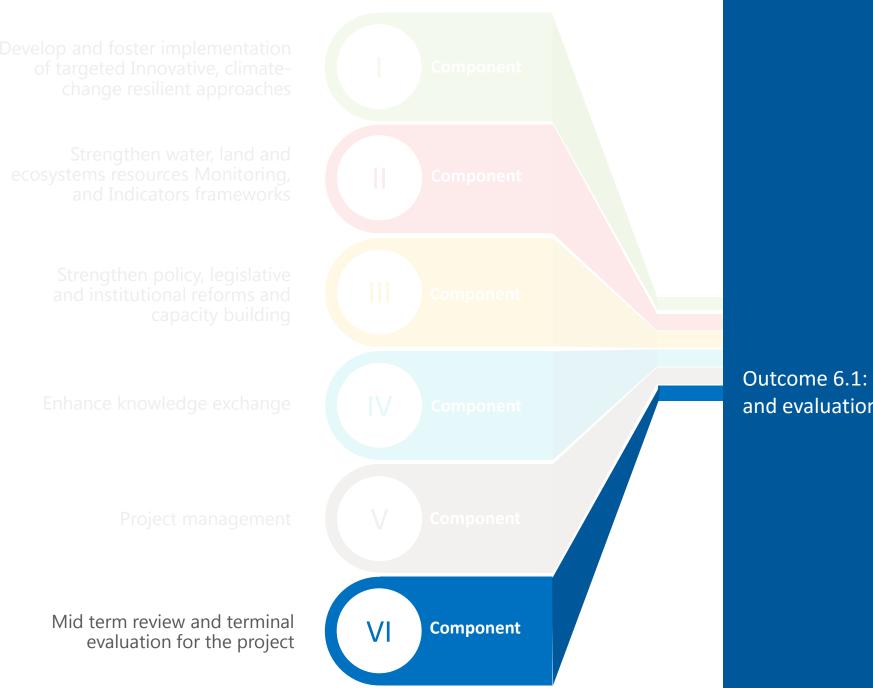

Outcome 3.2: Strengthened capacity of national and regional institutions and other stakeholders for water, land, and ecosystems management that accounts for climate change.

Outcome 4.1: Improved engagement and information access for practitioners and other stakeholders through targeted knowledge sharing networks

Outcome 5.1: Project management through a regional Project Co-ordination Unit (PCU) and support for the activities through Steering Committee supervision, reports, etc.

Outcome 6.1: Implementation of the monitoring and evaluation (M&E) for the project.

SDGs faced

GOAL 6

Ensure availability and sustainable management of water and sanitation for all

GOAL 14

Conserve and sustainably use the oceans, seas and marine resources for sustainable development

GOAL 15

Protect, restore and promote sustainable use of terrestrial ecosystems

Jan Louis Betlem IWEco Regional Project Coordinator

Donna Sue Spencer

IWEco Communications Specialist

Shamene Alyssa Parker IWEco Programme Management Assistant

Donna Henry-Hernández IWEco Programme Management Assistant

- Start of disbursements for all the field activities in Project Countries (and the Procurement for Cuba)
- Recruitment of the Monitoring and Technical Specialist (P2) and formulation of the Monitoring Frameworks according to GEF rules and Tracking tools
- Research and Monitoring Partnership Meeting (By Carpha, Saint Lucia) and R&M Strategies Development
- IWEco Newsletter and IWEco Website
- IWEco style guide (by PCI Media Impact)
- Implementation of a Regional Knowledge, Attitudes and Practices Survey (KAPS) in occasion of the CWWA Annual Conference and Exhibition, October 2018.
- Further networking and collaboration with a variety of Regional Partners

integrating water, land and ecosystems management in caribbean small island developing states

Thank you

Jan Betlem – Regional Project Coordinator
