

Tonga 2020 World Ozone day Celebration

The Kingdom of Tonga commemorated the 2020 WOD celebration through exhibitions. The event was officiated by the Prime Minister with a cake cutting to mark the 35 years of ozone layer protection.

The exhibition booths displayed various ozone protection awareness publications including brochures, pull up banners and posters. A demonstration on the use of the refrigerant identifier was also conducted. More than 300 stakeholders participated ranging from general public, school students, government and private sectors including representatives from Parliament, New Zealand High Commission, Australian High Commission, Embassy of the Republic of China and Embassy of Japan. The NOU also made a presentation on the ozone layer protection, conducted clean up campaign and conducted other activities to commemorate the World Ozone Day celebration on the 16th of September 2020.
