UNGA Resolution 73/333 Draft Building Blocks of a Political Declaration Recommendations from the Emirates Environmental Group

Page 1, paragraph 3:

“...the Rio Declaration on Environment and Development...”

EEG's input:

Add the following phrase here: “including paragraph 89” as paragraph 88 has already been mentioned in the document.

Page 2, paragraph 6:

“...recognise the role of multilateral environmental agreements...”

EEG's input:

As in paragraph 3, it is important to mention some specific environmental agreements in this paragraph too.

For example: Our Common Future “the Brundtland Report”, the World Charter for Nature and the Stockholm Declaration etc.

Page 5, paragraph 27:

Regarding public finance

EEG's input:

It is important here to mention why Member States and stakeholders must make efforts to raise financing. For example, this can be added – According to UNCTAD 2014, “The UN estimates the gap in financing to achieve the Sustainable Development Goals (SDGs) at \$2.5 trillion per year in developing countries alone.”
