BLUE SOLUTIONS

... we engage for **healthy oceans for sustainable development**

... we collate and share **knowledge**, we support **capacity development** and we **strengthen policy dialogue**

... we work on **Coastal and Marine Spatial Planning, Nature-based Solutions** and **Sustainable Ocean Economy**

... we work in **close collaboration with bilateral, regional and global projects** by the four implementing partners and other interested organisations

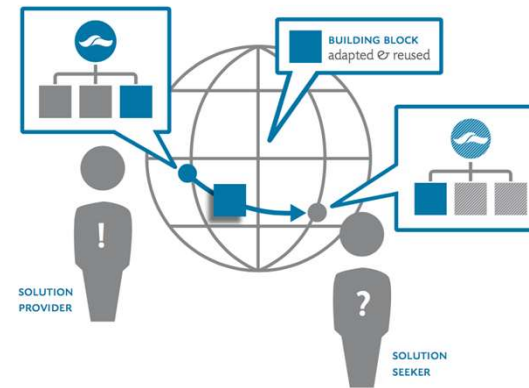

BLUE SOLUTIONS

“We collate and share knowledge on proven, replicable solutions”

PANORAMA

SOLUTIONS FOR A HEALTHY PLANET

Face-to-face exchange
Regional, Global, topic wise

“We enhance capacities for scaling up success”

Blue Solutions Trainings

- **Blue Planning in Practice**
Ecosystem-based planning and management in coastal & marine areas
- **Blue Leadership Journey**
Enhanced leadership capacities for successful marine management
- **Sustainable Ocean Economy**
Add-on SOE elements in the context of spatial planning

Additional formats

- Advisory service
- Technical online seminars

“We support policy dialogue to foster implementation”

Contributions

- **Provision of practical examples** (on the ground impact)
- Providing the **stage to partners/“local champions”**
- **Action to support policy implementation** (guidance to get to implementation)

Policy processes

- CBD
- UNFCCC
- SDG 14/UN Ocean
- IUCN WCC
