GPML Digital Platform Entity Focal Point Roles

Background

As part of the phase II release, Entities will have the ability to sign up as stakeholders through the GPML Digital Platform. An Individual submitting an entity registration will as the primary entity focal point and will have the option to submit an additional entity focal point.

All stakeholders, registered on the platform will have "Create," "Read," "Update" and "Delete" (CRUD) functionalities on resources they have submitted and profiles.

Admins will also have rights to assign reviewers to submitted/ updated resources.

Entity Focal Point Roles

- Will act as contact persons for an entity and will have rights to update the entity profile.
- Will have ability to assign an additional entity focal point to the entity.
- Will have rights to create, update and delete resources belonging to the entity.
- They will have rights to assign edit permissions for resources belonging to the entity to stakeholders associated with the entity.
