

Final EU4Environment work plan for 2019-2022: UKRAINE

This document is prepared for the second Regional Assembly meeting, to be held in a virtual format on 22 September 2020, the discussion during the country consultations with Ukraine (20 July 2020), in regard to the implementation of the current work plan.

The Tables 1-4 present, in a consolidated manner, the final plan of work in Ukraine for Results 1-3 and 5 as part of the European Union for Environment Action (EU4Environment), as it was agreed in September 2019. It was prepared based on the discussions at the National launch event in Ukraine (21-22 March 2019, Kyiv), the Inaugural EU4Environment Regional Assembly meeting (27-28 June 2019, Brussels) and takes into account the final comments received by 6 September 2019.

Annex 1 to the work plan presents key outcomes of the discussion during the country consultations with Ukraine (20 July 2020), in regard to the implementation of the current work plan and proposals, if any, to adjust it. The Implementing Partners agreed to follow up bilaterally on the respective activities.

Given still highly uncertain situation with covid-19 pandemic, the current work plan, in particular its timeline, may be revised towards end 2020 – beginning 2021.

Action required: For information.

Introduction

This document is the final country-specific **Plan of Work in Ukraine for 2019-2022** of the European Union for Environment programme (EU4Environment), as it was agreed in September 2019. It consolidates the activities identified for implementation in Ukraine with respect to the proposals specified in the Description of the Action (DoA) for **Results 1-3** and 5. The regional activities, involving Ukraine, are covered separately by the regional work plan.

The document does not include the work plan for **Result 4**, led by the World Bank, due to administrative procedures around the signatory contract between the European Commission and the World Bank, which made it difficult to conduct all the necessary country consultations and preparatory technical work. The work plan for Result 4 will be added after the completion of the contractual procedure.

It builds on initial commitments discussed at the EU4Environment national launch event (21-22 March 2019, Kyiv) and the follow-up consultations, including mapping exercise, and discussions at the EaP Panel on Environment and Climate Change (27 May 2019, Vienna) and at the EU4Environment Inaugural Regional Assembly meeting (27-28 June 2019, Brussels). It also takes into account the final comments received by 6 September 2019.

It accommodates, to the extent possible, the country requests taking into account feasibility and the resources available.

Table 1 below maps all activities agreed for implementation in Ukraine in September 2019. Tables 2-4 present more detailed planning under each Result, expected output targets and indicative timeline for the 2019-20 implementing period. A detailed description of each activity is available from the DoA. This work plan is kept flexible, to adjust, if necessary, in the course of implementation the timeline and activities, in case of any issues beyond Partners control.

The Annex 1, added to this document, presents the key outcomes of the discussion during the country consultations with Ukraine (20 July 2020), in regard to the implementation of the current work plan and proposals, if any, to adjust it.

Given the unprecedented challenge brought in 2020 by the covid-19 pandemic, and still highly uncertain situation, the current work plan, in particular its timeline, may be revised towards end 2020 – beginning 2021.

About EU4Environment

The **general objective of EU4Environment** is to help the partner countries preserve their natural capital and increase people's environmental well-being by supporting environment-related action, demonstrating and unlocking opportunities for greener growth, and setting mechanisms to better manage environmental risks and impacts.

The EU4Environment programme is structured around **five Results**:

- **Result 1**. Greener decision-making (implemented by UNEP and UNECE, with coordination by UNIDO);
- **Result 2**. Circular economy and new growth opportunities (implemented by UNEP and UNIDO, with coordination by UNIDO);

- **Result 3**. An environmental level playing field (implemented by OECD);
- **Result 4**. Ecosystem services and livelihoods (implemented by the World Bank);
- **Result 5**. Knowledge sharing and coordination (implemented by OECD, with input from all implementing Partners).

The total EU4Environment budget for four years (2019-2022) is about EUR 20 million, of which EUR 19 million were provided by the European Union.

The Programme implementation started in January 2019. During the first half of 2019, so called "mobilisation and inception phase", the Partners formalized and operationalized Programme implementation in all six countries and started selected activities.

National Focal Points in Ukraine

To support the Programme implementation, the Ministry of Environmental Protection and Natural Resources and the Ministry for Development of Economy, Trade and Agriculture appointed **National Focal Points** (NFPs) of the EU4Environment. The NFPs aims to serve the coordination role and represent their respective countries during and between the annual Regional Assembly meetings.

Table 1. Mapping of selected activities in Ukraine for Results 1-3 and 5.

Activities	Ukraine					
RESULT 1. Greener decision-making						
1.1: Green economy ownership, policy coherence and cross-sectorial coordination (UNEP)						
Activity 1.1.1: Survey and large-scale training of public sector employees	V					
Activity 1.1.2: Fitness tests of relevant policy documents and policy proposals	V					
Activity 1.1.3: Facilitation of National Policy Dialogues on Green Economy	V					
1.2: Sectoral investment planning and comparative analysis of costs and benefits (UNEP)						
Activity 1.2.1: Investment needs assessment in priority sectors	X					
Activity 1.2.2: Development of investment strategy proposals or action plans	X					
1.3: Strategic Environmental Assessment and Environmental Impact Assessment (UNECE)						
Activity 1.3.1: Assistance for finalizing the legal reforms on SEA and on transboundary EIA	Х					
Activity 1.3.2: Comprehensive capacity and institutional building						
1.4: Awareness, education and public acceptance of the Green Economy transition (UNEP)						
Activity 1.4.1: Implementation of educational courses	V					
Activity 1.4.2: Awareness raising campaigns for general public	V					
RESULT 2. Circular economy and new growth opportunities						
2.1: Resource Efficient and Cleaner Production and eco-innovation among SMEs (UNIDO)						
Activity 2.1.1: Eco-industrial parks feasibility	X					
Activity 2.1.2: Supporting RECP Clubs	V					
Activity 2.1.3: Promoting Circular Economy – Waste mapping in municipalities	V					
Activity 2.1.4: Training national experts	V					
Activity 2.1.5: Additional RECP Assessments	V					
Activity 2.1.6: Raising awareness and sharing knowledge	V					
Activity 2.1.7: Further institutionalising RECP	Х					
2.2: Concept and tools of the EU Single Market for Green Products initiative (UNIDO)						

Activity 2.2.1: Mapping of existing practices and barriers for existing labelling schemes Vactivity 2.2.2: Avarreness and understanding of SMCP opportunities and benefits Vactivity 2.2.3: Piloting product environmental level policy flore) Activity 2.2.3: Piloting product environmental level policy flore) Activity 2.2.3: Piloting product environmental level policy flore) Activity 2.2.3: Capacity development and complementary tools (UNEP) Activity 2.3.1: Assessments/advisory services to establish SPP and eco-labelling policies Vactivity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling Vactivity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling Activity 2.4.1: Developing draft action plan for waste management (uNEP) Activity 2.4.2: Initialtra/gassisting the establishment of Extended Producers Responsibility schemes Xactivity 2.4.2: Initialtra/gassisting the establishment of Extended Producers Responsibility schemes Xactivity 2.5.1: Identify priority green economy sectors (UNEP) Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors Xactivity 2.5.2: National trainings on sustainable production/eco-innovation for companies and governments Vactivity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments Vactivity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors Xactivity 2.6.3: Assess SMES/companies' potential for eco-innovation & provide advisory services for business strategy review/development Xactivity 2.6.4: Avareness raising activity among business sector and government Xactivity 2.6.4: Avareness raising activity among business sector and government Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises Occurrence of the provision of environmental impacts (OECD) Activity 3.1.2: Greening Small and Medium Sized Enterprises (
Activity 2.2.3: Piloting product environmental footprint (PEF) in selected industries 2.3: Green Public Procurement and complementary tools (UNEP) Activity 2.3.1: Assessments/advisory services to establish SPP and eco-labelling policies V Activity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling V 2.4: Use of strategic approaches on waste management (UNEP) Activity 2.4.1: Developing draft action plan for waste management (entional or municipal level) Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes X 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs X Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors X 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments V Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development Activity 2.6.3: Awareness raising activity among business sector and government Activity 2.6.4: Awareness raising activity among business sector and government Activity 2.6.4: Awareness raising activity among business sector and government Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises O
2.3: Green Public Procurement and complementary tools (UNEP) Activity 2.3.1: Assessments/advisory services to establish SPP and eco-labelling policies V Activity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling V 2.4: Use of strategic approaches on waste management (UNEP) Activity 2.4.1: Developing draft action plan for waste management (national or municipal level) Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes X 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs X Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors X 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation potential in selected sectors Activity 2.6.4: Awareness raising activity among business sector and government Activity 2.6.4: Awareness raising activity among business sector and government X RESULT 3. An environmental level playing field 3.1: "Smart" regulation of environmental impacts (OECD) Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises
Activity 2.3.1: Assessments/advisory services to establish SPP and eco-labelling policies V Activity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling V 2.4: Use of strategic approaches on waste management (UNEP) Activity 2.4.1: Developing draft action plan for waste management (national or municipal level) Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes X 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs X Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors X 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development Activity 2.6.4: Awareness raising activity among business sector and government Activity 2.6.4: Awareness raising activity among business sector and government Activity 2.6.4: Awareness raising activity among business sector and government Activity 2.6.4: Reforming regulation of environmental level playing field 3.1: "Smart" regulation of environmental impacts (OECD) Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises
Activity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling 2.4: Use of strategic approaches on waste management (UNEP) Activity 2.4.1: Developing draft action plan for waste management (national or municipal level) Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes X. 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs X. Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors X. 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments V. Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors X. Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development X. Activity 2.6.4: Awareness raising activity among business sector and government X. RESULT 3. An environmental level playing field 3.1: "Smart" regulation of environmental impacts (OECD) Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises
2.4: Use of strategic approaches on waste management (UNEP) Activity 2.4.1: Developing draft action plan for waste management (national or municipal level) Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments V Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development X Activity 2.6.4: Awareness raising activity among business sector and government X RESULT 3. An environmental level playing field 3.1: "Smart" regulation of environmental impacts (OECD) Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises
Activity 2.4.1: Developing draft action plan for waste management (national or municipal level) Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes X 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs X Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors X 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments V Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors X Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development X Activity 2.6.4: Awareness raising activity among business sector and government X RESULT 3. An environmental level playing field 3.1: "Smart" regulation of environmental impacts (OECD) Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises
Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes 2.5: Reforms in priority green economy sectors (UNEP) Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors 2.6: Ecological value-chain and product innovation (UNEP) Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments V Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development X Activity 2.6.4: Awareness raising activity among business sector and government X RESULT 3. 5.3: Monitoring of progress at the econor	5.3: Monitoring of progress at the economy-environment nexus (OECD)										
Preparation /update of country profiles using indicators			country profile			country profile		2 country profiles	4 profiles (1 per year)	The report will serve to promote policy debates on green growth and enable progress evaluation,	
Update of GGI report								Update with new data, possibly with new indicators	1 report	peer review and benchmarking mechanism. Preparatory work on GGI report may already sta in 2019-20 (in link to preparation of a regional mid-term report), but in-depth analysis is envisaged in the second phase of the Programme.	

^{*} Note: The country-specific needs, if any, identified in this Table will be accommodated, to the extent possible, taking into account feasibility and the resources available; subject to further discussion and confirmation.

Annex 1. Key outcomes of the discussion during the EU4Environment country consultations with Ukraine (20 July 2020) in regard to the current work plan implementation and proposals, if any, to adjust the work plan

The Implementing Partners agreed to follow up bilaterally on the respective activities. All proposals will be considered by the Partners and incorporated to the extend possible, subject to resource availability and additional bilateral discussions. The current work plan, in particular its timeline and activities, if applicable, may be revised towards end 2020 – beginning 2021.

- Continue to implement the activities as envisaged in the Work Plan and in line with the agreed timeline, using alternative modes of operation (virtual communications/meetings and engaging local consultants);
- Consider the received proposals from the Ministry Environmental Protection and Natural Resources by the Partners and to follow up bilaterally on specific activities (as listed in the Table below) to integrate them as much as possible in the Work Plan;
- See for further details the Summary Record of the meeting.

	Activities	Ukraine \ change
RESULT 1. Greene		
1.2: Sectoral investi	ment planning and comparative analysis of costs and benefits (UNEP)	
Activity 1.2.1:	Investment needs assessment in priority sectors	X
proposal	Preparation of analytical materials on how to provide economic incentives for land and environmental protection in the context of land use regulation in the agricultural and forestry sectors	
Activity 1.2.2:	Development of investment strategy proposals or action plans	X
1.3: Strategic Enviro	onmental Assessment and Environmental Impact Assessment (UNECE)	
Activity 1.3.1:	Assistance for finalizing the legal reforms on SEA and on transboundary EIA	X // <mark>V</mark>
<u>proposal</u>	Development of a draft law on amendments to the law of Ukraine On strategic environmental assessment and support the draft in the Parliament - Q3 2020	
Activity 1.3.2:	Comprehensive capacity and institutional building	V
	Pilot project on SEA – Q4 2020. ToR for SEA database in Ukraine (including information on procedures, a roster of SEA/EIA practioners, a register of undergoing SEA/transboundary EIA procedures and related documentation, register architecture) – Q3 2020.	
	Methodological recommendations for SEA of urban planning documentation.	
proposal	Sectoral guidelines for the development of SEA reports for state planning documents in the field of energy, agriculture, forestry, fisheries, industry, transport, waste management, water use, environmental protection, telecommunications, tourism (it is proposed to prepare general guidelines recommendations broken down by industry).	
	Training (intensive and practice-oriented) workshops on SEA content and procedure including preparation of textbooks, informational and explanatory materials on the implementation of strategic environmental assessment.	
	Awareness raising event on transboundary EIA and SEA for local authorities (Transcarpathian region).	
	Developing awareness raising materials on SEA and/or transboundary EIA to provide good practice examples.	
	Preparing a video on transboundary EIA and its benefits in English and its translation in Ukrainian.	
RESULT 2. Circular	economy and new growth opportunities	

2.1: Resource Effic	ient and Cleaner Production and eco-innovation among SMEs (UNIDO)	
Activity 2.1.1:	Ministry for Development of Economy, Trade and Agriculture of Ukraine	V
Activity 2.1.2:	Ministry for Development of Economy, Trade and Agriculture of Ukraine	Х
Activity 2.1.3:	Promoting Circular Economy – Waste mapping in municipalities (irrelevant Activity)	V
Activity 2.2.1:	Mapping of existing practices and barriers for existing labelling schemes (reports are ready)	V
2.4: Use of strategic	c approaches on waste management (UNEP)	
Activity 2.4.1:	Developing draft action plan for waste management (national or municipal level)	X
<u>proposal</u>	 Provide technical assistance to develop a Draft Resolution of the Cabinet of Ministries of Ukraine on procedure of development and adoption of the regional waste management plan. Analysis of local and regional conditions for the preparation of regional waste management plans. Provide technical assistance to development and approval of regional waste management plans (development of regional waste management plans for 5 regions). 	
Activity 2.4.2:	Initiating/assisting the establishment of Extended Producers Responsibility schemes	V
proposal	 Development of the analytical report based on the best practices of Extended Producers Responsibility schemes in EU country (incl. France, Germany, Poland, Austria), economy and financial assessment of the available options in Ukraine and recommendations. Analysis of the situation and economic preconditions for the introduction of the principles of extended producer responsibility in Ukraine in the field of packaging. Development of proposals for standards for the introduction of extended producer responsibility, in particular the procedure for cooperation between local governments and organizations of extended producer responsibility. 	
RESULT 3. An env	ironmental level playing field	
	tion of environmental impacts	
Activity 3.1.1:	Reforming regulatory regimes for large emission sources, including State Owned Enterprise	X / <mark>V</mark>
<u>proposal</u>	 Training (Integrate permission system) Expected output target: 10-20 government (MENR and its subordinate executive bodies) officials trained (2021) Expert and legal support to draft General Binding Rules (GBRs) based on EU regulation Expected output target: Develop GBRs for a specific economic sectors: GBR for combustion plants GBR for waste incineration plants and waste co-incineration plants GBR for installations and activities using organic solvents GBR for installations producing titanium dioxide GBR for Medium combustion plants (MCPs) 	
Activity 3.1.2:	Greening Small and Medium Sized Enterprises (SMEs)	X / <mark>V</mark>
proposal	 Analysis of existing instruments for financing SME greening Expected output target: Detailed analysis of existing instruments for financing greening of SME operations based on best EU practices, pilot projects on Ukrainian SMEs (at least 3 SMEs in different sectors), followed up expert support to set up policies that can promote specific instruments to mobilize finance for SME greening (pilot cases, for example - waste management in restaurants).
