

Contribution from the Science & Technology Major Group and Children & Youth Major Group

for the Second informal substantive consultation meeting on United Nations General Assembly resolution 73/333, from 17-19 November 2021

As the co-leads of the Major Groups and Stakeholders (MGS) UNEP@50 Task Force, we suggest the following language to be reflected in the draft resolution, either as addition to paragraph 15 or as a new paragraph 16.

We welcome the report from the UNEP@50 Task Force and the joint statement from the Major Groups and Stakeholders on “the UNEP We Want”. We invite Member States and Members of the Specialized Agencies to take into account, as appropriate, the findings and recommendations of the report and the joint statement in the relevant intergovernmental meetings, including those of the CPR and the UNEA.
