

156th Meeting of the Committee of Permanent Representatives

Nairobi, Kenya, 30 November 2021

Item 6. Preparations for the resumed session of UNEA-5, including stock-taking on the consultations of draft resolutions for the resumed session of UNEA5

Thank you Madame Chair,
Dear excellencies, colleagues,

Today, we are taking the floor to announce an urgent call for a new global agreement to address the global plastics crisis on behalf of nearly 600 civil society organizations, Indigenous Peoples, workers and trade unions, children and youth, women, and NGOs.

We, a growing and diverse set of organizations, peoples and movements from 113 countries, are taking a stand: We are calling for a legally binding global instrument on plastic pollution that covers the entire life cycle of plastics, including extraction of feedstocks, production, transport, use, disposal, and remediation.

We are asking you, Member States, to agree to a mandate to negotiate such an ambitious new agreement, with specific legally-binding provisions and obligations to prevent and remediate plastic pollution and its toxic impacts. We urge you to quickly negotiate this new legally binding instrument to end the ongoing threat to human, animal, and environmental health from plastics.

The time to act is now.

We implore you to ensure that the process is predicated on a just and robust system for ensuring stakeholder participation and meaningful implementation at all levels under a human rights-based approach. Can UNEA and the multilateral system be at the pinnacle of the situation and rise to the challenge?

We invite all of you to join us for a presentation and discussion of this joint Call to Action at a virtual event in the week of December 13th. An official invitation with details will follow. Even - and especially - in light of the world's plight in making We, the people safe from COVID-19, we do not have time to wait nor waste.

The time to act is now!

Thank you chair,

Jane Patton
Campaign Manager, Plastics & Petrochemicals
