

## V. Annex

Table of established Partnerships between the UN Environment Programme and the Private Sector as of November 2021

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
1.	Acciona S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(27.01.2021 – 30.04.2022)	SDG 13	Climate action.	Sub-programme 1 - Climate Change	Ongoing.	UNEP and Acciona S.A. are currently developing an analysis of the opportunities for Latin America and Caribbean countries to phase-out the internal combustion engine, the amount of jobs this would create and the overall economic benefits of the intervention. Such information will be critical for UNEP and its partners to persuade governments to phase out the fastest growing source of emissions in Latin America and the Caribbean's transport sector.	Positive contribution to UNEP is available in relevant agreement.
2.	Adobe Inc.	Lisa Rolls, Communication Division Gabriel Grimsditch, Ecosystems Division	(27.10.2020 – 27.10.2022)	SDG 15 UNEP/EA.4/ Res.13 - Sustainable coral reefs management	Joint marketing, communication and activities leveraging the networks, including influential voices and social media of UNEP, for the ocean conservation campaign, Ocean League.	Sub-programme 3 - Healthy and Productive Ecosystems	Ongoing.	A campaign in collaboration with Adobe Inc.'s Photoshop Camera launched free underwater Glowing filters, which people used to demonstrate their support for coral reef and ocean action. Ten influencers with over 100 million followers participated, generating over 256,000 filter downloads and 1,500 articles, including in Forbes magazine. UN Oceans Envoy Peter Thomson also wrote a blog expressing his support.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
3.	African Leadership (Mauritius) Limited	Bianca Notarbartolo, Ecosystems Division	(22.08.2019 – 31.10.2021) Renewal is in process.	SDG 15 UNEP/EA.2/ Res.14 - Illegal trade in wildlife and wildlife products. UNEP/EA.4/ Res.4- Addressing environmental challenges through sustainable business practices. UNEP/EA.5/ Res.2- Nature Pillar of the Medium-term strategy for 2022-2025.	Sustainable wildlife protection.	Sub-programme 3 - Healthy and Productive Ecosystems	The work of the initial agreement is completed, and a renewal is in process.	The partnership has delivered the following results in Kenya: (a) Several policy proposals and recommendations aimed at advancing Kenya's wildlife economy and creating a transformative change in the wildlife sector have been delivered to the Ministry of Wildlife and Tourism in Kenya. (b) Six interactive workshops with participation of a wide range of stakeholders from government, civil society and academia have been conducted to develop an effective road map to diversify the wildlife economy in Kenya. (c) A report was produced on the opportunity costs of land use in the Kavango-Zambezi Transfrontier Conservation Area.	Expenditure from UNEP is available in relevant agreement.
4.	Aga Khan Foundation	Hassan Partow, Policy and Programme Division	(14.05.2019 – 24.12.2021) Renewal is in process.	SDGs 13 and 15	Mountain watershed management; ecosystem-based disaster risk reduction; livelihoods and food security.	Sub-programme 2 - Resilience to Disasters and Conflict	The work of the initial agreement is completed, and a renewal is in process.	The partnership has delivered the following results in Afghanistan: (a) A successful demonstration project on community-based torrent catchment management and restoration established in the Pamir Mountains. (b) A 150-hectare livestock exclusion zone was designated by the local community to support rangeland rehabilitation and combat soil erosion and landslides. (c) 560 contour bunds and 300 terraces were constructed to prevent the soil erosion. Additionally, 6,000 fruit tree saplings were planted on the terraces to ensure soil stabilization, at the same time providing a source of food and income for local farmers.	Expenditure from UNEP is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
								<p>(d) 125 solar water heaters were installed in vulnerable households to supply them with hot water and reduce the usage of fuelwood harvested from forests and rangelands.</p> <p>(e) 1.5 kilometres of the Oshtuk irrigation canal was rehabilitated to provide water to up to 100 hectares of sloped land planted with orchard trees to stabilize soil, provide additional income to local villagers, and diversify their livelihoods and food sources.</p>	
5.	AGRI3 Fund Manager B.V.	Ivo Mulder, Ecosystems Division	(22.06.2020 – 22.06.2022)	SDGs 11, 12, 13, and 15	Sustainable finance schemes for deforestation and sustainable agriculture.	Sub-programme 1 - Climate Change Sub-programme 3 - Healthy and Productive Ecosystems	Ongoing.	Within this partnership, US\$80 million have been mobilized from the Dutch Government and Rabobank to support the acceleration of the transition to sustainable agriculture. Two deals have been financed: forest protection in Brazil and sustainable pepper farming in China.	None.
6.	Airbnb, Inc.	Helena Rey de Assis, Economy Division	(04.05.2021 - 31.12.2025)	SDGs 11, 12, and 13	Communication on plastic pollution and sustainability.	Sub-programme 3 – Healthy and Productive Ecosystems	Ongoing.	UNEP and Airbnb will focus on promotion of sustainable behavior and increasing awareness on key environmental issues through the engagement of Airbnb's key stakeholders, and where possible, in coordination with local and national authorities and other organizations. UNEP and Airbnb will collaborate to drive action on issues related to plastic pollution, including developing and disseminating messages focused on single-use plastics products and hygiene that are aligned with the COVID-19 context in order to support tourism stakeholders in the recovery phase and pollution reduction.	None.
7.	Argor-Heraeus SA ("Argor")	Ludovic Bernaudat, Economy Division	(16.04.2018 – 31.12.2020)	SDGs 3, 5, 6, 8, 9, 11, and 12	The planetGOLD programme in Mongolia and the Philippines.	Sub-programme 5 - Chemicals, Waste and Air Quality	The work of the initial agreement is completed, and a renewal is in process.	The partner supported the development of the planetGOLD "Criteria for Environmentally and Socially Responsible Operations" to help position the planetGOLD programme participants to meet relevant environmental and social standards. The company also committed to purchase one tonne of gold from UNEP-implemented national projects in Mongolia and the Philippines.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
8.	Banco de Comercio Exterior de Colombia S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(04.07.2019 – 04.07.2021) Expired	SDG 13	Microfinance for ecosystem-based adaptation (MEbA).	Sub-programme 1 - Climate Change	Finished.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua, and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	None.
9.	Banco Desarrollo de los Pueblos S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(09.05.2019 – 09.05.2021) Expired	SDG 13	Microfinance for ecosystem-based adaptation (MEbA)	Sub-programme 1 - Climate Change	Finished.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	None.
10.	Banco de Fomento Agropecuario	Gustavo Mañez, Latin America and the Caribbean Office	(11.10.2018 – 11.10.2020) Expired	SDG 13	Microfinance for ecosystem-based adaptation (MEbA).	Sub-programme 1 - Climate Change	Finished.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.  The partner is also one of six financial institutions, which signed for microfinancing of the ecosystem-based adaption pilot roll-out.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
11.	Banco de las Microfinanzas Bancamía S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(08.04.2020 – 31.12.2021)	SDG 13	Microfinance for ecosystem-based adaptation (MEbA).	Sub-programme 1 - Climate Change	Ongoing.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	None.
12.	Beijing Capital International Airport Co., Ltd	Daniel Cooney, Communication Division	(04.06.2019 – 30.06.2024)	SDG 13	Communication and advocacy related to climate action; World Environment Day; ecosystem restoration.	Communication efforts relate to all Sub-programmes	Ongoing.	Through this partnership, UNEP was able to reach millions of people with three exhibitions on various campaigns, and UNEP's priority topics were showcased in the airport.	None.
13.	BNP Paribas SA	Ivo Mulder, Ecosystems Division Gustavo Mañez, Latin America and the Caribbean Office	(12.12.2017 - 12.12.2025) (08.02.2019 - 08.02.2021)	Cross-cutting	Sustainable finance; Microfinance for ecosystem-based adaptation (MEbA); Global Fund for Coral Reefs.	Sub-programme 1 - Climate Change. Sub-programme 3 - Healthy and Productive Ecosystems. Sub-programme 6 - Resource Efficiency	Ongoing.	The partnership with BNP Paribas aims to generate cumulative investments amounting to US\$10 billion in innovative finance solutions by 2025. A total of US\$300 million has already been mobilized through three initiatives - Tropical Landscapes Finance Facility; Global Fund for Coral Reefs; and Microfinance for ecosystem-based adaptation project.	None.
14.	BP p.l.c.	Giulia Ferrini, Economy Division	(27.10.2015 – valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Sub-programme 1 - Climate Change	Ongoing.	Member companies of the Oil and Gas Methane Partnership commit to report methane emissions for all their operated and non-operated assets, at an unprecedented level of accuracy and granularity. Member companies submitted their first report under the OGMP 2.0 Reporting Framework this year, which was publicly disclosed in October 2021. The OGMP is also translating the principles in the Framework into practical guidance to help companies meet their reporting requirements through three technical task forces composed of OGMP member companies, intergovernmental organizations, non-governmental	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
								organizations, and governments. The Technical Guidance Document Task Force has completed 3 TGDs (flare efficiency, Reporting Level 1 & Level 2; and glycol dehydrators), which have been approved by the OGMP Steering Group. Five others have been drafted and are under discussion. The Uncertainty and Reconciliation principles document is currently being finalized. The reporting templates have been finalized and are accompanied by a detailed guidance on how to complete them. The Task Forces work in close collaboration with each other to ensure coordination and consistency throughout different technical deliverables. The co-chairs provide regular updates on progress to the OGMP 2.0 Steering Group, which approves all technical deliverables.	
15.	Broad Group	Lily Riahi, Economy Division	Letter of Co-finance (2020 – 2023)	SDG 7	Support the District Energy in Cities Initiative in promoting knowledge and awareness on alternative uses of energy for cooling.	Sub-programme 1-Climate Change	Ongoing.	This company is part of the District Energy in Cities Initiative, a public-private partnership led by UNEP that supports cities and countries in their energy transition by accelerating investment in district energy systems. A pipeline of 33 pilot projects across 14 countries with a mitigation potential of 25 million tCO2 equivalent over the next 20 years has been identified to date, and US\$103 million of direct investment for project construction has been leveraged. Private sector engagement has been crucial in this process. The Initiative encourages private-public collaboration by offering a neutral platform for industry, investors, policymakers, and research institutions to exchange, share best practices and identify investment opportunities. The work of the Initiative and its partners has contributed to raising awareness on the benefits of district energy, resulting in the incorporation of district energy into national and local policies strategies and plans.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
16.	Caja Rural de Ahorro y Crédito Los Andes S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(03.10.2018 – 03.10.2020) Expired	SDGs 2 and 13	Microfinance for ecosystem-based adaptation.	Sub-programme 1 - Climate Change	Finalized.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained. The partner is also one of six financial institutions, which signed for microfinancing of the ecosystem-based adaption pilot roll-out.	None.
17.	Cataratas do Iguacu S/A ("Cataratas Group")	Denise Hamú, Brazil Office	(04.06.2020 – 30.06.2022)	SDGs 14 and 15	Sustainable tourism, reduction of plastics.	Sub-programme 3 - Healthy and Productive Ecosystems Sub-programme 6 - Resource Efficiency	Ongoing.	Promotion of a five-day summit to warm-up the launch of the UN Decade on Ecosystems Restoration with more than 30 hours of free and exclusive content. The Conservação Integrada Summit brought together dozens of institutions and experts, reached more than 7,000 subscriptions and more than 15,000 views on the panels.	None.
18.	Confederation of Indian Industry ("CII")	Atul Bagai, Asia and Pacific Office	(13.10.2018 – 12.10.2020) Expired.	SDGs 12 and 13 UNEP/EA.3/ HLS.1 - Ministerial declaration of the United Nations Environment Assembly at its third session: Towards a pollution-free planet.	Minimization of plastic waste.	Sub-programme 5 - Chemicals, Waste and Air Quality	Finished.	The partner joined the UnPlastic Collective Initiative and participated in several meetings for knowledge sharing.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
19.	Coöperative Circle Economy U.A.	Sharon Gil, Economy Division	(28.04.2021 - 31.03.2022)	SDG 12	Development of the circular economy through job tools.	Sub-programme 6 - Resource Efficiency	Ongoing.	UNEP has partnered with this Circular Economy social enterprise to support cities in monitoring the transition of their economy from linear to circular. The key outcome of this partnership is to improve policy development, planning and investment for resource efficient, sustainable, resilient, and circular cities in Europe and globally.	Expenditure from UNEP is available in relevant agreement.
20.	Covestro Deutschland AG	Daniel Cooney, Communication Division	(07.02.2017 – 31.12.2019) The agreement was extended to 31.03.2021	Cross-cutting	Young Champions of the Earth.	Communication efforts relate to all Sub-programmes	The work of the initial agreement is completed, and an extension has taken place.	The partnership supported Young Champions of the Earth. Further information is accessible through this link: <a href="https://web.unep.org/youngchampions/">https://web.unep.org/youngchampions/</a>	Positive contribution to UNEP is available in relevant agreement.
21.	Crezcamos S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(04.09.2018 – 04.09.2020) Expired	SDG 13	Microfinance for ecosystem-based adaptation (MEbA).	Sub-programme 1 - Climate Change	Finished.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	None.
22.	DB Insurance	Yuki Yasui, Economy Division	(31.10.2019 – 31.01.2021) To be extended by six months.	SDG 15	Awareness raising; environmental pollution.	Sub-programme 3 - Healthy and Productive Ecosystems	Finished.	This partnership includes development of a grounding paper on environmental liability insurance which will cover different lines of insurance business and asset classes for analysis of regional and global insurance market development in relation to environment liability. The report will be translated into Korean and Chinese. A virtual launch event of the grounding paper is planned in December 2021.	Positive contribution to UNEP is available in the relevant agreement.
23.	Deloitte Risk Advisory SDN. BHD.	Yuki Yasui, Economy Division	(19.08.2020 – 19.08.2022)	Cross-cutting	Sustainable finance.	Sub-programme 1 - Climate Change	Ongoing.	None reported. Activities have been on hold due to staff changes at the Company.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
24.	Descartes Labs, Inc	Pascal Peduzzi, Science Division	(07.09.2019 – 07.09.2021) Renewal is in process.	SDGs 14 and 15	Use of digital tools and artificial intelligence research in working on environmental issues.	Sub-programme 7 - Environment under Review	The work of the initial agreement is completed, and a renewal is in process.	A pilot project was implemented on using artificial intelligence for the detection of fish farming.	None.
25.	Ecopetrol S.A.	Giulia Ferrini, Economy Division	(27.10.2015 – valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Sub-programme 1 - Climate Change	Ongoing.	Member companies of the Oil and Gas Methane Partnership commit to report methane emissions for all their operated and non-operated assets, at an unprecedented level of accuracy and granularity. Member companies submitted their first report under the OGMP 2.0 Reporting Framework this year, which was publicly disclosed in October 2021. The OGMP is also translating the principles in the Framework into practical guidance to help companies meet their reporting requirements through three technical task forces composed of OGMP member companies, intergovernmental organizations, non-governmental organizations, and governments. The Technical Guidance Document Task Force has completed 3 TGDs (flare efficiency, Reporting Level 1 & Level 2; and glycol dehydrators), which have been approved by the OGMP Steering Group. Five others have been drafted and are under discussion. The Uncertainty and Reconciliation principles document is currently being finalized. The reporting templates have been finalized and are accompanied by a detailed guidance on how to complete them. The Task Forces work in close collaboration with each other to ensure coordination and consistency throughout different technical deliverables. The co-chairs provide regular updates on progress to the OGMP 2.0 Steering Group, which approves all technical deliverables.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
26.	Energy Efficiency Services Limited (EESL)	Lily Riahi, Economy Division	(02.01.2017 – 02.01.2022)	SDG 13	Energy access and efficiency; urban waste management.	Sub-programme 1 - Climate Change	Ongoing.	This company is part of the District Energy in Cities Initiative, a public-private partnership led by UNEP that supports cities and countries in their energy transition by accelerating investment in district energy systems. A pipeline of 33 pilot projects across 14 countries with a mitigation potential of 25 million tCO2 equivalent over the next 20 years has been identified to date, and US\$103 million of direct investment for project construction has been leveraged. Private sector engagement has been crucial in this process. The Initiative encourages private-public collaboration by offering a neutral platform for industry, investors, policymakers, and research institutions to exchange, share best practices and identify investment opportunities. The work of the Initiative and its partners has contributed to raising awareness on the benefits of district energy, resulting in the incorporation of district energy into national and local policies strategies and plans.	None.
27.	Eni S.P.A.	Giulia Ferrini, Economy Division	(27.10.2015 - valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Sub-programme 1 - Climate Change	Ongoing.	Member companies of the Oil and Gas Methane Partnership commit to report methane emissions for all their operated and non-operated assets, at an unprecedented level of accuracy and granularity. 30.	Far North Productions Limited	Imae Ann, Asia and Pacific Office	(01.06.2020 – 31.03.2024)	SDGs 3, 13, and 15	Communication and advocacy on air pollution.	Sub-programme 1 - Climate Change. Sub-programme 5 - Chemicals, Waste and Air Quality	Implementation has not yet started due to COVID –19 restrictions.	None reported.	None.
31.	Formula E Operations Limited	Sonia Bindra, Communications Division	(12.01.2021 – 12.01.2023)	SDGs 7 and 13 UNEP/EA.1/Res.7- Strengthening the role of the United Nations Environment Programme in promoting air quality. UNEP/EA.3/Res.8 - Preventing and reducing air pollution to improve air quality globally UNEP/EA.4/Res.3- Sustainable Mobility	Communication and advocacy on air quality, electric mobility and sustainable lifestyles.	Sub-programme 1 - Climate Change. Sub-programme 5 - Chemicals, Waste and Air Quality	Ongoing.	This partnership aims to develop and implement communication initiatives focused on air quality, electric mobility and sustainable lifestyles. Formula E driver Lucas Di Grassi supported digital engagement efforts for the International Day of Clean Air for Blue Skies on 7 September 2021. In previous years, UNEP organized a series of events at the Formula E races, as well as communication campaigns to raise awareness on the benefits of electric vehicles among younger generations and motorsport fans globally.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
32.	Fundacion dela mujer Colombia S.A.S.	Gustavo Mañez, Latin America and the Caribbean Office	(27.11.2018 - 27.11.2020) Expired	SDGs 13 and 15	Microfinance for ecosystem-based adaptation (MEbA).	Sub-programme 1 - Climate Change	Finished.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	None.
33.	Global Climate Partnership Fund S.A., SICAV-SIF ("GCPF")	Mark Radka, Economy Division	(27.06.2017 – 31.03.2022)	SDG 7	Energy efficiency country assessments and baselines.	Sub-programme 1 – Climate Change	Ongoing.	GCPF is the specialized private sector financing partner of UNEP's United for Efficiency global leapfrogging initiative. GCPF diversified its portfolio, adding six new partner institutions, which now includes 42 stakeholders in 23 countries. Since the Fund's inception, partner institutions have disbursed a cumulative amount of US\$865 million through 79,469 sub-loans, a 7% increase in 2020 over 2019.	Positive contribution to UNEP is available in relevant agreement.
34.	GoldenBee (Beijing) Management Consulting Co., Limited	Fulai Sheng, Economy Division	(26.08.2021 - 26.08.2023)	SDGs 9,11,12,13,17 UNEP/EA.4/Res.6- Sustainable Infrastructure	Sustainable infrastructure.	Sub-programme 1 - Climate Change Sub-programme 5 - Chemicals, Waste and Air Quality Sub-programme 6 - Resource Efficiency	Ongoing.	This new partnership with GoldenBee (Beijing) Management Consulting, sustainability consulting services provider, aims to support UNEP's continuation of work on implementation of the UNEA-4 Resolution (UNEP/EA.4/L.6): Sustainable Infrastructure. The contribution would support the Sustainable Infrastructure Investment Team in the Economic and Trade Policy Unit of the Resources and Markets Branch in the Economy Division.	Positive contribution to UNEP is available in relevant agreement.
35.	Grassroots Capital Management Corp., PBC	Gustavo Mañez, Latin America and the Caribbean Office	(29.06.2020 – 29.06.2022)	SDGs 13 and 15	Microfinance for Ecosystem-based Adaptation (MEbA).	Sub-programme 1 - Climate Change	Ongoing.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
								(b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	
36.	H&M Hennes & Mauritz	Sonia Gueorguiev, Science Division, Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)	(24.08.2020 - 31.12.2024)	Cross-cutting	Support to the IPBES work programme.	Sub-programme 1 - Climate Change Sub-programme 7 - Environment under Review	Ongoing.	IPBES is working with private sector companies, leaders in their industries, to improve their business practices. A global fashion group, H&M has committed to fund IPBES nexus assessment, as fiber will also be assessed in the report, which will help H&M to drive change and innovation throughout its value and supply chains.	Positive contribution to UNEP is available in relevant agreement.
37.	Horn of Africa Sustainability Solutions Limited	Christophe Matthew, Disasters and Conflicts Office	(22.03.2021 – 15.12.2021)	SDGs 7 and 12	Capacity support to the national government and advocacy.	Sub-programme 2 - Resilience to Disasters and Conflict	Ongoing.	Supported the Government of Somalia (the Directorate of the Environment for Somalia) to develop a costed five-year National Environmental Action Plan (NEAP), with recommendations for the rest of the Government and considering the sectoral vulnerabilities, gender dimensions and impacts of climate change in Somalia. It is anticipated that the NEAP would improve environmental management at the national scale.	Expenditure from UNEP is available in relevant agreement.
38.	Iberdrola	Gustavo Mañez, Latin America and the Caribbean Office	(03.12.2019 – 28.02.2021) Expired	SDGs 7 and 13	Decarbonization, renewable energy and sustainable transport.	Sub-programme 1 - Climate Change.	Finished.	The Zero Carbon report was launched in December 2020 and disseminated regionally providing strategic information to countries on the benefits of accelerating the transition to renewable energy and zero emissions transport. Iberdrola provided technical data, which otherwise would have been extremely expensive to obtain.	Positive contribution to UNEP is available in relevant agreement.
39.	International Business Machines Corporation (“IBM”)	Shereen Zorba, Corporate Services Division	(14.12.2020 – 31.12.2021) Renewal in process.	Cross-cutting	Science-Policy-Business Forum (SPBF); Innovations and technology.	Sub-programme 7 - Environment under Review	Ongoing.	In the reporting period IBM continued to be SPBF lead technology partner on the Marine Litter Big Data project, having contributed to the data integration part of the Marine Litter Digital Platform, and the first design thinking workshop on Marine Litter Data Integration and Digital Tools. The partner has also provided expert and financial contributions to the SPBF Working Group on Big Data and Frontier Technologies.	Positive contribution to UNEP is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
40.	IQAir AG	Sean Khan, Science Division	(30.07.2019 – 30.07.2021) Expired, renewal under consideration.	SDG 3 UNEP/EA.3/ Res.8 - Preventing and reducing air pollution to improve air quality globally.	Data; air quality and pollution; awareness raising.	Sub-programme 5 - Chemicals, Waste and Air Quality	The work of the initial agreement is completed, and a renewal is under consideration.	In partnership with IQAir, UNEP hosts the world's largest real-time data bank for air pollution (PM2.5) that is supported by a mobile application that reaches over 50 million users. This year, capabilities to stream live pollution data to digital billboards were tested in Nairobi with Safaricom and the County Government and generated interest from other stakeholders to apply the technology in their localities (Capetown and Jakarta). In addition, the platform was enhanced to calculate real-time age-disaggregated exposure to air pollution for over 100 countries using government- and crowd-sourced air pollution measurement and population census data from WorldPop.org. Plans to amplify its user base and inspire innovative use of real-time air measurement are being explored for the next engagement period with IQAir.	None.
41.	Kering SA	Sonia Gueorguiev, Science Division, Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)	(04.12.2020 - 31.08.2021) (11.03.2021 - 31.08.2022)	Cross-cutting	Support to the IPBES work programme.	Sub-programme 1 - Climate Change Sub-programme 7 - Environment under Review	Ongoing.	This partnership would help Kering SA to improve its business practices. As the global luxury Group, Kering is currently in the process of leading a transformation of its supply and value chains. Having a strong economic and sustainability leadership in the industry, Kering can enable the transformative change of the forthcoming sustainability standards for the entire industry and even beyond.  The funds from the donor will contribute to IPBES' nexus assessment (among other assessments), which, in order to promote biodiversity to achieve the 2030 Agenda for Sustainable Development, will assess the interlinkages among biodiversity, water, food, health, energy and climate, and potentially will inform the development of policies and actions.	Positive contribution to UNEP is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
42.	La Banque Agricole	Gustavo Mañez, Latin America and the Caribbean Office	(25.05.2020 – 31.12.2021)	SDGs 13 and 15	Microfinance for ecosystem-based adaptation (MEbA).	Sub-programme 1 - Climate Change	Ongoing.	The project has delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): (a) 17,870 micro EbA loans were disbursed. (b) US\$30,699,583 in private investment towards EbA was mobilized. (c) 13 demonstration farms were created. (d) 4,385 farmers were trained.	None.
43.	Meshminds PTE. LTD	Imae Ann, Asia and Pacific Office	(22.01.2021 – 22.01.2023)	SDGs 12, 14, and 15	Mobilizing frontier technologies, such as augmented reality and virtual reality, to power the digital transformation of UNEP and its associated environmental communications.	Sub-programme 1 - Climate Change Sub-programme 3 - Healthy and Productive Ecosystems Sub-programme 5 - Chemicals, Waste and Air Quality Sub-programme 6 - Resource Efficiency	Ongoing.	MeshMinds has enabled the development and distribution of 20 interactive and immersive experiences, featuring the original work of 10 artists, based in the Asia-Pacific region, which have been used by three UN Goodwill Ambassadors - Alex Rendell, Antoinette Taus and Dia Mirza. Using augmented reality, MeshMinds has created experiences that educate and activate youth and communities online across the world to use social media to share environmental pledges with their networks. Covering more than 100 countries across every continent except Antarctica, in all six official UN languages, MeshMinds experiences have reached more than 20 million people. Some of these experiences have also been showcased to more than 9,000 people at offline events.	None.
44.	Mirova Capital Limited	Ivo Mulder, Ecosystems Division	(08.02.2019 – 08.02.2021) Expired, and under a renewal process.	Cross-cutting	Sustainable finance; AGRI3 Fund.	Sub-programme 1 - Climate Change. Sub-programme 3 - Healthy and Productive Ecosystems.	The work of the initial agreement is completed, and a renewal is in process.	Mirova Capital Limited is one of the members in the Agri3 Fund. Within this partnership, US\$80 million has been mobilized from the Dutch Government and Rabobank to support the acceleration of the transition to sustainable agriculture. Two projects have been financed: forest protection in Brazil and sustainable pepper farming in China.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
45.	Mitsui Chemicals, Inc	Mushtaq Ahmed Memon, Asia and Pacific Office	(04.02.2020 – 04.02.2022)	SDG 12	Capacity building of start-ups focused on addressing plastic pollution and marine litter.	Sub-programme 6 - Resource Efficiency	Implementation finished.	Three start-ups were trained and mentored in addressing pollution challenges and the development of sustainable and green business models.	None.
46.	National Central Cooling Co. (P.S.C.) (TABREED)	Lily Riahi, Economy Division	(14.10.2020 – 31.07.2023)	SDG 7	Technical in-kind support under District Energy in Cities Initiative and Cool Coalition.	Sub-programme 1 - Climate Change	Ongoing.	This project started its implementation period in 2021 and it contributes to the work of the Cool Coalition and the District Energy in Cities Initiative. The project aims to: a) assess and attract co-financing and investment for a rural agricultural and immunisation cold chain pilot that can act as a lighthouse project in India, and b) increase communication, guidance and best practice dissemination on urban and rural cooling.	Positive contribution to UNEP is available in relevant agreement.
47.	National Cleaner Production Center Colombia ("NCPC")	Bettina Heller, Economy Division	(25.07.2019 – 31.09.2022) Cancelled.	SDG 8	Sustainable business models.	Sub-programme 6 - Resource Efficiency	Partnership was cancelled.	Partnership was cancelled, as the entity was liquidated in June 2021.	Expenditure from UNEP is available in relevant agreement.
48.	National Cleaner Production Center Peru (Grupo GEA)	Bettina Heller, Economy Division	(30.10.2019 – 31.01.2021) Renewal is in process.	SDG 12	Sustainable business models.	Sub-programme 6 - Resource Efficiency	The work of the initial agreement is completed, and a renewal is in process.	In 2020, Grupo GEA provided support to companies in the mining sector to implement eco-innovation, i.e. to develop more sustainable business models (Minera Yanaquihua S.A.C. [MY-SAC] and PERU PACIFIC ENTERPRISE SAC [PPE SAC]). Both companies approved the new business models. Projected benefits from implementing the new business models include: a reduction in CO2 emissions through signing a cleaner production agreement between PPE SAC and a cement company in the area, whereby the mining company provides end-of-life tires for the cement company to use them as fuel replacing coal and coke. This reduces the amount of fossil fuels that would otherwise be consumed. Reduction in waste and virgin material use by reusing mining tailings for the manufacture of cement structures, such as tiles.	Expenditure from UNEP is available in relevant agreement.

49.	National Cleaner Production Center Sri Lanka	Bettina Heller, Economy Division	(30.09.2021 – 30.05.2022)	SDG 12 UNEP/EA.4/ Res.4 - Addressing environmental challenges through sustainable business practices.	Sustainable business models.	Sub-programme 6 - Resource Efficiency	Ongoing.	The partner is providing eco-innovation support to companies in the building products sector. Consultations are ongoing, with new business models for implementation expected in 2022. The work takes place under the GEF project on Global Best Practices on Emerging Chemical Policy Issues of Concern under the Strategic Approach to International Chemicals Management (SAICM).	Expenditure from UNEP is available in relevant agreement.
50.	National Philanthropic Trust (Donor: Bloomberg Philanthropies)	Kai Remco Fischer, Economy Division	(03.10.2018 – 31.12.2020)	SDG 13	Climate change.	Sub-programme 1 - Climate Change	Finished.	The partnership was continued under Bloomberg Philanthropies. The partnership supports UNEP FI's ongoing work furthering the mainstreaming climate-risk disclosures by financial institutions, in response to the recommendations of the Task Force for Climate-Related Financial Disclosures (TCFD). Through this work UNEP FI has worked with over 100 financial institutions – across banking, investment, and insurance – to develop sector-customized methodologies, data and tools required for such disclosures, and required for the ongoing standardization and harmonization of disclosures.	Positive contribution to UNEP is available in relevant agreement.
51.	Neptune Energy International	Giulia Ferrini, Economy Division	(27.10.2015 – valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Sub-programme 1 - Climate Change	Ongoing.	Member companies of the Oil and Gas Methane Partnership commit to report methane emissions for all their operated and non-operated assets, at an unprecedented level of accuracy and granularity. Member companies submitted their first report under the OGMP 2.0 Reporting Framework this year, which was publicly disclosed in October 2021. The OGMP is also translating the principles in the Framework into practical guidance to help companies meet their reporting requirements through three technical task forces composed of OGMP member companies, intergovernmental organizations, non-governmental o	None.

UNEP/EA.2/ Res.7 - Sound management of chemicals and waste.	Reduction of methane emissions from the oil and gas sector in Oman.	Sub-programme 5 - Chemicals, Waste and Air Quality Sub-programme 6 - Resource Efficiency	Ongoing.	The partnership has delivered the following results in Oman: (a) Enhanced capacity of 34 representatives from the Environment Agency of Oman and national oil company in Oman for reducing methane emissions from the oil and gas sector through a three-day online training conducted in December 2020. b) A waste minimization guideline was developed, which would help to build the capacity for waste minimization at the national level.	Positive contribution to UNEP is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
								c) A Green Growth assessment was developed in consultation with the Environment Authority and key government stakeholders. The assessment report would support the Sultanate of Oman in the formulation of targeted policies for the transition towards a more sustainable future.	
59.	Platform3 DMCC	Thierry Oliveira, Science Division	(23.08.2021 – 30.12.2023)	SDG 9	UNEP Innovation Initiative.	Sub-programme 6 - Resource Efficiency Sub-programme 7 - Environment under Review	Ongoing.	In the next six months, the first feasibility study for wastewater recovery technology is expected to be completed. UNEP will then roll out the pilot testing in Machakos and Kisumu counties in Kenya, with additional pilots planned in Africa. More information will be reported in 2022, when the UNEP Innovation Initiative is expected to be officially launched.	None.
60.	Playmob Limited	Sam Barratt, Siiri Maekelae, Ecosystems Division	(25.01.2019 – 25.01.2021) Expired	SDG 4	Ecosystem management - strategic collaboration on how the gaming sector could support the achievement of the SDGs.	Sub-programme 3 - Healthy and productive ecosystems Sub-programme 6 - Resource Efficiency	Finished.	The partner has supported the launch of the "Playing for the Planet Alliance," including outreach and recruitment of private sector members of the Alliance. The partner has also supported development of the report on how the gaming industry could support the achievement of the SDGs.	None.
61.	Promotora Ambiental SAB de CV Mexico	Dolores Barrientos, Mexico Office	(03.12.2018 – 03.12.2020) To be renewed	SDGs 7, 11, 12, 13, 14, 15, and 17 UNEP/EA.2/ Res.3 - Investing in human capacity for sustainable development through environmental education and training.	Environmental education and 2030 Agenda promotion	Sub-programme 3 - Healthy and productive ecosystems Sub-programme 4 - Environmental Governance Sub-programme 6 - Resource Efficiency	The work of the initial agreement is completed, and a renewal is in process.	Provided in-kind support to host an online exhibition of the Environmental Film Festival (Suncine), with an audience of approximately 50,000 people. Additionally, five webinars were organized on the 2030 Agenda, Sustainable Tourism and Biodiversity Conservation, and Zoonosis.	None.

65.	Roteiros de Charme Hotel Association	Helena Rey de Assis, Economy Division	(25.10.2017 – 30.10.2022)	SDGs 12 and 14	Tourism, plastic, and marine pollution.	Sub-programme 6 - Resource Efficiency	Ongoing.	Roteiros do Charme Hotel Association has committed to the Global Tourism Plastics Initiative and has promoted circularity in the use of plastics among its membership. It has also started engaging with its suppliers by inviting them to their annual assembly to raise awareness on plastic pollution. In addition, the Association has used its social media to reach tourists on sustainable lifestyle tips.	None.
66.	(adidas) Runtastic GmbH	Matthias Jurek, Annette Leopold, Europe Office	(14.09.2020 – 14.09.2022)	SDGs 13 and 15	Communication around conservation and wildlife.	Sub-programme 1 - Climate Change. Sub-programme 3 - Healthy and Productive Ecosystems	Ongoing.	In 2021, the partnership launched the third edition of the Run Wild challenge, mobilizing approximately 700,000 runners worldwide to compete against the mountain Gaia, a GPS-tracked mountain lion (cougar, puma) currently roaming the Cascade Mountains in the United States' Pacific Northwest, and learn about human impacts on species and habitats, including pollution in mountainous areas. Through the challenge, financial resources from partners (including from Adidas Terrex), were provided to the conservation partner S.P.E.C.I.E.S and will support wildlife conservation, including restoration efforts.	None.
67.	Safaricom	Sean Khan, Science Division	(16.08.2017 – 31.12.2021)	SDG 3 UNEP/EA.3/ Res.8 - Preventing and reducing air pollution to improve air quality globally.	Data; air quality and pollution; awareness raising.	Sub-programme 5 - Chemicals, Waste and Air Quality	Ongoing.	UNEP teamed up with Safaricom, a Kenyan telecom company, and IQAir, a technology company, to stream real-time air pollution measurements to digital billboards across Nairobi. This resulted in a major increase in air quality awareness and engagement in Kenya. It also informed the Nairobi Air Quality Policy and led to a commitment from Safaricom PLC to collaborate in the roll out of the infrastructure across Kenya and potentially other countries.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Resolutions	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
68.	SailBri Cooper Inc	Sean Khan, Science Division	(17.08.2021 – 17.08.2023)	Cross-cutting	Data collection and management; air pollution.	Sub-programme 7 - Environment under Review	Ongoing.	UNEP and SailBri Cooper are creating a UN-facilitated open data management platform (ODMS) for air quality management, quality control, assurance, and data sharing. The platform is expected to be launched in January 2022, and offers easy to use functionality to manage field deployments, the aggregation of data from collaborating entities (e.g. US Embassy reference stations, other collaborators at national or regional scales), and remote trouble shooting access to support teams (e.g. UNEP and partners) using video, photographs and social media channels to assist with field operations and maintenance. Other capabilities include real time visualization and analysis, multi-user management and data access rights. The platform will be piloted in 2022 with five cities in Africa as part of its incremental roll out to Member States that need capacity improvements for managing air quality.	None.
69.	Schurmann Produções Cinematográficas LTDA	Vitor Pinheiro, Brazil Office	(20.08.2021 – 01.11.2023)	SDGs 6, 12, and 14	Conservation and protection of nature and natural resources.	Sub-programme 3 - Healthy and productive ecosystems Sub-programme 6 - Resource Efficiency	Ongoing.	The partnership is aimed at the promotion of UNEP's Clean Seas Campaign and other initiatives related to the health of the oceans.  Main results are related to public awareness of plastic pollution, with the Clean Seas Campaign being promoted over main news outlet in Brazil as well as featured in the biggest TV show in the country (Fantástico), with around four million people reached in the Greater São Paulo Area (out of 20 million). This number can be extrapolated to the whole country with its 210 million people (as Globo is a national network and reaches 99% of the population).  The partnership with the Schurmann Family has taken plastic pollution and the Clean Seas campaign to 12 different coastal cities and is appearing at least once a week in the primetime TV programmes on Sundays.	None.

70.	Shell Research Limited	Giulia Ferrini, Economy Division	(27.10.2015 – valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Sub-programme 1 - Climate Change	Ongoing.	Member companies of the Oil and Gas Methane Partnership commit to report methane emissions for all their operated and non-operated assets, at an unprecedented level of accuracy and granularity. Member companies submitted their first report under the OGMP 2.0 Reporting Framework this year, which was publicly disclosed in October 2021. The OGMP is also translating the principles in the Framework into practical guidance to help companies meet their reporting requirements through three technical task forces composed of OGMP member companies, intergovernmental organizations, non-governmental organizations and governments. The Technical Guidance Document Task Force has completed 3 TGDs (flare efficiency, Reporting Level 1 & Level 2; and glycol dehydrators), which have been approved by the OGMP Steering Group. Five others have been drafted and are under discussion. The Uncertainty and Reconciliation principles document is currently being finalized. The reporting templates have been finalized and are accompanied by a detailed guidance on how to complete them. The Task Forces work in close collaboration with each other to ensure coordination and consistency throughout different technical deliverables. The co-chairs provide regular updates on progress to the OGMP 2.0 Steering Group, which approves all technical deliverables.	None.
71.	Shenzhen Shenling Car Company Ltd	Rob de Jong, Economy Division	(28.02.2019 – 28.02.2021) Expired	SDGs 11, 12, and 13	Electric mobility.	Sub-programme 1 - Climate Change. Sub-programme 5 - Chemicals, Waste and Air Quality	Finished.	Over 150 electric two and three wheelers were provided for demonstration in pilot countries, including Kenya, Uganda, and the Philippines. An additional 150 electric motorcycles are expected to be donated to Ethiopia, Thailand, and a Latin American country.	None.

72.	Siemens Stiftung	Rob de Jong, Economy Division	(13.02.2020 – 13.02.2022)	SDGs 1, 8, 9, 10, 12, and 13 UNEP/EA.4/Res. 3 - Sustainable Mobility	Electric mobility.	Sub-programme 1 - Climate Change. Sub-programme 5 - Chemicals, Waste and Air Quality	Ongoing.	UNEP and Siemens Stiftung jointly participated at the European Development Days 2021. The lessons learnt were presented from introducing 2-wheelers (e-cargo bikes, e-motorbikes) and e-outboard engines to Kenya and Uganda. The sessions educated on how development partners are using lessons learned from electric vehicle pilots to support governments in the development of coherent policy frameworks for a sustainable transition from internal combustion engine to electric mobility. UNEP has also supported the Siemens Stiftung Innovation Award for African small and medium enterprises working on electric mobility. UNEP participated in the independent jury selection panel, which identified five African social enterprises. These received prize money intended towards product development, expanding services, and establishing a greater market presence. More than 100 applications were submitted to the competition from 19 African countries shedding light on the amazing innovation that is taking place in African mobility space.	None.
73.	Stakeholder Company PTE. Limited	Heidi Savelli, Ecosystems Division	(26.10.2021 - 30.06.2023)	SDGs 12, 13 and 14	Digital technology.	Sub-programme 3 - Healthy and Productive Ecosystems	Ongoing.	This partnership will help UNEP to develop the Digital Platform of the Global Partnership on Marine Litter, to build the stakeholder database and to engage into joint community engagement workshops.	None.
74.	Sustainable Investment Management Limited	Ivo Mulder, Ecosystems Division	(25.02.2019 – 25.02.2021) Expired, to be renewed	SDGs 13 and 15	Use of new space technology for monitoring agricultural supply chain risk and performance.	Sub-programme 1 - Climate Change. Sub-programme 3 - Healthy and Productive Ecosystems	The work of the initial agreement is completed, and a renewal is in process.	The partner has committed to finance sustainable soy production in Brazil.	None.

78.	VOLT S.R.L.	Gustavo Mañez, Latin America and the Caribbean Office	(08.31.2020 – 08.31.2022)	SDGs 3, 11, and 13	Sustainable electric mobility.	Sub-programme 1 - Climate Change	Ongoing.	This partnership aims to promote the deployment of electric mobility in Latin America and collaborate in the design of financial mechanisms to help cities access electric mobility technologies in the region.	None.
79.	Vulcan Inc.	Gabriel Grimsditch, Ecosystems Division	(22.01.2020 – 22.01.2022)	SDGs 14, 17	Sustainable management of coral reefs	Sub-programme 3 - Healthy and Productive Ecosystems	Ongoing	Through the partnership with Vulcan and other partners, the Global Fund for Coral Reefs was developed and launched in October 2020. UNEP worked with Vulcan and other partners to develop and submit a recommendation on the inclusion of coral reefs and related ecosystems within the CBD Post-2020 Global Biodiversity Framework. Additionally, approximately 20 Regional Seas Programmes and partners were trained on the use of the Allen Coral Atlas, global habitat maps of the world's tropical, shallow coral reefs.	None.
80.	Weibo Internet Technology (China) Co., Ltd.	Wenjing Yan, Communication Division	(31.08.2018 – 30.12.2020) Expired	Cross-cutting	Plastic pollution, support across sub-programmes.	Communication efforts relate to all Sub-programmes.	Finished.	Weibo supported UNEP's campaigns and big events such as World Environment Day, Blue Sky Day delivered in their platform and leveraged more than 30 digital influencers to support World Environment Day.	Positive contribution to UNEP is available in relevant agreement.
81.	World Travel and Tourism Council	Helena Rey de Assis, Economy Division	(22.09.2019 - 22.09.2021) (24.09.2021 – 30.11.2021) Expired	SDGs 12 and 14 UNEP/EA.4/ Res.9 - Addressing Single-use Plastic Products Pollution	Sustainable tourism.	Sub-programme 6 - Resource Efficiency	Finished.	In partnership with the World Travel and Tourism Council, UNEP developed a report that maps the use of single-use plastic products along the tourism value chain and identifies hotspots and leakage pathways. The report provides strategic recommendations for actions for governments and private sector and offers case studies that outline good practices, progress, and challenges.  The report was launched in June 2021 during a webinar organised in partnership with WTTC. Over 140 people joined the online meeting.	Expenditure from UNEP is available in relevant agreement.
