

**INTERVENTION BY INDONESIA  
UNEP CPR SUB COMMITTEE MEETING  
17 MARCH 2022**

---

**POINTERS FOR AGENDA ITEM 2:  
INPUTS TO THE 2022 HLPF ON SUSTAINABLE DEVELOPMENT**

**On Substance:**

1. Need to have a balanced approach → projecting an equal importance to the outcome documents of UNEA 5.2, including on the resolutions. → Currently we are under the impression that some resolutions were given more prominence than others → that is not the message that we want to convey to HLPF.
2. The elements of partnership and capacity were mentioned, both in the section (d) policy recommendation, and section (e) key messages → but it is missing the reference on SSTC, while it has been mentioned both in the Ministerial Declaration and the Political Declaration. → We would like to see it reflected.
3. Need to include reference on means of implementation.

**On the text:**

1. The Secretariat may consider a more streamlined approach → the current draft is too long.
2. Emphasize the importance to use the agreed language to the extent possible, and avoid using new concepts that have not been negotiated previously → This will avoid more questions or request for clarifications from member states → in turn it will facilitate the speedy conclusion on this document.
