Implementation of UNEA 5/12 Resolution on Environmental Aspects of Minerals and Metals Management

CPR Subcommittee Meeting 13 October

Sheila Aggarwal-Khan | Director
Economy Division, UNEP
Context

Follow-up to UNEA-4 resolution 19 “Mineral Resource Governance”

The United Nations Environment Assembly at its 4th session adopted a resolution entitled “Mineral Resource Governance” (UNEP/EA.4/Res.19) which represented an unprecedented commitment by Member States on the need for broad, globally coordinated efforts to how mining is undertaken, and under which conditions; and requested UNEP to:

“...collect information on sustainable practices, identify knowledge gaps and options for implementation strategies, and undertake an overview of existing assessments of different governance initiatives and approaches relating to sustainable management of metal and mineral resources, and report thereon to the United Nations Environment Assembly at its fifth session”.
UNEA-5 resolution 12

“Environmental Aspects of Minerals and Metals Management”

The United Nations Environment Assembly at its 5th session adopted a resolution entitled “Environmental Aspects of Minerals and Metals Management” (UNEP/EA.5/Res.12) focusses on improving the environmental aspects of mining along their full life cycle and requests UNEP, subject to available resources, to:

“...convene transparent and inclusive intergovernmental regional consultations, including with relevant international organizations, with regional and multilateral environmental agreements, and with relevant stakeholders acting as observers, to feed into a global intergovernmental meeting, with the aim of developing non-prescriptive proposals to enhance the environmental sustainability of minerals and metals along their full life cycle, in line with the 2030 Agenda for Sustainable Development.”
UNEA-5 resolution 12
“Environmental Aspects of Minerals and Metals Management”

- Requests the Executive Director, through the Global Resource Information Database (GRID-Geneva), to *strengthen scientific, technical and policy knowledge with regard to sand*, and to support global policies and action regarding the environmentally sound extraction and use thereof;

- Also requests the Executive Director, subject to the availability of resources, with the engagement of the secretariats of relevant multilateral environmental agreements, organizations and stakeholders, as appropriate, and bearing in mind the launch of the Global Industry Standard on Tailings Management, to *compile a report on knowledge gaps in relation to the environmental aspects of tailings management*;
Proposed plans for the implementation of the resolution

- Formal briefing session to CPR on implementation plan for UNEA resolution 5/12 organized by the Secretariat
- Possible informal virtual consultations organized by Member States
- Briefing sessions to regional groups organized by the Secretariat
- Webinars and events to engage Member States and other stakeholders, including industry, finance sectors and civil society organized by the Secretariat
- Regional and global intergovernmental meetings organized by the Secretariat
Timeline for the implementation of resolution 5/12

Dispatch of letters to Ministers (Environment) and CPR – October 2022

Preparation of background documents – October 2022

Invitations regional intergovernmental consultations – November – December 2022

Reports from regional consultations – June 2023

Final report to UNEA6 – November 2023

Presentation of Implementation Plan to CPR – September/October 2022

National focal points and co-chairs appointed + virtual briefings – November-December 2022

Regional intergovernmental consultations – January – April 2023

Global meeting – September 2023
Logistical and Funding Update

**Expressions of interest**
- **National focal points**: will collaborate with and guide UNEP in the implementation of resolution 5/12; should preferably be senior government representatives with expertise in the environmental aspects of minerals and metals management.
- **Co-chairs** approach adopted to facilitate leadership and consensus-building on the topic: any MS can submit expression of interest, can be based in capital or Nairobi, one from developed and one from developing country.
- MS invited to express interest to host **regional consultation**

**Deadline** – 31 October 2022

- **Availability of resources**
  - Funding gap of US$ 359,755 or **36.5% of total costs**
  - Cost-saving options include convening back-to-back with global meeting
  - MS invited to pledge funds to support convening of regional consultations
The Global Sand Observatory is a new UNEP/GRID-Geneva initiative aimed at developing knowledge and providing decision making support on the sustainability issue of sand extraction and use

➢ Support countries for policy and regulatory coherence for sand extraction
➢ Contribution to knowledge base on sand extraction through data collection and publications
➢ Identifying and dissemination of best practices, standards and best solutions
➢ Awareness raising through webinars, media articles, events
Tailings Management

Background
- UNEA-5 resolution welcomes launch of Global Industry Standard on Tailings Management
- New multi-stakeholder institute to oversee implementation of Standard
- Development of a compendium by Global Tailings Review on the safe management of tailings facilities

Resolution
- Identify knowledge gaps in relation to the environmental aspect of tailings management
- Research on circularity/re-use of mine waste
- Raise awareness on environmental aspects of mine tailings
