

Australia's intervention during Agenda Item 9 on UNEA6 Theme options:

- Thank you Chair for giving Australia the floor
- Australia echoes the principles outlined in the intervention by the United States, and at this point supports proposed options 1 or 3 as the theme for UNEA-6
- We favour a theme focused on environmental multilateralism that is also short and concise to enable strong public engagement.
- We support a focused and streamlined process for the Bureau's decision of the UNEA-6 theme
- Thank you Chair
