

## V. Annex

**Table of established partnerships between the UN Environment Programme and the private sector as of September 2022**

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
1.	ACAIRE (Association of Air Conditioning and Refrigeration of Colombia)	Lily Riahi, Economy Division	(18.08.2022 - 31.12.2024)	SDGs 7, 11 and 13	Climate Action.	Climate Action.	Ongoing.	The partnership contributes to the District Energy in Cities Initiative (DES). In the reporting period, best practices and tools related to district energy were shared with the cooling sector in Colombia. In particular, the collaboration is built around and will contribute to: a) Supporting training sessions on district cooling for professionals of ACAIRE and university students. b) Disseminating best practices, tools and methodologies developed by the DES Initiative and the Cool Coalition.	None.
2.	Acciona S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(27.01.2021 – 31.12.2023)	SDG 13	Climate Action.	Climate Action.	Ongoing.	UNEP and Acciona S.A. are currently developing an analysis of the opportunities for Latin America and Caribbean countries to phase out the internal combustion engine, the jobs this would create and the overall economic benefits of the intervention. Such information will be critical for UNEP and its partners to persuade governments to phase out the fastest growing source of emissions in Latin America and the Caribbean's transport sector.	Donation to UNEP is available in relevant agreement.
3.	Adobe Inc.	Lisa Rolls, Communication Division	(27.10.2020 – 27.10.2022)	SDG 15 UNEP/EA.4/Res.13 - Sustainable coral reefs management.	Joint marketing, communication and activities leveraging the networks for the ocean conservation campaign, Ocean League.	Nature Action.	Ongoing.	The partnership with Adobe has supported the Ocean Decade Exhibition, which showcased art to inspire greater ocean awareness and action. The Exhibition will appear in major cities, aquariums, conferences and hundreds of other locations during the Ocean Decade and was on display in Geneva, Switzerland from 3 August - 5 September 2022.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
4.	African Leadership (Mauritius) Limited	Antony Kamau, Julian Blanc, Ecosystems Division	(22.08.2019 – 31.10.2022)	SDG 15 UNEP/EA.2/Res.14 - Illegal trade in wildlife and wildlife products. UNEP/EA.4/Res.4- Addressing environmental challenges through sustainable business practices. UNEP/EA.5/Res. 2- Nature Pillar of the Medium-term strategy for 2022-2025.	Sustainable wildlife protection.	Nature Action	Ongoing.	The partnership has delivered the following results in Kenya: a) A synthesized report on unlocking Kenya's Wildlife Economy: The report is the product of a rigorous literature analysis and a series of dialogues with various stakeholders i.e., private sector, community representatives, development partners, civil society and government/public sector, who shared their aspirations for a robust wildlife economy in Kenya and proposed elements of a clear roadmap to diversify Kenya's wildlife economy, one of which includes harmonization of legislation. The report outlines strategic priorities and actions for advancing Kenya's wildlife economy and proposes recommendations for aligning these strategic priorities and actions to the national development agenda, relevant legislation, wildlife management and conservation strategy and Kenya's 2030 vision. b) A discussion paper that set out the wildlife conservation policy framework explored potential barriers for a robust wildlife economy for Kenya and provided comments and recommendations into the review process for Kenya's 2013 Wildlife Act.	Contribution from UNEP to implementing partner for project activities is available in relevant agreement.
5	Aga Khan Foundation	Hassan Partow, Policy and Programme Division	(14.05.2019 – 24.12.2021)	SDGs 13 and 15	Mountain watershed management; ecosystem-based disaster risk reduction; livelihoods and food security.	Nature Action	Finished.	The partnership has delivered several nature-based solutions in the disaster-prone rural areas of Afghanistan. In the reporting period the partnership was concluded and delivered the following results: a) In the Deh-shahr area, a 1 km dike reinforced by vegetation, was constructed in order to protect agricultural land from flooding. This has allowed local communities to replant thousands of trees and to use their lands for agriculture. b) The local communities have planted almost 50,000 trees, including apricot, almond and willow saplings. In total around 190 hectares of land are in the process of being rehabilitated and 150 hectares of rangeland are receiving special protection. This is reducing soil erosion, helping the earth conserve moisture and supporting local biodiversity.	Contribution from UNEP to implementing partner for project activities is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
6	AGRI3 Fund Manager B.V.	Ivo Mulder, Ecosystems Division	(22.06.2020 – 22.06.2022)  Renewal is in process	SDGs 11, 12, 13, and 15	Sustainable finance schemes for deforestation and sustainable agriculture.	Nature Action; Climate Action	Ongoing.	Within this partnership, US\$80 million have been mobilized from the Dutch Government and Rabobank to support the acceleration of the transition to sustainable agriculture. Four deals have been financed during the reporting period, leveraging US\$37.4 million for sustainable agriculture in Brazil.	None.
7	Airbnb, Inc.	Helena Rey de Assis, Economy Division	(04.05.2021 - 31.12.2025)	SDGs 11, 12, and 13	Communication on plastic pollution and sustainability.	Nature Action; Chemicals and Pollution Action	Ongoing.	In preparation for the Tokyo Olympic games, UNEP collaborated with Airbnb on awareness raising and communication materials for guests and hosts. These materials have been promoted widely on Airbnb's platforms and viewed by several thousands of people. In addition, on World Environment Day, UNEP, in partnership with the International Olympic Committee (IOC) and Airbnb, published a new guide entitled How to be a sustainable champion. The guide includes a series of practical ideas to help athletes and sport fans live a "planet-friendlier and healthier life". It offers practical tips on how to live more sustainably, ranging from ways to save energy and water in our daily lives through to making our societies more equal and inclusive. It has been promoted by the Olympic champions on social media and on IOC platforms.	None.
8.	Alfa Laval Copenhagen A/S	Meseret Teklemariam, Africa Office	(22.04.2022 - 28.02.2025)	SDGs 7, 12, and 13  UNEP/EA.3/Res.5- Investing in innovative environmental solutions for accelerating the implementation of the Sustainable Development Goals.  UNEP/EA.4/Res.17- Promote gender equality, and the human rights and empowerment of women and girls in environmental governance.	Renewable energy	Climate Action	Ongoing.	The cooperation agreement with several partners, including academia and private sector, facilitates the implementation of the "Widespread use of geothermal energy in East Africa" project. The project intends to boost East Africa's efforts in reducing carbon dioxide emissions and effectively support East Africa in increasing its renewable energy capacity. It aims to make geothermal energy one of the main contributors to the energy mix in East Africa and the expected outcomes include: social benefits (i.e., improvement of the livelihoods of communities, women and youth), economic benefits (i.e., creation of jobs and income generation), and environmental benefits (i.e., reduction of greenhouse gas emissions through utilization of clean energy replacing fossil fuels).	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
9.	AXA S.A. (AXA Research Fund)	Sonia Gueorguiev, Science Division, Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)	(28.02.2022 - 31.12.2024)	Cross-cutting	Support to the IPBES Fellowship programme.	Climate Action; Science-Policy	Ongoing.	The AXA Research Fund made an earmarked donation toward the IPBES fellowship programme. This contribution is targeted at early career fellows contributing to the Nexus assessment and to the Transformative change assessment.	Donation to UNEP is available in relevant agreement.
10.	Banco de las Microfinanzas Bancamía S.A.	Gustavo Mañez, Latin America and the Caribbean Office	(08.04.2020 – 31.12.2021)	SDG 13	Microfinance for ecosystem-based adaptation (MEbA).	Climate Action	Finished.	The project delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): a) 17,870 micro EbA loans were disbursed. b) US\$30,699,583 in private investment towards EbA was mobilized. c) 13 demonstration farms were created. d) 4,385 farmers were trained.	None.
11.	Beijing Capital International Airport Co., Ltd	Daniel Cooney, Communication Division	(04.06.2019 – 30.06.2024)	SDG 13	Communication and advocacy related to climate action; World Environment Day; ecosystem restoration.	Communication efforts relate to all Sub-programmes	Ongoing.	Through this partnership, UNEP was able to reach millions of people with three exhibitions on various campaigns, and UNEP's priority topics were showcased in the airport. During the past years, Beijing Airport has supported 2021 World Environment Day campaign, Clean Seas, the UN Decade on Ecosystem Restoration campaign as well as other campaigns through hundreds of billboards and TV screens.	None.
12.	BNP Paribas SA	Ivo Mulder, Ecosystems Division	(12.12.2017 – 12.12.2025)	Cross-cutting	Sustainable finance.	Nature Action, Climate Action	Ongoing.	The partnership with BNP Paribas aims to generate cumulative investments amounting to US\$10 billion in innovative finance solutions by 2025. A total of US\$300 million has already been mobilized through three initiatives - Tropical Landscapes Finance Facility; Global Fund for Coral Reefs; and Microfinance for ecosystem-based adaptation project. A sustainability bond valued at US\$95 million was launched previously.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
13.	BP p.l.c.	Giulia Ferrini, Economy Division	(27.10.2015 – valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Climate Action	Ongoing.	Is a member of the OGMP. The partnership reported the following results: The second round of OGMP 2.0 reporting was completed by 31 May 2022 with 70 companies submitting their 2022 reports and revised implementation plans outlining methane reduction targets and strategies to reach the Gold Standard reporting (reporting at source and site level based on direct measurements). Twelve technical guidance documents and Uncertainty and Reconciliation guidance were developed and approved by the OGMP 2.0 Steering Group. All OGMP 2.0 guidance is publicly available on the OGMP 2.0 website. The partnership has also organized an annual implementation conference and two experience sharing workshops, which were well attended by the OGMP 2.0 members.	None.
14.	Braskem S.A.	Llorenc Mila i Canals, Economy Division	Pledge Letter (2022)	SDG 12	Life Cycle Initiative.	Finance and Economic Transformations	Membership under renewal.	Braskem S.A. is a sponsoring partner of the Life Cycle Initiative, a public-private, multi-stakeholder partnership enabling the global use of credible life cycle knowledge by private and public stakeholders.	Donation to UNEP is available in relevant agreement.
15.	Broad Group	Lily Riahi, Economy Division	Letter of Co-finance (2020 – 2023)	SDG 7	Support the District Energy in Cities Initiative in promoting knowledge and awareness on alternative uses of energy for cooling.	Climate Action	Ongoing.	This company is part of the District Energy in Cities Initiative, a public-private partnership led by UNEP that supports cities and countries in their energy transition by accelerating investment in district energy systems. A pipeline of 33 pilot projects across 14 countries with a mitigation potential of 25 million tCO2 equivalent over the next 20 years has been identified to date, and US\$103 million of direct investment for project construction has been leveraged. Private sector engagement has been crucial in this process. Currently the discussions with the Broad Group are ongoing on further engagement in Vietnam and India on Urban cooling projects particularly on capacity building and provision of support in conducting the pre-feasibility assessment of city level cooling projects.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
16.	Caribbean Water and Sewerage Association (CAWASA)	Christopher Corbin, UNEP Cartagena Convention Secretariat	(23.05.2022 - 31.03.2023)	SDGs 1, 2, 3, 6, 7, 12, 14, 15 and 17  UNEA-4 Resolution (UNEP/EA.4/L.6): Sustainable Infrastructure.	Capacity building in wastewater.	Chemicals and Pollution Action	Ongoing.	The overall objective is to strengthen capacity building initiatives in the Caribbean Region by way of supporting the regional Water and Wastewater Operator training programme currently being implemented by the Caribbean Water and Sewerage Association (CAWASA). More specifically, in four pilot countries (Barbados, Belize, Grenada, and Saint Lucia), the aim is to certify a cadre of wastewater operators at the Association of Boards of Certification (ABC) Levels I or II in both Wastewater Treatment and Wastewater Collection.	Contribution from UNEP to implementing partner for project activities is available in relevant agreement.
17.	Cataratas do Iguacu S/A ("Cataratas Group")	Vitor Leal Pinheiro, Brazil Office	(04.06.2020 – 30.06.2022)	SDGs 12 and 14	Sustainable tourism, reduction of plastics.	Chemicals and Pollution Action	Finished.	In the last two years, due to the pandemic and isolation period, the partnership with this parks operator in Brazil has focused on live/online discussions. They have also committed to significantly reduce their single-use plastic products (SUPP) use in all their parks and attractions in the country, with the aim to sign the Global Tourism Plastics Initiative (GTPI) Commitment.	None.
18.	China Tianying, Inc.	Ruihe Tu, China Office	(29.01.2022-28.01.2025)	SDG 11	Advocacy and academic activities in China and Asia-Pacific Region; translation of UNEP's flagship reports	Science-Policy; Digital Transformations	Ongoing.	The partnership is centered around advocacy and academic activities in China and Asia-Pacific Region and translation of UNEP's flagship reports. It will also contribute to the Digital Transformation subprogramme.	None.
19.	Coöperative Circle Economy U.A.	Sharon Gil, Economy Division	(10.12.2021-31.03.2022)	SDG 12	Development of the circular economy through job tools.	Finance and Economic Transformations	Finished.	UNEP has partnered with this Circular Economy social enterprise to support cities in monitoring the transition of their economy from linear to circular. Having made considerable progress on analyzing the number of circular jobs in cities around the world together in 2021, UNEP and Circle Economy focused in 2022 on finalizing and applying a framework for clustering cities based on their characteristics, known as city typologies. The key outcome of this agreement was the development of a narrative to explain the framework to cities and validation of the framework by city stakeholders. This will aim at facilitating cities' transition to circularity, through scenario building based on certain typologies.	Contribution from UNEP to implementing partner for project activities is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
20.	DB Insurance	Yuki Yasui, Economy Division	(31.10.2019 –30.06.2022)	SDG 15 UNEP/EA.4/ Res.4 - Addressing environmental challenges through sustainable business practices.	Awareness raising; environmental pollution.	Nature Action	Finished.	This partnership raised awareness of the role of environmental pollution liability insurance and related legal frameworks to enhance pollution prevention. The study "New Risks, New Opportunities: Harnessing Environmental Pollution Liability Insurance for a Sustainable Economy" provides recommendations to key stakeholders to enhance environmental protection.  The report was successfully announced to a global insurance industry audience during the Principles for Sustainable Insurance (PSI) 10th Anniversary event hosted by Swiss Re in June 2022.	Donation to UNEP is available in relevant agreement.
21.	Deloitte Risk Advisory SDN. BHD.	Yuki Yasui, Economy Division	(19.08.2020 – 19.08.2022)	SDG 13	Awareness raising and capacity building on sustainable finance.	Climate Action	Finished.	Through this partnership, a series of webinars was hosted to raise awareness and build capacity on climate change, starting climate scenario analysis and stress testing based on the leading global framework developed by the FSB Task Force on Climate-Related Financial Disclosures (TCFD) applied using approaches developed through UNEP FI pilots to implement the framework. The collaboration enhanced the capabilities of the Malaysian banking industry to strengthen climate risk management using best-in-class approaches to link climate related science and policies to banking operations.	None.
22..	Ecopetrol S.A.	Giulia Ferrini, Economy Division	(27.10.2015 –valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Climate Action	Ongoing.	Is a member of the OGMP. The partnership reported the following results: The second round of OGMP 2.0 reporting was completed by 31 May 2022 with 70 companies submitting their 2022 reports and revised implementation plans outlining methane reduction targets and strategies to reach the Gold Standard reporting (the reporting at source and site level based on direct measurements). Twelve technical guidance documents and Uncertainty and Reconciliation guidance were developed and approved by the OGMP 2.0 Steering Group. All OGMP 2.0 guidance is publicly available on the OGMP 2.0 website. The partnership has also organized an annual implementation conference and two experience sharing workshops, which were well attended by the OGMP 2.0 members.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
23.	Energy Efficiency Services Limited (EESL)	Lily Riahi, Economy Division	(02.01.2017 – 02.01.2022)	SDG 13	Energy access and efficiency; urban waste management.	Climate Action	Finished	This company is part of the District Energy in Cities Initiative, a public-private partnership led by UNEP that supports cities and countries in their energy transition by accelerating investment in district energy systems. UNEP and EESL are discussing the strategy to support the pilot implementation of Cooling as a Service Model in government and public buildings. The learnings from the pilot implementation will help EESL to develop standard contracts for such projects with identification of business model and financing strategy to scale up. Under the District Cooling project EESL, UNEP and other stakeholder are collaborating for training and capacity building, awareness raising and engaging cities for demonstration projects. UNEP is in discussion with EESL to scale up the investment in pack house (cold storage) infrastructure. Discussions are ongoing to support the technical assistance on development of sustainable rural integrated packhouses in two Indian states. The engagement will aim to identify policy interventions in cold chain; develop business models, capacity building and investment programmes with EESL for setting up an environmentally sustainable cold chain.	Contribution from UNEP to implementing partner for project activities is available in relevant agreement.
24.	Eni S.P.A.	Giulia Ferrini, Economy Division	(27.10.2015 - valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Climate Action	Ongoing.	Is a member of the OGMP. The partnership reported the following results: the second round of OGMP 2.0 reporting was completed by 31 May 2022 with 70 companies submitting their 2022 reports and revised implementation plans outlining methane reduction targets and strategies to reach the Gold Standard reporting (the reporting at source and site level based on direct measurements). Twelve technical guidance documents and Uncertainty and Reconciliation guidance were developed and approved by the OGMP 2.0 Steering Group. All OGMP 2.0 guidance is publicly available on the OGMP 2.0 website. The partnership has also organized an annual implementation conference and two experience sharing workshops, which were well attended by the OGMP 2.0 members.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
25.	E.ON SE	Ann-Kathrin Neureuther, Communication Division	(27.01.2021 - 27.01.2023)	SDGs 12, 13, and 15	Nature-Based Solutions: showcasing best practices and local initiatives.	Nature Action; Digital Transformations	Ongoing.	E. ON's in-house design firm "We are the Garage" has supported the development and testing of the UN Decade on Ecosystem Restoration website. E. ON SE has provided six management, development and design staff, who worked on the development of the website and creating an interactive state of the art solution, first of its kind for UNEP. The launch of the website is planned for September. Through the new interactive site, users will have the opportunity to create their own profiles, onboard restoration initiatives, explore the wider UN Decade Network, funding, support and/or volunteer opportunities with potentially thousands of restoration initiatives worldwide.	None.
26.	Equinor ASA	Giulia Ferrini, Economy Division	(27.10.2015 - valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 - transparent reporting on methane emissions from the oil and gas sector.	Climate Action	Ongoing.	Is a member of the OGMP. The partnership reported the following results: the second round of OGMP 2.0 reporting was completed by 31 May 2022 with 70 companies submitting their 2022 reports and revised implementation plans outlining methane reduction targets and strategies to reach the Gold Standard reporting (the reporting at source and site level based on direct measurements). Twelve technical guidance documents and Uncertainty and Reconciliation guidance were developed and approved by the OGMP 2.0 Steering Group. All OGMP 2.0 guidance is publicly available on the OGMP 2.0 website. The partnership has also organized an annual implementation conference and two experience sharing workshops, which were well attended by the OGMP 2.0 members.	None.
27.	Far North Productions Limited	Imae Ann, Asia and Pacific Office	(01.06.2020 - 31.03.2024)	SDGs 3, 13, and 15 UNEP/EA.3/Res.8 - Preventing and reducing air pollution to improve air quality globally.	Communication and advocacy on air pollution.	Chemicals and Pollution Action	Ongoing.	The short film-documentary "Seeking Cleaner Air" will start filming in September 2022. It will culminate in an 8000m summit attempt in the Himalaya (Cho Oyu and Manaslu) and will draw parallels between the difficulty to breathe at such extreme altitudes and the difficulties that so many people are facing every day, when breathing the polluted air, and the associated health risks.	None.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
28.	Formula E Operations Limited	Sonia Bindra, Communication Division	(12.01.2021 – 12.01.2023)	SDGs 7 and 13 UNEP/EA.1/Res.7- Strengthening the role of the United Nations Environment Programme in promoting air quality. UNEP/EA.3/Res.8 - Preventing and reducing air pollution to improve air quality globally. UNEP/EA.4/Res.3- Sustainable Mobility.	Communication and advocacy on air quality, electric mobility and sustainable lifestyles.	Climate Action; Chemicals and Pollution Action	Ongoing.	This partnership aims to develop and implement communication initiatives focused on air quality, electric mobility and sustainable lifestyles. Formula E driver Lucas Di Grassi has supported digital engagement efforts for the International Day of Clean Air for Blue Skies. Joint offline activations have been on hold due to the cancellation of races during the pandemic. In previous years, UNEP organized a series of events at the Formula E races, as well as communication campaigns to raise awareness on the benefits of electric vehicles among younger generations and motorsport fans globally.	None.
29.	Global Climate Partnership Fund S.A., SICAV-SIF ("GCPF")	Mark Radka, Economy Division	(27.06.2017 – 31.03.2022)	SDG 7	Energy efficiency country assessments and baselines.	Climate Action	Finished.	GCPF is the specialized private sector financing partner of UNEP's United for Efficiency global leapfrogging initiative. GCPF diversified its portfolio, adding six new partner institutions, which now includes 42 stakeholders in 23 countries. Since the Fund's inception, partner institutions have disbursed a cumulative amount of US\$865 million through 79,469 sub-loans, a 7% increase in 2020 over 2019.	Donation to UNEP is available in relevant agreement.
30.	Google Inc.	Nancy Groves, Communication Division	(28.06.2022 – valid until termination)	Cross-cutting	Advocacy.	Climate Action; Nature Action; Chemicals and Pollution Action	Ongoing.	The Google Cultural Institute is an initiative offers free tools and technologies, so partners can showcase their cultural content making it more widely accessible to a global audience on a non-commercial basis.	None.
31.	GoldenBee (Beijing) Management Consulting Co., Limited	Fulai Sheng, Economy Division	(26.08.2021- 26.08.2023)	SDGs 9, 11, 12, 13, and 17 UNEP/EA.4/ Res.6- Sustainable Infrastructure.	Sustainable infrastructure.	Climate Action; Chemicals and Pollution Action	Ongoing.	This partnership with GoldenBee (Beijing) Management Consulting, sustainability consulting services provider, aims to support UNEP's continuation of work on implementation of the UNEA-4 Resolution (UNEP/EA.4/L.6): Sustainable Infrastructure. The contribution supports the Sustainable Infrastructure Partnership (SIP). The SIP has engaged private sector infrastructure practitioners through the ten-part virtual webinar series, Sustainable Infrastructure: Putting Principles into Practice. 642 individuals in 71 countries participated in total.	Donation to UNEP is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
32.	Grassroots Capital Management Corp., PBC	Gustavo Mañez, Latin America and the Caribbean Office	(29.06.2020 – 29.06.2022)	SDGs 13 and 15	Microfinance for Ecosystem-based Adaptation (MEbA).	Climate Action	Finished.	The project delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin): a) 17,870 micro EbA loans were disbursed. b) US\$30,699,583 in private investment towards EbA was mobilized. c) 13 demonstration farms were created. d) 4,385 farmers were trained.	None.
33.	H&M Hennes & Mauritz	Sonia Gueorguiev, Science Division, Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)	(24.08.2020-31.12.2024)	Cross-cutting	Support to the IPBES work programme.	Climate Action; Science-Policy	Ongoing.	IPBES is working with private sector companies, leaders in their industries, to improve their business practices. A global fashion group, H&M has committed to fund IPBES nexus assessment, as fiber will also be assessed in the report, which will help H&M to drive change and innovation throughout its value and supply chains.	Donation to UNEP is available in relevant agreement.
34.	International Business Machines Corporation ("IBM")	Shereen Zorba, Corporate Services Division	(14.12.2020 – 31.12.2021) (10.12.2021 - 31.12.2022)	Cross-cutting	Science-Policy-Business Forum (SPBF); Innovations and technology.	Science-Policy	Ongoing.	In 2022, IBM co-designed and supported the establishment of the Data for the Environment Alliance (DEAL) initiative and backed the launch of the new installation of the World Environment Situation Room (WESR) during the 5th Session of the UN Environment Assembly in March 2022.  In addition, IBM contributed with high level representation of big data experts to the discussion on technology and transformation at the UN Science Policy Business Forum 4th Global session held in conjunction with Stockholm +50 in June 2022. The partner provided demos and showcased latest technologies such as cloud, artificial intelligence blockchain and internet of things (IoT) to devise innovative green solutions for nature, climate and environment.  IBM continued to be the SPBF lead technology partner on the Marine Litter Big Data project, having contributed to the data integration process part of the Marine Litter Digital Platform. IBM also provided expert and financial contributions to the SPBF Working Group on Big Data and Frontier Technologies.	Donation to UNEP is available in relevant agreement.

No.	Partner	UNEP Lead	Duration of agreement(s)	SDGs/UNEA Contribution	Themes/Areas of cooperation	Sub-programme of Work Related to Agreement(s)	Progress on implementation of agreement(s)	Achievements and Results	Financial Implications/ Transfer of Funds
35.	International Council of Chemical Associations (ICCA)	SAICM Secretariat, Economy Division	(20.12.2021 – 31.12.2024) (03.03.2022 - 2024)	SDGs 3, 12, and 17	Strategic Approach to International Chemicals Management.	Chemicals and Pollution Action	Ongoing.	<p>This partnership provided funding for the Strategic Approach to International Chemicals Management (SAICM).</p> <p>ICCA provided comments during online consultations for the "Study on Industry Involvement in the Integrated Approach to Financing the Sound Management of Chemicals and Waste".</p> <p>ICCA is also collaborating on the "Pilot Project to support African Countries in Overcoming Barriers in Implementing the United Nations Globally Harmonized System of Classification and Labelling of Chemicals (GHS)", with SAICM, UNEP, the European Union, the European Chemicals Agency, and the UN Institute for Training and Research (UNITAR).</p>	Donation to UNEP is available in relevant agreement.
36.	IQAir AG	Sean Khan, Science Division	(21.04.2022 – 21.04.2024)	SDG 3 UNEP/EA.3/Res.8 - Preventing and reducing air pollution to improve air quality globally.	Data; air quality and pollution; awareness raising.	Chemicals and Pollution Action	Ongoing.	<p>In a renewed partnership with IQAir, UNEP hosts the world's largest real-time data bank for air pollution (PM2.5) that is supported by a mobile application that reaches over 50 million users. This year, we plan to update the platform with the release of real-time exposure estimates for national populations globally. The update is the only function of its kind and identifies which age group in any country is most exposed to harmful air pollution at any given time. Plans to amplify its user base and inspire innovative use of real-time air measurement are being explored for the next engagement period with IQAir.</p>	None.

37.	Kalahari GeoEnergy Limited	Meseret Teklemariam, Africa Office	(22.04.2022 – 28.02.2025)	SDGs 7, 12, and 13  UNEP/EA.3/Res.5- Investing in innovative environmental solutions for accelerating the implementation of the Sustainable Development Goals  UNEP/EA.4/Res.17- Promote gender equality, and the human rights and empowerment of women and girls in environmental governance.	Renewable energy.	Climate Action	Ongoing.	The cooperation agreement with several partners, including academia and private sector, facilitates the implementation of the "Widespread use of geothermal energy in East Africa" project. The project intends to boost East Africa's efforts in reducing carbon dioxide emissions and effectively support East Africa in increasing its renewable energy capacity. It aims to make geothermal energy one of the main contributors to the energy mix in East Africa, and expected outcomes include: social benefits (i.e., improvement of the livelihoods of communities, women and youth), economic benefits (i.e., creation of jobs and income generation), and environmental benefits (i.e., reduction of greenhouse gas emissions through utilization of clean energy replacing fossil fuels).	None.
38.	Kenya Electricity Generating Company PLC	Meseret Teklemariam, Africa Office	(22.04.2022 – 28.02.2025)	SDGs 7, 12 and 13  UNEP/EA.3/Res.5- Investing in innovative environmental solutions for accelerating the implementation of the Sustainable Development Goals.  UNEP/EA.4/Res.17- Promote gender equality, and the human rights and empowerment of women and girls in environmental governance.	Renewable energy.	Climate Action	Ongoing. 39.	Kering SA	Sonia Gueorguiev, Science Division, Intergovernmental Platform on Biodiversity and Ecosystem Services (IPBES)	(11.03.2021 –31.08.2022) (19.01.2022 –31.08.2023)	Cross-cutting	Support to the IPBES work programme.	Climate Action, Science-Policy	Ongoing.	<p>This partnership would help Kering SA to improve its business practices. As the global luxury Group, Kering is currently in the process of leading a transformation of its supply and value chains. Having a strong economic and sustainability leadership in the industry, Kering can enable the transformative change of the forthcoming sustainability standards for the entire industry and even beyond.</p> <p>The funds from the donor will contribute to IPBES' nexus assessment (among other assessments), which, to promote biodiversity to achieve the 2030 Agenda for Sustainable Development, will assess the interlinkages among biodiversity, water, food, health, energy and climate, and potentially will inform the development of policies and actions.</p>	Donation to UNEP is available in relevant agreement.
40.	La Banque Agricole	Gustavo Mañez, Latin America and the Caribbean Office	(25.05.2020 – 31.12.2021)	SDGs 13 and 15	Microfinance for ecosystem-based adaptation (MEbA).	Climate Action	Finished.	<p>The project delivered the following results in six Latin American countries (Colombia, Peru, Costa Rica, Dominican Republic, Nicaragua and El Salvador) and two African countries (Senegal and Benin):</p> <p>a) 17,870 micro EbA loans were disbursed. b) US\$30,699,583 in private investment towards EbA was mobilized. c) 13 demonstration farms were created. d) 4,385 farmers were trained.</p>	None.
41.	Meshminds PTE. LTD	Imae Ann, Asia and Pacific Office	(22.01.2021 – 22.01.2023)	SDGs 12, 14, and 15 UNEP/EA.5/Res.14End plastic pollution: Towards an international legally binding instrument.	Mobilizing frontier technologies, such as augmented reality and virtual reality, to power the digital transformation of UNEP and its associated environmental communications.	Chemicals and Pollution Action	Ongoing.	<p>The partnership produced a social media campaign "100 Days to #BeatPlasticPollution". The campaign aimed to unify the efforts of young sustainability advocates from the South-East Asia region by employing "hashtag activism" on social media. The campaign ran from 1 September to 10 December 2021 and reached over 21 million unique individuals in 45 countries, including 1.2 million, who engaged in the augmented reality experiences. Overall engagement rate was 5.6%, which is considered high.</p> <p>The campaign has also inspired the partner to develop a short film, produced pro-bono, entitled (PLASTIK) – a wakeup call to end plastic pollution. It was launched on UNEP's YouTube channel for the World Environment Day and was viewed 14,000 times.</p>	Contribution from UNEP to implementing partner for project activities is available in relevant agreement.

42.	Mitsui Chemicals, Inc	Mushtaq Ahmed Memon, Asia and Pacific Office	(04.02.2020 – 04.02.2022)	SDG 12	Capacity building of start-ups focused on addressing plastic pollution and marine litter.	Finance and Economic Transformations	Finished.	Three start-ups were trained and mentored in addressing pollution challenges and the development of sustainable and green business models.	None.
43.	National Central Cooling Co. (P.S.C.) (TABREED)	Lily Riahi, Economy Division	(14.10.2020 – 31.07.2023)	SDG 7 UNEP/EA.4/L.3 - Promoting sustainable practices and innovative solutions for curbing food loss and waste.	Technical in-kind support under District Energy in Cities Initiative and Cool Coalition.	Climate Action	Ongoing.	This partnership started its implementation in 2021 and it contributes to the work of the Cool Coalition and the District Energy in Cities Initiative. In the reporting period, the partnership with TABREED delivered the following results: a) supported the development of a 100% renewable energy, net-zero emissions cold chain packhouse prefeasibility study, which is now going into business development, procurement and investor identification. b) the campaign on sustainable cooling at the global level and in India, reaching stakeholders during the World Environment Day 2022, COP26 and the Ozone Day 2022. Additionally, UNEP was instrumental in matchmaking the International Finance Corporation (IFC) and TABREED to establish a US\$400 million investment platform for district cooling in developing countries.	Donation to UNEP is available in relevant agreement.
44.	Neptune Energy International	Giulia Ferrini, Economy Division	(27.10.2015 – valid until termination)	SDGs 7, 9, and 13	Oil and Gas Methane Partnership (OGMP) 2.0 – transparent reporting on methane emissions from the oil and gas sector.	Climate Action	Ongoing.	Is a member of the OGMP. The partnership reported the following results: the second round of OGMP 2.0 reporting was completed by 31 May 2022 with 70 companies submitting their 2022 reports and revised implementation plans outlining methane reduction targets and strategies to reach the Gold Standard reporting (the reporting at source and site level based on direct measurements). Twelve technical guidance documents and Uncertainty and Reconciliation guidance were developed and approved by the OGMP 2.0 Steering Group. All OGMP 2.0 guidance is publicly available on the OGMP 2.0 website. The partnership has also organized an annual implementation conference and two experience sharing workshops, which were well attended by the OGMP 2.0 members.	None.

60.	(adidas) Runtastic GmbH	Matthias Jurek, Annette Leopold, Europe Office	(14.09.2020 – 14.09.2022) Renewal is expected.	SDGs 13 and 15	Communication around conservation and wildlife.	Climate Action; Nature Action	Ongoing.	“Run Wild” is an innovative running challenge, in which runners can compete against and learn about real, GPS-tracked, species using the adidas Running application. With “Run Wild”, UNEP and adidas Runtastic have set up a successful collaboration linking outdoor sports and awareness raising for the protection of global biodiversity and endangered species, in particular, linking with the upcoming Sports for Nature Report/Initiative. Previous achievements include mobilizing over 1 million runners worldwide to run for raising awareness for 1 million species on the brink of extinction (Run Wild 2.0 in 2020) and motivating runners to learn about the waste problem in mountain regions and to reconnect with nature (Run Wild 3.0 in 2021). Based on these successes and close collaboration with NGOs and conservation partners on the ground, UNEP and adidas Runtastic are currently planning a Run Wild 4.0 running challenge in 2023. The jaguar, one of two new flagship species under the Vanishing Treasures 2.0 program from the Andean mountain region, is under consideration to be featured as a key species for Run Wild 4.0. Further collaborations and partnerships, as well as relevant connections to the Sports for Nature Initiative and report, are currently under development.	None.
61.	Safaricom	Sean Khan, Science Division	(16.08.2017 – 31.12.2021) Renewal under consideration.	SDG 3 UNEP/EA.3/Res.8 - Preventing and reducing air pollution to improve air quality globally.	Data; air quality and pollution; awareness raising.	Chemicals and Pollution Action	Finished.	UNEP teamed up with Safaricom, a Kenyan telecom company, and IQAir, a technology company, to stream real-time air pollution measurements to digital billboards across Nairobi. This resulted in a major increase in air quality awareness and engagement in Kenya. It also informed the Nairobi Air Quality Policy and led to a commitment from Safaricom PLC to collaborate in the roll out of the infrastructure across Kenya and potentially other countries.	None.

62.	SailBri Cooper Inc	Sean Khan, Science Division	(17.08.2021 – 17.08.2023)	Cross-cutting	Data collection and management; air pollution.	Science-Policy	Ongoing.	UNEP and SailBri Cooper are creating a UN-facilitated open data management platform (ODMS) for air quality management, quality control, assurance, and data sharing. The platform is expected to be launched in fall 2022, and offers easy to use functionality to manage field deployments, the aggregation of data from collaborating entities (e.g. US Embassy reference stations, other collaborators at national or regional scales), and remote trouble shooting access to support teams (e.g. UNEP and partners) using video, photographs and social media channels to assist with field operations and maintenance. Other capabilities include real time visualization and analysis, multi-user management and data access rights. This year, we plan to update the platform with the release of real-time exposure estimates for national populations globally. The update is the only function of its kind and identifies which age group in any country is most exposed to harmful air pollution at any given time. The platform will be piloted with five cities in Africa as part of its incremental roll out to Member States that need capacity improvements for managing air quality.	None.
