Note by the Secretariat

Background

1. The 18th Meeting of the Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols (Istanbul, Turkey, 3-6 December 2013), in its Decision IG.21/2, asked the Secretariat to prepare, in consultation with the Compliance Committee, a simplified and practical draft of the reporting format for the implementation of the Barcelona Convention and its Protocols, originally adopted by the 15th Meeting of the Contracting Parties (Almeria, Spain, 15-18 January 2008) in Decision IG. 17/3.

2. In its Decision IG. 22/16, the 19th Meeting of the Contracting Parties (Athens, Greece, 9-12 February 2016) reiterated the request for a simplified format and invited Contracting Parties to consider their participation in its testing with a view to finalizing it for written consultation with MAP Focal Points and then submission to the 20th Meeting of the Contracting Parties (Tirana, Albania, 17-20 December 2017).

3. In taking this work forward, the Secretariat, in consultation with the Compliance Committee and UNEP/MAP components, prepared a draft revised reporting format that was submitted to the 12th Compliance Committee Meeting (Athens, Greece, 24-25 January 2017) and to MAP components meetings. This resulted in a further refined version of the draft, which was circulated for testing among MAP Focal Points. Only two Contracting Parties took part of the testing exercise and provided comments.

4. The draft Decision was reviewed by the MAP Focal Points Meeting (Athens, Greece, 12-15 September 2017) which endorsed it for consideration by the Contracting Parties at their 20th Meeting.

5. This paragraph reflects developments related to the draft revised reporting format following the MAP Focal Points Meeting:

(1) developments within the Minamata Convention on Mercury: the first meeting of the Conference of the Parties to the Minamata Convention (Geneva, 24-29 September 2017) adopted the reporting format for the Minamata Convention on Mercury (UNEP/MC/COP/1/CRP.17). The Minamata reporting format is broader in scope than the table for reporting on the implementation of the Regional Action Plan on Mercury (Decision IG. 20/8.1) under the Land-Based Sources Protocol (LBS Protocol), Part III. The table is complementary to the Minamata reporting format;

(2) comments provided in the context of the testing exercise of the draft revised reporting format: following bilaterals with the two Contracting Parties which provided comments on the revised reporting format, it is suggested that at the time of putting on line the revised reporting format, it could be refined as follows.

a. Tables on “Legal and Regulatory Measures”: the column “Status” of implementation should be expanded to include a new option - “Partially” - , to reflect the fact that in some cases a requirement has been partially taken up in the legal or regulatory framework in place;

b. Section 01 Barcelona Convention, Table “Legal and Regulatory Measures”: Questions 13 (transboundary EIA) and 14 (ICZM) should be in the previous section rather than under optional reporting, in view of Articles 4(3) (d) and (e) of the Barcelona Convention;

c. Section 04 Land-Based Sources Protocol: Table II “Inventory: LBS Protocol Article 13 (c)”: Units for reporting the total quantity of the pollutant released to air, waters or soil from all sectors of activity should be also in “tonnes/year”, giving Contracting Parties the flexibility to report using either “kg/year” or “tonnes/year” depending on the quantities involved;

d. Section 05 Specially Protected Areas and Biodiversity Protocol:

- Table XI “Enforcement Measures”, a new column should be inserted to show the total number of enforcement measures;

- Table XII “Implementation of RAPs”, table for reporting on the implementation of the Regional Action Plan concerning Species Introductions and Invasive Species (COP Decision IG 22/12). The first question “Set up a mechanism to promote and coordinate the actions listed in paragraph 22 of the RAP- Timeline 2016” should be expanded to number the actions listed in paragraph 22 of the RAP. The actions are currently shown in footnote number 1 to the question;
 - Table XII “Implementation of RAPs”, table for reporting on the implementation of the Regional Action Plan for the Conservation of Coralligenous and Other Calcareous Bio-concretions (COP Decision IG 22/12). For clarity of intent, the first question should be refined as follows: “Improve habitat modelling methods on coralligenous distribution and guide cost-effective field surveys for data acquisition”.
- e. Section 07 Hazardous Waste Protocol: The years in Tables III and IV should be updated to reflect the reporting years.

General considerations

6. The draft revised reporting format as presented in the enclosed draft Decision has been re-designed with a twofold objective: simplifying the national reporting process and increasing the relevance of national reports.
7. Simplification of the reporting format and information requirements is expected to ease the burden of reporting on Contracting Parties. Simpler reports should also promote more consistent responses among Contracting Parties and from year to year by the same Contracting Party. This should lead to the gathering of more consistent information for synthesis and analysis by the Secretariat for presentation to MAP relevant bodies.
8. Providing more focused oriented and reader-friendly syntheses of information submitted by Contracting Parties in national reports could make these reports more useful to Contracting Parties. If national reports were seen as a platform from which Contracting Parties could communicate their progress and/or difficulties with the Convention and Protocols implementation, this would also raise the profile of national reports.
9. The draft revised reporting format presents the following main features:
- a) provides pre-filled sections, facilitating Contracting Parties to submit updates on changes since the last report. This would simply entail ticking the appropriate box “Yes” or “No”, depending on whether there is any change in the information provided, during the previous reporting period;
 - b) reinforces streamlining with other in-house reporting processes, thus avoiding duplication with datasets held by Regional Activity Centres (RACs). For that purpose, the format has been re-structured by providing Contracting Parties with the flexibility to refer to RACs datasets as appropriate;
 - c) enhances complementarity and harmonization with relevant global and regional reporting, thus reducing the burden on Contracting Parties to prepare separate reports on implementation of different but related international conventions. With this in mind, the format has been aligned as much as possible to the reporting procedures of relevant global and regional conventions, e.g. London Dumping Convention and its Protocol, Basel Convention and Stockholm Convention;
 - d) gives Contracting Parties further room to explain the possible difficulties and challenges when reporting, so that different degrees and modalities of technical and legal advice may be provided by the Secretariat. It also gives Contracting Parties the option to provide detailed information on a voluntary basis by using web links;

e) reflects the dynamic nature of the MAP system, by including the most recent and relevant work on Regional Action Plans, National Actions Programmes and indicators.

Specific considerations

9. The draft revised reporting format is composed of seven independent sections per instrument as follows: (1) Section 01-Barcelona Convention, (2) Section 02- Dumping Protocol, (3) Section 03- Prevention and Emergency Protocol, (4) Section 04-Land-Based Sources Protocol, (5) Section 05- Specially Protected Areas and Biodiversity Protocol, (6) Section 06-Offshore Protocol and (7) Section 07-Hazardous Wastes Protocol. In comparison with the current format, the draft revised reporting format introduces the following key changes per section.

10. Section 01-Barcelona Convention: To reduce the amount of information provided, the Table on Status of Ratification has been removed in the draft revised reporting format, as that information is provided by the Depository State to the Secretariat.

11. Section 02-Dumping Protocol: This Section is devised to facilitate the implementation of the reporting obligation under Article 26 of the Barcelona Convention and Articles 8 and 14(2)(b) of the Dumping Protocol, i.e. the submission of information about the Dumping Protocol-implementing legislation, quantities and types of wastes permitted and dumped, location and method of dumping.

(a) Table 1 (Legal and Regulatory Measures). Table 1 merges Table I (Legal Measures) and Table II (Allocation of Resources) of the current format in order to present the information on legislation and/or regulations adopted by Contracting Parties to comply with the provisions of the Dumping Protocol, including difficulties faced in their implementation, in a more consistent way. In doing so, the description of the obligations has been further refined in line with the language of the relevant articles of the Dumping Protocol;

(b) Table 2 (Dumping at Sea Permits and Quantities), Table 3 (Quantities of Wastes or Other Matter at Sea for Each Dump Site), Table 4 (Coordinates for Dump Sites) and Table 5 (Monitoring). Tables 2 to 5 replace Table III (Administrative measures), Table IV (Force majeure), Table V (Critical situations), Table VI (Enforcement measures) and Table VII (Implementation of Dumping Guidelines) of the current format. The new Tables cover quantitative data under Articles 6 and 10 of the Dumping Protocol and follow *mutatis mutandis* the Revised Electronic Reporting Format of the 1976 London Convention and its 1996 Protocol on Dumping (LC 33/15 Annex 5). This new tabular layout: (i) simplify the obligation of the Contracting Parties to keep records of the nature and quantities of the wastes or other matter permitted to be dumped and of the location, date and method of dumping, as requested in Article 10 of the Protocol; (ii) facilitates the submission of requested data by countries either Contracting Parties to the 1976 Protocol or the 1995 Protocol; (iii) ease the submission of data on monitoring, including field and assessment monitoring and (iv) provides a format, harmonised with relevant international developments, for countries to keep records of permits, quantities, location and monitoring of dumping activities;

(c) Table 6 (Placement of Artificial Reefs). Table 6 has been added to reflect the most recent developments concerning placement under Article 3(4) (b) of the Dumping Protocol and facilitates the submission of information on placement of artificial reefs.

12. Section 03-Prevention and Emergency Protocol: This Section is arranged to simplify the implementation of the reporting obligations under Article 26 of the Barcelona Convention and Article 4 (Contingency Plans and other Means of Preventing and Combating Pollution Incidents), Article 7 (Dissemination and Exchange of Information), Article 9 (Reporting Procedure), Article 10

(Operational Measures) and Article 16 (Reception of Ships in Distress in Ports and Places of Refuge) of the Prevention and Emergency Protocol.

(a) *Table I (Legal and Regulatory Measures)*. Table I streamlines Table I (Legal and Administrative Measures) of the current format, by inter alia making a distinction between mandatory and optional reporting. For the non-mandatory elements of Protocol the reporting becomes optional, thereby reducing the burden of reporting on Contracting Parties;

(b) *Table II (Operational Measures)*. Table II combines Table V (Technical Measures Taken) and Table VI (Operational Measures Taken) of the current format, in an attempt to rationalize and simplify the submission of information by providing the Contracting Parties with the flexibility to upload data either from the relevant sections of the REMPEC Country Profiles or national data sets;

(c) *Table III (Pollution Incidents)*. Table III replaces Table VII (Spill Incidents) of the current format. The new Table follows the layout of the MEDGIS-MAR database so that if data has been submitted via the MEDGIS-MAR database, there is no need to do so again, thus avoiding duplication of data from several data sources;

(d) Tables I to III (Status of Ratification of the International Legal Instruments related to the Prevention and Emergency Protocol) of the current format have been removed in the draft revised reporting format, as this information could be extracted from the IMO website.

13. *Section 04-Land-Based Sources Protocol*: This Section is organised to facilitate the implementation of the reporting obligations under Article 26 of the Barcelona Convention and Article 13 of the Land-Based Sources Protocol. Article 13 of the Protocol covers information on: (1) statistical data on the authorizations granted under Article 6 of the Protocol; (2) monitoring data as provided for in Article 8 of the Protocol; (3) quantities of pollutants discharged from their territories and (4) action plans, programmes and measures implemented in accordance with Articles 5, 7 and 15 of the Protocol.

(a) *Table I (Legal and Regulatory Measures)*. Table I combines and simplifies Table I (Legal Measures) and Table II (Allocation of resources) of the current format, thus facilitating the submission of information on the legal and/or regulatory framework put in place by Contracting Parties to implement the Land-Based Sources Protocol;

(b) *Table II (Inventory-Article 13(c) of the Land-Based Source Protocol)*. Table II replaces Table III-1 (Statistical information on Authorizations) and Table III-2 (Quantities of Pollutants Discharges) of the current format. The new Table has been designed so that if data has been submitted via the MEDPOL online NBB system there is no need to resubmit it, thus avoiding the duplication with datasets held by MEDPOL;

(c) *Table III (Implementation of Regional Action Plans and their Effectiveness)*. The draft revised reporting format includes a new table addressing the implementation of the Regional Action Plans adopted by Contracting Parties since the adoption of the current format. These cover: (1) Regional Action Plans on POPs, (2) Regional Action Plans on the Reduction of BOD5, (3) Regional Plan on the Reduction of Inputs of Mercury (Decision IG.20/8.1), (4) Regional Plan on Marine Litter Management in the Mediterranean (Decision IG.21/7) and (5) Regional Action Plan on Sustainable Consumption and Production in the Mediterranean (Decision IG. 22/5);

(d) *Table IV (Implementation of National Action Plans and their Effectiveness) and Table V (Monitoring)*. Tables IV and V represent a refined version of Tables V (Implementation of National Action Plans) and VI (Implementation of Monitoring) of the current format, in order to include the most recent and relevant work on National Actions Plans and indicators, thus reflecting the evolving nature of the UNEP/MAP framework.

14. Section 05-Specially Protected Areas and Biodiversity Protocol: This Section is devised to facilitate the implementation of the reporting obligations under Article 26 of the Barcelona Convention and Article 23 of the Specially Protected Areas and Biodiversity Protocol. Under Article 23, Contracting Parties are obliged to report on the implementation of the Protocol, in particular: (1) the status and state of the areas included in the SPAMI List, (2) any changes in the delimitation or legal status of the SPAMIS and protected species and (3) possible exemptions allowed under Articles 12 and 18.

(a) *Part V (Monitoring)*. A new Part has been included in the draft revised reporting format to reflect work concerning the Integrated Monitoring and Assessment Programme (IMAP) in the Mediterranean and relevant biodiversity indicators;

(b) *Part VII (Implementation of Regional Action Plans)*. The Part on implementation of Actions Plans under the current format has been updated to incorporate the revised and new Regional Action Plans adopted since the adoption of the current format by COP 15. These cover: (1) Action Plan for the conservation of Cartilaginous Fishes (Chondrichthyans) in the Mediterranean Sea (Decision IG 21/4), (2) Updated Action Plan concerning Species Introductions and Invasive Species in the Mediterranean Sea (Decision IG. 22/12), (3) Updated Action Plan for the Conservation of Cetaceans in the Mediterranean Sea (Decision IG. 22/12), (4) Action Plan for the conservation of Marine Vegetation in the Mediterranean Sea (Decision IG 20/6), (5) Action Plan for the conservation of Bird Species listed in Annex II of the Specially Protected Areas and Biodiversity Protocol in the Mediterranean (Decision IG 21/4), (6) Action Plan for the conservation of Mediterranean Marine Turtles (Decision IG 21/4), (7) Updated Action Plan for the conservation of the Coralligenous and Other Calcareous Bio-concretions in the Mediterranean Sea (Decision IG. 22/12) and (8) Action Plan for the conservation of Habitats and Species associated with seamounts, underwater caves and canyons, aphotic engineering benthic invertebrates and chemo-synthetic phenomena, in the Mediterranean Sea (Dark Habitats Action Plan) (Decision IG 21/4).

15. Section 06-Offshore Protocol: This Section is structured to facilitate the implementation of the reporting obligations under Article 26 of the Barcelona Convention and Article 30 of the Offshore Protocol. Under Article 30, Contracting Parties are obliged to report about: (1) information concerning authorizations under Section II: authorization system, (2) information concerning authorizations under Section III: Wastes and Hazardous Noxious Materials and (3) contingency plans (Article 16).

(a) *Table I (Legal and Regulatory measures)*. Table I consolidates Table I (Legal Measures) and Table II (Allocation of resources) of the current format, by further rationalizing the submission of information in line with the structure of the Offshore Protocol;

(b) *Table II (Permits and Quantities)*. Table II replaces Table III (Authorization/permits and related technical data) and Table IV (Exceptions-Article 14) of the current format. The new table has been designed to capture information under Articles 9 and 14 of the Offshore Protocol on permits and quantities dumped from offshore installations, covering the disposal of harmful or noxious substances and materials and exceptions in case of force majeure or to minimize pollution;

(c) *Table III (Inventory of Offshore Installations)*. Table III replaces Table V (Removal) of the current format. The inventory in the draft revised reporting format follows mutatis mutandis the OSPAR inventory of removed and disused installations in the North-East Atlantic.

16. Section 07-Hazardous Wastes Protocol: This Section is devised to facilitate the implementation of the reporting obligations under Article 26 of the Barcelona Convention and Articles 4 (National definitions of Hazardous Wastes), 8 (Regional Cooperation), 9 (Illegal traffic), 11 (Transmission of information) and 13 (Verification) of the Hazardous Wastes Protocol. The draft

revised reporting format has been further harmonized to follow the Revised Questionnaire on Transmission of Information (in accordance with Articles 13 and 16 of the Basel Convention). In doing so, language of the draft revised reporting format has been refined and tables expanded, where relevant, as Table VII on information on disposals which did not proceed as intended. The driven factor has been to streamlining the work at UNEP/MAP level with the latest developments within the framework of the Basel Convention, thus facilitating reporting under the Hazardous Wastes Protocol.

17. The Reporting Format for the ICZM Protocol implementation was adopted by the 19th Meeting of the Contracting (Athens, Greece, 9-12 February 2016) by Decision IG.22/16. Upon approval of the revised reporting format, the Secretariat will initiate the necessary action to integrate the ICZM Protocol reporting format into the general one of the Barcelona Convention and its Protocols.

18. The implementation of this Decision is linked to Outputs 1.2.1 and 1.5.2 of the proposed Programme of Work. It has budgetary implications on MTF resources, reflected in the proposed budget.

Draft decision IG.23/1

Revised reporting format for the implementation of the Barcelona Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols

The Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols at their twentieth meeting,

Having regard to the Barcelona Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols, in particular article 26 of the Barcelona Convention and relevant articles of its Protocols addressing reporting obligations,

Recalling decision IG. 17/3 of the fifteenth meeting of the Contracting Parties, by which the Contracting Parties adopted the reporting format for the implementation of the Barcelona Convention and its Protocols,

Recalling also decisions IG.22/16 and IG.22/20, adopted by the Contracting Parties at their nineteenth meeting, by which the Contracting Parties requested a simplified and practical draft of the report form for the Barcelona Convention and its Protocols,

Reiterating that national reporting is an obligation for all Contracting Parties, and that timely submission of national reports is essential for keeping under review the implementation of the Barcelona Convention and its Protocols, thereby contributing to strengthening the impact of the Mediterranean Action Plan system,

Recalling article 17 (vi) of the Barcelona Convention, requesting the Secretariat to report regularly to the Contracting Parties on the implementation of the Barcelona Convention and its Protocols,

Recognizing the challenges faced by Parties in reporting on the implementation of the Barcelona Convention and its Protocols, and the need to ensure that legal and technical advice is delivered to facilitate their reporting process,

Noting with appreciation the efforts made by Contracting Parties to report on their implementation of the Barcelona Convention and its Protocols using the online Barcelona Convention reporting system,

1. Adopt the revised reporting format for the implementation of the Barcelona Convention and its Protocols as set out in annex I to the present decision;
2. Urge Contracting Parties to use the revised reporting format when submitting their national implementation reports, starting with those for the biennium 2016–2017, to be submitted by December 2018;
3. Request the secretariat to ensure that the revised reporting format is accessible on the online Barcelona Convention reporting system, with a view to enabling Contracting Parties to submit their national implementation reports, starting with those for the biennium 2016–2017;
4. Request the secretariat to submit to each meeting of the Contracting Parties, on the basis of an analysis of the information contained in the national reports, a report on the general advances made in the region, including at the legal and institutional levels, in implementing the Barcelona Convention and its Protocols along with proposals for further measures, as necessary.
