

Reference: Not-INC-2023-0019

28 April 2023

Dear Madam/Sir,

Due to a technical issue affecting a large number of participants, Webinar 1 - Technical briefing on the Potential Options for Elements document could not take place as planned on Friday, 28 April 2023.

In order to ensure the widest possible participation, this webinar will be **rescheduled for Thursday, 4 May 2023, from 15:00 - 16:00 EAT**. This will precede the already scheduled Webinar 2, Science informing decision-making, which will take place as planned on 4 May from 16:00 to 17:30 EAT.

After solving the technical issues the INC Secretariat will circulate a notification with further details for registration and access to the platform.

We thank you for your interest in this webinar, and we apologize for any inconvenience this may have caused.

All information on the second session of the INC is available on the [INC-2 webpage](#) and the INC Secretariat remains at your disposal for any information as needed through [unep-incplastic.secretariat@un.org](mailto:unep-incplastic.secretariat@un.org).

Yours sincerely,

*Signed*

The INC Secretariat
