[Overview](#) [Written Submissions](#)

Member states, during the resumed first session of the Open-ended Working Group (OEWG1.2), requested the Secretariat of the OEWG to solicit written submissions from Member States and relevant stakeholders regarding the operating principles governing the work of the panel.

In support of this request, the Secretariat conducted a webinar (on 26 April 2023) dedicated to the topic of operating principles. In advance of the webinar, the Secretariat released a [background document](#) which provides a comparative overview of operating principles of relevant, existing science-policy interfaces (IPCC, IPBES, IRP and GEO). The recording of the webinar can be found on [this website](#), when available, and the background document is available at [this link](#).

Thank you!
