

**Zero draft of the ministerial declaration of the sixth session of the United Nations Environment  
Assembly (UNEA-6)**

On behalf of the members of the Board of the 10 Year Framework of Programmes on Sustainable Consumption and Production (10YFP) (Brazil, Croatia, Mauritius, Senegal, Kuwait, Pakistan, Sweden, USA, Costa Rica) we have the pleasure to make reference to the letter from H. E. Ms. Leila Benali, President of the sixth session of the United Nations Environment Assembly (UNEA-6) and Minister of Energy Transition and Sustainable Development of Morocco, circulating the zero draft of the ministerial declaration of the sixth session of the United Nations Environment Assembly (UNEA-6) dated May 2023.

The theme of UNEA-6 **“Effective, inclusive, and sustainable multilateral actions to tackle climate change, biodiversity loss and pollution”** is highly relevant to the goals and objectives of the 10YFP and the Global Strategy on Sustainable Consumption and Production.

To this end we recommend the inclusion of a reference to the [Global Strategy for Sustainable Consumption and Production 2023-2030](#) developed through a broad consultative and multi-stakeholder process under the 10-Year Framework of Programmes on SCP (10YFP) and welcomed and endorsed by the UN General Assembly in December 2022 in its resolution 77/162 attached for reference.

Such a reference will allow UNEA, in its role as the global authority on the environment, to call for leadership through concrete SCP and circular economy commitments for actions to tackle climate change, biodiversity loss and pollution.

The proposed new addition is as follows:

- We support the implementation of the Global Strategy for Sustainable Consumption and Production (2023–2030) developed in the framework of the 10YFP/One Planet Network as an effective, inclusive and sustainable multilateral action [text using agreed language from UNGA resolution [77/162 attached for reference]
