1. Letter from Ministry of Environment, Urbanisation and Climate Change	

T.C.

MINISTRY OF ENVIRONMENT, URBANISATION AND CLIMATE CHANGE

General Directorate of Environmental Management

25.05, 2023

Dear Ms. Tatjana HEMA, UNITED NATIONS ENVIRONMENT PROGRAMME Mediterranean Action Plan Barcelona Convention

On behalf of the Government of Türkiye, I would be honoured by establishing a Regional Activity Centre on Climate Change under the auspices of the Barcelona Convention. At the 93rd Bureau Meeting of Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean and its Protocols, Türkiye submitted the proposal titled "Establishment of the Regional Activity Center for Climate Change (CC/RAC) of UNEP/MAP-Barcelona Convention".

As per the request of the UNEP/MAP Secretariat, the Government of Türkiye is earnestly engaged in undertaking diligent efforts towards the establishment of the CC/RAC. In this regard, the requisite documents have been meticulously prepared to seek the approval of the proposed CC/RAC during the forthcoming 23rd Meeting of the Contracting Parties to the Barcelona Convention in December 2023.

Türkiye firmly believes that the creation of a Regional Activity Centre on Climate Change will serve as a pivotal milestone in fostering effective regional cooperation and will contribute significantly to addressing the multifaceted challenges engendered by climate change in the Mediterranean region. With the aim of fulfilling this objective, the Republic of Türkiye is firmly determined to mobilize and allocate the necessary resources for hosting the proposed Regional Activity Centre for Climate Change. Additionally, Türkiye is dedicated to actively contributing to the efforts of the existing MAP Components, in strict adherence to the relevant Governance decisions made by the Contracting Parties and the commitments undertaken at regional and global levels.

We would also like to express our satisfaction in facilitating the provision of a furnished building in Istanbul, Kadıköy District, Caferağa Neighborhood, which has the capacity to accommodate a staff of 12 people, for the purpose of sustaining the activities of the CC/RAC.

As the Republic of Türkiye, we declare our acceptance to provide a voluntary contribution of €510,000.00 annually through the UNEP/MAP system to support the operational activities of the CC/RAC.

We remain at the disposal of the Contracting Parties and of the Secretariat for clarifications and additional details that may be needed during the review of the documents.

I count on the support of the Secretariat in submitting the Proposal as indicated above and thank you for your kind consideration.

Yours sincerely,

Prof. Dr. Mehnet Emin BİRPINAR On the Benalf of Minister

Deputy Minister

2. Draft Decision for the establishment of Regional Activity
Center on Climate Change

[Decision for the establishment of Regional Activity Center on Climate Change

The Contracting Parties to the Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean (Barcelona Convention) and its Protocols at their 23rd Meeting,

Deeply concerned by the unfolding climate crises and their impact on the Mediterranean region and its marine and coastal environment and by the adverse effects of climate change, with serious economic and social implications;

Conscious that recent extreme events such as deadly floods, draught, and unprecedented wildfires across Mediterranean countries, are symptomatic of the rapidly worsening condition of the climate of the region;

Recognizing the gaps between the gravity of the effects of climate change and the urgency of responding to them, and the ongoing efforts to reduce and prevent such effects by building on and strengthening current regulatory and implementation systems;

Recalling the conclusions of numerous scientific reports and assessments that point to the vulnerability of the Mediterranean basin, as a hotspot for climate change, such as recent Intergovernmental Panel on Climate Change (IPCC) reports, the Global Assessment Report on Biodiversity and Ecosystem Services of the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES), the 2020 State of the Environment and Development in the Mediterranean Report (SoED), and the First Mediterranean Assessment Report (MAR1);

Recalling the Kunming Declaration adopted by the CBD COP 15 part 1 (Kunming, China, 11-15 October 2021) towards the development, adoption and implementation of an effective post-2020 global biodiversity framework; the Glasgow Climate Pact adopted by the UNFCCC COP 26 (Glasgow, UK, 31 October-13 November 2021) towards the implementation of the Paris Agreement objectives as crucial milestones for addressing the threats of biodiversity loss and climate change universally; and the Sharm el-Sheikh Implementation Plan adopted by the UNFCCC COP27 (Sharm el-Sheikh, Egypt, 6-20 November 2022);

Recalling also the relevant United Nations Environment Assembly (UNEA) Resolutions, as well as Multilateral Environmental Agreements and other international instruments, including the UN Framework Convention on Climate Change (UNFCCC), the UN Convention on Biological Diversity (CBD), and instruments regulated under the International Maritime Organization (IMO), Basel, Rotterdam and Stockholm Conventions (BRS) among others to strengthen the regional dimension of the implementation of climate change activities;

Noting with appreciation the Decisions taken by the Contracting Parties of UNFCCC in COP20 and COP25, expressing the intentions of Parties to cooperate and engage through multilateral, bilateral and regional complementary initiatives that aim to raise awareness and enhance education on climate change and its impacts, opportunities, and co-benefits;

Recalling the Decisions IG.17/5 "Governance" taken at the 15th Meeting of the Contracting Parties, Decision 20/13 taken by the 17th Meeting of the Contracting Parties, Decision IG.25/3 "Governance" taken by the 22nd of the Contracting Parties that aim to ensure an effective MAP governance based on stronger cooperation and integration among MAP Components;

Reiterate the commitments expressed by the Conference of the Parties in the context of its previous Meetings through political declarations and decisions, and in the context of global and regional intergovernmental processes towards strengthened efforts to build resilience to climate change, to curb greenhouse gas emissions and to provide the necessary finance for both;

- 1 Decide to establish the MAP Regional Activity Centre on Climate Change (CC/RAC) as one of the Components of the MAP system, in accordance with the mandate of the system and the Governance mentioned above;
- 2 Admit the "Mediterranean Climate Change Research Center/Akdeniz İklim Değişikliği Araştırma Merkezi (AIDAM)" Institution at Caferağa, Gürbüz Türk Street. No:38, 34710 Kadıköy/İstanbul, a structure of the Ankara University National Center for the Sea and Maritime Law (DEHUKAM) to be the UNEP/MAP Regional Activity Centre on Climate Change;
- 3 *Emphasize* that the establishment and operations of the newly established CC/RAC will not bear any cost for the Mediterranean Trust Fund, and *Accepts with gratitude* the generous offer of Türkiye to cover all the establishment and operational costs of the CC/RAC as its Host Country;
- 4 *Request* the Contracting Parties of the Barcelona Convention to fully collaborate with the CC/RAC, and to appoint national Focal Points for the CC/RAC previous decisions on Governance;
- 5 Adopt the Mandate of the UNEP/MAP Regional Activity Centre, as contained in Annex 1. to this Decision, including the following sections, in line with <u>Decision IG.19/5</u>, "Mandates of the Components of MAP":
 - i. Background;
 - ii. Objective and mission statement;
 - iii. Scope of action and key issues;
 - iv. Source of funding;
 - v. Synergies with other Components; and
 - vi. Partnerships.
- 6 Adopt the Terms of Reference for the National Focal Points, as contained in Annex 2. to this Decision;
- 7 Request the Secretariat and the MAP Components to ensure that the establishment of the CC/RAC takes place in the most expeditious fashion, and that any implications of such establishment on the programmatic activities of the MAP system be rapidly addressed so as to avoid unnecessary duplications and delays;
- Also request the Secretariat and the MAP Components to collaborate with the CC/RAC for the full and successful implementation of the relevant activities of the MAP system, ensuring full complementarity and maximized synergies, for the benefit of the Mediterranean region and the implementation of global and regional commitments.]

UNEP/MED	WG.568/Inf.19

3. The Mandate of the proposed CC-RAC

THE MANDATE OF THE PROPOSED CC-RAC

Background

The Climate Change Regional Activity Center (CC/RAC) [was established by Decision IG.... of the 23rd Meeting of the Contracting Parties to the Barcelona Convention (Portoroz, Slovenia, 4-8 December 2023)] with the aim to work on the impacts of climate change by strengthening collaborative efforts in the Mediterranean as the most effective method to accelerate action and leverage resources.

Objective and Mission Statement

The vision of the CC/RAC takes shape in conformity with the vision, mandate, strategies, and programmes of the Barcelona Convention and its Protocols. This vision expresses the achievement of increased effectiveness of the work of the MAP-Barcelona Convention system on climate change, based on values such as participation, transparency, responsiveness, consensus orientation, equity, effectiveness and efficiency, accountability, and strategic vision.

In line with Decision IG.19/5 "Mandates of the Components of MAP", the mission of the CC/RAC is to contribute to mitigating and adapting to climate change in the Mediterranean region, in the context of the governance set-up of the MAP-Barcelona Convention system, by providing assistance to the Contracting Parties in meeting their obligations under the Convention and Protocols, and in implementing the Medium-Term Strategy and Programme of Work, as well as the Mediterranean Strategy for Sustainable Development (MSSD). In particular, under the guidance of the Coordinating Unit, CC/RAC provides a focal point to complement and support the activities that the MAP-Barcelona System has on climate change, amplify them through the additional availability of expertise and resources, and fill existing gaps for the full execution of the approved Medium-Term Strategy (MTS) and its climate change-related programmes.

The CC/RAC's strategic directions and objectives are coherent with those set out by the Convention and Protocols, the Regional Climate Change Adaptation Framework for the Mediterranean Marine and Coastal Areas, endorsed by Decision IG.22/6 of the 19th Meeting of the Contracting Parties (Athens, Greece, 9-12 February 2016), and other relevant COP Decisions, including Medium-Term Strategies and Programmes of Work. In particular:

- 1. To strengthen the resilience of the Mediterranean natural and socioeconomic systems to climate change by promoting integrated adaptation approaches and better understanding of impacts; and
- 2. To reduce anthropogenic pressure on coastal and marine ecosystems to maintain their contribution to adapt to and mitigate the effects of climate change.

Scope of Action and Key Issues

The CC/RAC supports the MAP-Barcelona Convention System on the following main areas of activity: governance (appropriate institutional and policy frameworks, increased awareness and stakeholder engagement, and enhanced capacity building and cooperation); development of best practices for effective and sustainable adaptation to climate change impacts; access to existing and emerging finance mechanisms relevant to climate change adaptation, including international and domestic instruments; and better informed decision-making through research and scientific cooperation and availability and use of reliable data, information, and tools.

The scope of action and key issues of CC/RAC are the following:

- to provide focal point's functions to the MAP-Barcelona Convention system on climate change issues and work;
- to contribute from an expert position to the definition of strategies, policies, programmes and activities of the MAP-Barcelona Convention system in the field of climate change, including through cooperation with relevant institutions and organizations;
- to review and evaluate global and regional processes of relevance to the MAP-Barcelona Convention system's work of climate change, and ensure consistency with global commitments and strategies;
- to support strong and cooperative relationships with the other UNEP/MAP Components and with key actors in the field of climate change;
- to incorporate the ecosystem approach adequately in the response to climate change;
- to supervise, coordinate and/or support as appropriate the implementation of climate change related projects consistent with the mandate of the Barcelona Convention and its Protocols, and support technical activities on climate change, including those executed by other MAP Components;
- to promote and support coordinated action at the national, regional, and global levels for the implementation of the climate change-related obligations of Contracting Parties;
- to support Contracting Parties and Partners in developing and executing such action and strengthening commitments on climate change;
- to develop a strategic approach to climate adaptation research in the region involving academic, industry and government bodies and their partnership;
- to enhance the knowledge regarding effects of climate change on the Mediterranean Sea and its coasts;
- to provide a forum for the exchange of information on operational, technical, scientific, legal, and financial matters and support a platform to enhance sharing of knowledge, technical expertise and experiences on climate among Contracting Parties;
- to liaise with NGOs, the academic and scientific community and socioeconomic actors concerned with climate change related issues;
- to train experts;
- to conduct fundraising activities from the public and private sectors to support the activities, projects and programmes to be developed or carried out in the context of the MAP-Barcelona Convention system;
- to bring to the attention of the Coordinating Unit and MAP Components relevant contacts, programmes, networks, innovations, etc., that could assist the system in its activities and mandate:
- to support the efficient work of the proposed national Focal Points.

Source of Funding

The principal funding source for the CC/RAC operations and staffing is the Government of Türkiye through the Ministry of Environment, Urbanization, and Climate Change. Sources of funding for the activities of CC/RAC include the MTF, voluntary contributions by Contracting Parties, global and regional financing facilities, institutions and programmes, sponsorships, and partnership with the private sector.

Synergies with other Components

The CC/RAC complements and enhances the mandate and on-going work of the MAP-Barcelona Convention system on climate change, providing the needed focal point where such work gets structured, harmonized and amplified under the guidance of the UNEP/MAP Coordinating Unit, and in coordination with the other Components.

The CC/RAC does not duplicate or compete with the activities on climate change that the MAP-Barcelona Convention system has already in place. Under the guidance of the Coordinating Unit, it

provides a focal point to complement and support those activities, to amplify them through the additional availability of expertise and resources, and to fill existing gaps for the full execution of the Medium-Term Strategy (MTS) and its climate change-related programmes. This enhances the coherence, structure, visibility and impact of the MAP-Barcelona Convention responses to climate change, as it has been demonstrated in other priority areas mandated by the Convention and its Protocols, thanks to the work of the existing MAP components.

Progressively, the CC/RAC takes a leading role in defining and executing the strategies and programmes of the MAP-Barcelona Convention system on climate change, leveraging financial resources through projects consistent to the approved Programme of Work, and strengthening the MAP system overall capacities related to programming, implementation, research, information and communication, monitoring and assessment in the field of climate change.

Partnerships

In addition to the Partnerships listed in Decision IG. 19/5 "Mandates of the Components of MAP", Appendix III, others are identified and developed in areas of relevance to the mandate of CC/RAC under the guidance of the Coordinating Unit and in accordance with the governance and programmatic decisions of the Contracting Parties

UNEP/MED	WG.568/Inf.19
Page 10	

4. Terms of Reference for CC/RAC Focal Points

TERMS OF REFERENCE FOR CC/RAC FOCAL POINTS¹

Designation

The CC/RAC Focal Point shall be designated by the competent Ministry/body of the Contracting Party, in consultation with the MAP Focal Point.

The CC/RAC Focal Point shall be an appropriately empowered person appointed by the governmental/administrative body responsible for environmental and climate change policies.

The name and the function of the designated Focal Point shall be communicated by the MAP Focal Point to the MAP Secretariat and CC/RAC Director, as well as to concerned bodies in the Contracting Party.

Tasks

CC/RAC Focal Points shall be responsible for:

- Maintaining the relationship between CC/RAC and Contracting Party bodies;
- Contributing to the preparation of CC/RAC Focal Point meetings through comments and proposals either made on their own initiative or relating to documents prepared by CC/RAC, after consultation with Contracting Party bodies as necessary;
- Attending meetings of the Focal Points and reporting on their conclusions to governmental/administrative bodies and MAP Focal Points;
- Disseminating CC/RAC technical and information documents, guidelines, studies, etc., to concerned Contracting Party bodies;
- Following, in consultation with MAP Focal Points, the implementation of relevant decisions and recommendations of the Meeting of the Contracting Parties;
- Liaising with NGOs, the academic and scientific community and socioeconomic actors concerned with CC/RAC activities;
- Communicating to MAP Focal Points all information and documents needed for the execution of out their tasks;
- Assisting CC/RAC to obtain other useful information by identifying relevant sources and key contact persons;
- Liaising with local representatives of international financial facilities, institutions and programmes for the support of projects related to the implementation of CC/RAC activities;
- Producing, where necessary, joint publications with CC/RAC;
- Assisting CC/RAC in the identification of relevant experts for specific initiatives or consultations;

Support Measures

In order to fulfil their tasks; it is advisable for CC/RAC Focal Points to receive the following support, as appropriate:

¹ In accordance with Decision IG 17/5: Governance paper

Contracting Party bodies shall:

- Associate CC/RAC Focal Points with the formulation and implementation of Contracting Party policies, strategies, and projects on adaptation and mitigation of climate change;
- Provide CC/RAC Focal Points with adequate resources as required for the execution of their tasks, within the context of broader fiscal and staffing policies and priorities in the Contracting Party;
- Transmit to CC/RAC Focal Points all necessary information, in particular for following up those recommendations of the Meeting of the Contracting Parties addressed to the Contracting Parties.

CC/RAC shall:

- Provide CC/RAC Focal Points with all information needed for the execution of their tasks, including technical details considered useful for proper understanding and evaluation;
- Provide support, including appropriate training, to CC/RAC Focal Points to enable them to carry out their tasks.

UNEP/MED WG.568/Inf.19)

5. Additional documentation provided by Türkiye

Documentation for the submission of the Draft Decision to the MAP Focal Points

HOST INSTITUTION

The proposed Regional Activity Center for Climate Change (CC/RAC) will be hosted by the Mediterranean Climate Change Research Center (Akdeniz İklim Değişikliği Araştırma Merkezi – AİDAM). AIDAM was established under the Ankara University National Center for the Sea and Maritime Law (DEHUKAM) which is a private entity.

In accordance with the 6550 Numbered Code Article 6/a, DEHUKAM is a private entity that has public authority to establish research infrastructures within itself. The status was given by the Decision of the Research Infrastructures Commission of 7 October 20201. This status gives DEHUKAM the right to employ, a private budget which comes through the Republic of Türkiye Presidency of Strategy and Budget and allows for independent administrative authority.

AIDAM has been established within DEHUKAM, according to the decision numbered 2022/19 dated 26/09/2022 of the DEHUKAM Board of Directors (Annex 1). AIDAM has established very valuable connections within the framework of cooperation protocols with many institutions including the Environment Agency, the Presidency of Climate Change, and the Ministry of Environment, Urbanization, and Climate Change (Annex 2). Furthermore, activities of AIDAM are endorsed through a support letter provided by the Ministry of Environment, Urbanization and Climate Change (Annex 3).

¹ Related documents can be reached via: https://www.mevzuat.gov.tr/MevzuatMetin/1.5.6550.pdf
See also: https://www.mevzuat.gov.tr/mevzuat?MevzuatNo=21107&MevzuatTur=7&MevzuatTertip=5

THE STRUCTURE OF THE CC/RAC

The CC/RAC will have an organizational structure appropriate for the fulfillment of its regional mandate.

The personnel of the CC/RAC, including the Director, will have a category different from UN Officials as defined by the General Assembly, in Resolution 76(I) of 7 December 1946. RAC personnel will be selected and hired by the RAC Director/entity hosting the RAC in accordance with the applicable national rules and procedures and based on approved Terms of Reference (ToRs) elaborated nationally with the involvement of the Coordinating Unit, as appropriate. The RAC Director will be appointed by the Host Country Government or any other competent authority, with the UNEP/MAP Secretariat being involved in this process, as appropriate.

AIDAM, which will evolve into the CC/RAC once agreed by the COP, shall rely on the organizational structure which consists of the following:

- i. Director,
- ii. Deputy Director,
- iii. 7 Climate Experts and Researchers, and
- iv. 3 Support Staff.

- 1. The above structure will be adapted as necessary to best be able to implement the mandate and role of the CC/RAC.
- 2. The employment policy for the CC/RAC will be shaped under the national legislation and rules, within the legal framework for the CC/RAC. In this sense, including experts from different fields to contribute to the mission of the CC/RAC will be encouraged. Efforts will be made to assure the participation of representatives from both technical and social sciences-related areas of climate change. Locally and internationally recruited non-UN personnel whose positions are funded by the Government of Türkiye will be selected by the Director of the CC/RAC in accordance with the personnel policies of the CC/RAC2. The selection and appointment of UN employees assigned to the CC/RAC will conform to UN norms and procedures.

² Decision IG.20/13 on Governance, p.231.

THE MANDATE OF THE PROPOSED CC-RAC

Background

The Climate Change Regional Activity Center (CC/RAC) [was established by Decision IG.... of the 23rd Meeting of the Contracting Parties to the Barcelona Convention (Portoroz, Slovenia, 4-8 December 2023)] with the aim to work on the impacts of climate change by strengthening collaborative efforts in the Mediterranean as the most effective method to accelerate action and leverage resources.

Objective and Mission Statement

The vision of the CC/RAC takes shape in conformity with the vision, mandate, strategies, and programmes of the Barcelona Convention and its Protocols. This vision expresses the achievement of increased effectiveness of the work of the MAP-Barcelona Convention system on climate change, based on values such as participation, transparency, responsiveness, consensus orientation, equity, effectiveness and efficiency, accountability, and strategic vision.

In line with Decision IG.19/5 "Mandates of the Components of MAP", the mission of the CC/RAC is to contribute to mitigating and adapting to climate change in the Mediterranean region, in the context of the governance set-up of the MAP-Barcelona Convention system, by providing assistance to the Contracting Parties in meeting their obligations under the Convention and Protocols, and in implementing the Medium-Term Strategy and Programme of Work, as well as the Mediterranean Strategy for Sustainable Development (MSSD). In particular, under the guidance of the Coordinating Unit, CC/RAC provides a focal point to complement and support the activities that the MAP-Barcelona System has on climate change, amplify them through the additional availability of expertise and resources, and fill existing gaps for the full execution of the approved Medium-Term Strategy (MTS) and its climate change-related programmes.

The CC/RAC's strategic directions and objectives are coherent with those set out by the Convention and Protocols, the Regional Climate Change Adaptation Framework for the Mediterranean Marine and Coastal Areas, endorsed by Decision IG.22/6 of the 19th Meeting of the Contracting Parties (Athens, Greece, 9-12 February 2016), and other relevant COP Decisions, including Medium-Term Strategies and Programmes of Work. In particular:

- 1. To strengthen the resilience of the Mediterranean natural and socioeconomic systems to climate change by promoting integrated adaptation approaches and better understanding of impacts; and
- 2. To reduce anthropogenic pressure on coastal and marine ecosystems to maintain their contribution to adapt to and mitigate the effects of climate change.

Scope of Action and Key Issues

The CC/RAC supports the MAP-Barcelona Convention System on the following main areas of activity: governance (appropriate institutional and policy frameworks, increased awareness and stakeholder engagement, and enhanced capacity building and cooperation); development of best practices for effective and sustainable adaptation to climate change impacts; access to existing and emerging finance mechanisms relevant to climate change adaptation, including international and domestic instruments; and better informed decision-making through research and scientific cooperation and availability and use of reliable data, information, and tools.

The scope of action and key issues of CC/RAC are the following:

• to provide focal point's functions to the MAP-Barcelona Convention system on climate change issues and work;

- to contribute from an expert position to the definition of strategies, policies, programmes and activities of the MAP-Barcelona Convention system in the field of climate change, including through cooperation with relevant institutions and organizations;
- to review and evaluate global and regional processes of relevance to the MAP-Barcelona Convention system's work of climate change, and ensure consistency with global commitments and strategies;
- to support strong and cooperative relationships with the other UNEP/MAP Components and with key actors in the field of climate change;
- to incorporate the ecosystem approach adequately in the response to climate change;
- to supervise, coordinate and/or support as appropriate the implementation of climate change related projects consistent with the mandate of the Barcelona Convention and its Protocols, and support technical activities on climate change, including those executed by other MAP Components;
- to promote and support coordinated action at the national, regional, and global levels for the implementation of the climate change-related obligations of Contracting Parties;
- to support Contracting Parties and Partners in developing and executing such action and strengthening commitments on climate change;
- to develop a strategic approach to climate adaptation research in the region involving academic, industry and government bodies and their partnership;
- to enhance the knowledge regarding effects of climate change on the Mediterranean Sea and its coasts;
- to provide a forum for the exchange of information on operational, technical, scientific, legal, and financial matters and support a platform to enhance sharing of knowledge, technical expertise and experiences on climate among Contracting Parties;
- to liaise with NGOs, the academic and scientific community and socioeconomic actors concerned with climate change related issues;
- to train experts;
- to conduct fundraising activities from the public and private sectors to support the activities, projects and programmes to be developed or carried out in the context of the MAP-Barcelona Convention system;
- to bring to the attention of the Coordinating Unit and MAP Components relevant contacts, programmes, networks, innovations, etc., that could assist the system in its activities and mandate;
- to support the efficient work of the proposed national Focal Points.

Source of Funding

The principal funding source for the CC/RAC operations and staffing is the Government of Türkiye through the Ministry of Environment, Urbanization, and Climate Change. Sources of funding for the activities of CC/RAC include the MTF, voluntary contributions by Contracting Parties, global and regional financing facilities, institutions and programmes, sponsorships, and partnerships with the private sector.

Synergies with other Components

The CC/RAC complements and enhances the mandate and on-going work of the MAP-Barcelona Convention system on climate change, providing the needed focal point where such work gets structured, harmonized and amplified under the guidance of the UNEP/MAP Coordinating Unit, and in coordination with the other Components.

The CC/RAC does not duplicate or compete with the activities on climate change that the MAP-Barcelona Convention system has already in place. Under the guidance of the Coordinating Unit, it provides a focal point to complement and support those activities, to amplify them through the additional availability of expertise and resources, and to fill existing gaps for the full execution of the Medium-Term Strategy (MTS) and its climate change-related programmes. This enhances the coherence,

structure, visibility and impact of the MAP-Barcelona Convention responses to climate change, as it has been demonstrated in other priority areas mandated by the Convention and its Protocols, thanks to the work of the existing MAP components.

Progressively, the CC/RAC takes a leading role in defining and executing the strategies and programmes of the MAP-Barcelona Convention system on climate change, leveraging financial resources through projects consistent to the approved Programme of Work, and strengthening the MAP system overall capacities related to programming, implementation, research, information, and communication, monitoring and assessment in the field of climate change.

Partnerships

In addition to the Partnerships listed in Decision IG. 19/5 "Mandates of the Components of MAP", Appendix III, others are identified and developed in areas of relevance to the mandate of CC/RAC under the guidance of the Coordinating Unit and in accordance with the governance and programmatic decisions of the Contracting Parties.

TERMS OF REFERENCE FOR CC/RAC FOCAL POINTS³

Designation

The CC/RAC Focal Point shall be designated by the competent Ministry/body of the Contracting Party, in consultation with the MAP Focal Point.

The CC/RAC Focal Point shall be an appropriately empowered person appointed by the governmental/administrative body responsible for environmental and climate change policies.

The name and the function of the designated Focal Point shall be communicated by the MAP Focal Point to the MAP Secretariat and CC/RAC Director, as well as to concerned bodies in the Contracting Party.

Tasks

CC/RAC Focal Points shall be responsible for:

- Maintaining the relationship between CC/RAC and Contracting Party bodies;
- Contributing to the preparation of CC/RAC Focal Point meetings through comments and proposals either made on their own initiative or relating to documents prepared by CC/RAC, after consultation with Contracting Party bodies as necessary;
- Attending meetings of the Focal Points and reporting on their conclusions to governmental/administrative bodies and MAP Focal Points;
- Disseminating CC/RAC technical and information documents, guidelines, studies, etc., to concerned Contracting Party bodies;
- Following, in consultation with MAP Focal Points, the implementation of relevant decisions and recommendations of the Meeting of the Contracting Parties;
- Liaising with NGOs, the academic and scientific community and socioeconomic actors concerned with CC/RAC activities;
- Communicating to MAP Focal Points all information and documents needed for the execution of out their tasks;
- Assisting CC/RAC to obtain other useful information by identifying relevant sources and key contact persons;
- Liaising with local representatives of international financial facilities, institutions and programmes for the support of projects related to the implementation of CC/RAC activities;
- Producing, where necessary, joint publications with CC/RAC;
- Assisting CC/RAC in the identification of relevant experts for specific initiatives or consultations;

Support Measures

In order to fulfil their tasks; it is advisable for CC/RAC Focal Points to receive the following support, as appropriate:

Contracting Party bodies shall:

• Associate CC/RAC Focal Points with the formulation and implementation of Contracting Party policies, strategies, and projects on adaptation and mitigation of climate change;

³ In accordance with Decision IG 17/5: Governance paper

UNEP/MED WG.568/Inf.19 Page 20

- Provide CC/RAC Focal Points with adequate resources as required for the execution of their tasks, within the context of broader fiscal and staffing policies and priorities in the Contracting Party;
- Transmit to CC/RAC Focal Points all necessary information, in particular for following up those recommendations of the Meeting of the Contracting Parties addressed to the Contracting Parties.

CC/RAC shall:

- Provide CC/RAC Focal Points with all information needed for the execution of their tasks, including technical details considered useful for proper understanding and evaluation;
- Provide support, including appropriate training, to CC/RAC Focal Points to enable them to carry out their tasks.

THE OPERATIONAL BUDGET AND COSTS OF THE CC/RAC

Type of Expense	Expense Item	Annual Estimated Expense	
	Director and Deputy Director (2)	120.000 €	
	(Monthly Salary: 5000 €)	120.000 €	
	Climate Experts and Researchers		
	(7)	252.000 €

Konu : İklim Bölgesel Faaliyet Merkezi Kurulması

Calısmaları

ANKARA ÜNİVERSİTESİNE

(Deniz Hukuku Ulusal Araştırma Merkezi) Ankara Üniversitesi Rektörlüğü, Dögol Caddesi 06100 Tandoğan ÇANKAYA/ANKARA

Bilindiği üzere; üç tarafı denizlerle kaplı ve stratejik önemi haiz Boğazlara sahip olan ülkemizin dış politika hedefleri arasında uluslararası denizcilik alanında önde gelen ülkeler arasında yer almasının sağlanması, deniz çevresinin korunması ve deniz kaynaklarının ülke ekonomisine kazandırılması da bulunmaktadır.

Bu hedef ışığında, özellikle çevre denizlerimizdeki ve Türk Boğazlarıyla ilgili gelişmeler uluslararası sözleşmeler kapsamında yakından takip edilmekte ve ülkemizin çevresel çıkarları çerçevesinde şekillendirilmeye çalışılmakta; ayrıca, uluslararası deniz hukuku gündemindeki Arktik ve Antarktika bölgeleri, devletlerin yargı yetkisi dışında kalan deniz alanları gibi güncel konular da izlenmektedir. İklim değişikliğinin son zamanlarda artarak etkilerini göstermesiyle birlikte Ülkemiz tarafından da gerekli adımlar atılmaya başlanmıştır. Bakanlığımızın adına bu konunun ve çevresel politikaların önemine binaen "İklim Değişikliği" ibaresi eklenmiş, Paris Anlaşmasına taraf olunmuş ve Çevre Ajansı kurulmuştur.

Barselona Sözleşmesi ve Ek Protokolleri kapsamında Ülkemizin de arasında bulunduğu taraf ülkeler 45 yıldır Akdeniz deniz ve kıyı çevresinin korunmasına yönelik çalışmalar yürütmektedir. Sözleşmenin teknik ve hukuki ilerleyişini takip ederek ulusal politikamızı belirlemek ile birlikte aynı zamanda Ülkemizin Sözleşme kapsamında bilinirliğini arttırmak adına da çalışmalar yürütmekteyiz. Bilindiği üzere bir önceki yıl Ülkemiz 22. Taraflar Toplantısına (COP 22) ev sahipliği yapmıştır ve bundan sonraki iki yıl boyunca da büro başkanlığı görevini ifa etmektedir. COP 22 süresince Türk Delegasyonu ve Sayın Bakanımız Murat Kurum tarafından da defaten dile getirildiği üzere iklim değişikliğinden doğan çevresel sorunların ciddiyetine dikkat çekerek Barselona Sözleşmesi kapsamında İklim Değişikliği üzerine çalışmalar yürütülecek bir Bölgesel Faaliyet Merkezinin (RAC) kurulması gerektiği ve bu faaliyet merkezine Türkiye'nin ev sahipliği yapabileceği hususları üzerinde durulmuştur.

Bakanlığımız ve ilgili kurumlarımız tarafından yukarıda belirtilen çerçevede çalışmalar sürdürülüyor olmakla birlikte, ülkemizde deniz çevre hukuku alanındaki akademik düzeydeki çalışmaların istenilen düzeyde olmadığı ve bu alanda Deniz Hukuku Ulusal Araştırma Merkezi (DEHUKAM) tarafından önemli faaliyetler yürütüldüğü bilinmektedir. Bakanlığımız ve DEHUKAM arasında COP 22 sürecinde teknik ve hukuki destek sağlamak adına "Barselona Sözleşmesi 22. Taraf Ülkeler Toplantısına İlişkin Teknik Belgelerin Deniz Çevresi Hukuku Çerçevesinde Araştırılması, Değerlendirilmesi ve Ülke Görüşünün Hazırlanması Projesi" yapılmış olup bu proje kapsamında Ülkemizin ulusal pozisyonunun

Bu belge, güvenli elektronik imza ile imzalanmı tır.

belirlenmesine, Bakanlar Deklarasyonunun ve COP 22 tema metninin yazılmasına ve Gençlik Etkinliğinin düzenlenmesine DEHUKAM tarafından katkı sunulmuştur. Bir önceki projenin başarıyla tamamlanması neticesinde; DEHUKAM tarafından, Bakanlığımız Cevre Yönetimi Genel Müdürlüğü ve DEHUKAM tarafından imzalanan Barselona Sözleşmesine Yönelik Yapılan Çalışmalar Kapsamında Deniz Çevresi Hukuku Teknik Destek Projesi İşi Hizmet Alımı Protokolü kapsamında Ülkemizin Büro Baskanlığı süresince de İklim Değisikliği alanında Bölgesel Faaliyet Merkezi kurulması için gerekli çalışmaların yapılması, Deniz Çevre Mevzuatı çalışmaları yapılarak taslak mevzuat metni hazırlanması, ilgili Bakanlık personeline vönelik Barselona Sözlesmesi basta olmak üzere Deniz Cevre Hukuku alanında meslek içi eğitim ve çalıştay düzenlenmesi faaliyetleri gibi görevleri ifa etmektedir. Bununla birlikte, DEHUKAM devletlerin vargı vetkisi dısında kalan deniz alanlarında biyocesitliliğin korunması ve sürdürülebilir kullanımı konusunda Birleşmiş Milletler Deniz Hukuku Sözleşmesi altında uluslararası bağlayıcılığı haiz sözleşmenin (BBNJ Sözleşmesi) kapsamında kurumlar arasında eşgüdüm görevini ifa etmiş, IV. Ve V. Hükümetlerarası Konferans sürecinde ülke pozisyonunun hazırlanmasına ve Birleşmiş Milletler Biyolojik Çeşitlilik Sözleşmesi kapsamında 13-29 Mart 2022 tarihleri arasında Cenevre'de gerçekleşen Bilimsel, Teknik ve Teknolojik Danışma Amaçlı Yardımcı Organın 24. toplantısına (SBSTTA 24) ve 2020 Sonrası Küresel Biyoçeşitlilik Çerçevesi Açık Uçlu Çalışma Grubu'nun 3. toplantısına (WG2020-3) katılım sağlamış ve katkılarını sunmuştur.

Bu noktadan hareketle. DEHUKAM'ın sistematik sekilde akademik calısmalar vapacak, uluslararası deniz çevre hukuku alanında akademisyenlerin yetiştirilmesine katkı sağlayacak, ileride RAC statüsü kazanabilecek bir merkezi bünyesinde kurabilecek idari ve yönetsel kapasiteye sahip olduğu ve bu alandaki açığın belli bir ölçüde kapatılmasına önemli katkı sağlayacağı düşünülmektedir.

Yukarıdaki izahat cercevesinde, DEHUKAM bünyesinde bağımsız hukuki statüyü haiz bir iklim değişikliği araştırma merkezinin kurulmasının, ülkemizin denizlerinin çevresel açıdan iyileştirilmesi ve mavi büyüme ile denizcilik alanındaki hedeflerine ulaşmasına katkı sağlayacağı ve uluslararası hukuk camiasındaki konumunu yükselteceği değerlendirilmekte olup; bu yönde bir karar alınması halinde Bakanlığımızca da imkanlar ölçüsünde gerekli desteğin sağlanmasına gayret edilecektir. Keyfiyeti değerlendirmelerine, sonucundan Bakanlığımıza bilgi verilmesini hususunda;

Bilgilerinizi ve gereğini rica ederim.

Eyyüp KARAHAN Bakan a. Genel Müdür

DENİZ HUKUKU ULUSAL ARASTIRMA MERKEZİ MÜDÜRLÜĞÜNE

İlgi

: a) 26.09.2022 tarihli ve E.4648253 sayılı yazımız.

b) 04.10.2022 tarihli ve E-64525147-622.03-673786 sayılı yazınız.

İlgi (a) yazımız ile; Müdürlüğünüz bünyesinde bir iklim değişikliği araştırma merkezinin kurulmasının "ülkemiz denizlerinin çevresel açıdan iyileştirilmesi ve mavi büyüme ile denizcilik alanındaki hedeflerine ulaşmasına katkı sağlayacağı ve uluslararası hukuk camiasındaki konumunu yükselteceği" değerlendirildiği belirtilerek, Bakanlığımızca imkânlar ölçüsünde gerekli desteği sağlanacağı belirtilmiştir.

İlgi (b) yazınız ile; DEHUKAM Yönetim Kurulu'nun 26/09/2022 tarihli ve 2022/19 sayılı kararı ile 6550 sayılı Araştırma Altyapılarının Desteklenmesine Dair Kanunun 6(1). maddesi kapsamında, "Merkezin faaliyetlerini yürütmesi için gerekli mali, lojistik, personel vb. desteğin Çevre, Şehircilik ve İklim Değişikliği Bakanlığı tarafından sağlanması ve bu minvalde desteğin mahiyetine ilişkin DEHUKAM'a hitaben yazılı taahhütte bulunulması kaydıyla", Akdeniz İklim Değişikliği Araştırma Merkezi (AİDAM) iklim değişikliği alanında bölgesel düzeyde sistematik akademik çalışmalar yapmak ve uluslararası deniz çevre hukuku alanında Akdeniz bölgesinde öncü olmak amaçları doğrultusunda, UNEP/MAP Barselona Sözleşmesi kapsamında Bölgesel Aktivite Merkezi (Regional Activity Center-RAC) statüsü kazanabilecek altyapıya haiz bir merkez olarak kurulduğu belirtilerek, söz konusu çalışmaların yürütülmesine yönelik olarak talepleriniz iletilmiştir.

Bilindiği üzere; Bakanlığımız tarafından UNEP/MAP Barselona Sözleşmesi Sekreterya'sına iletilen "the Proposal on Establishment a Regional Activity Center or Climate Change of UNEP/MAP-Barcelona Convention" teklifinde AİDAM'ın RAC statüsü kazanması talep edilmiştir. Bu doğrultuda AİDAM'ın RAC statüsü kazanması halinde 7-10 Aralık 2021 tarihinde Antalya'da gerçeklestirilen COP22'de kabul edilen "Ev Sahibi Ülke Anlaşması Kararında" belirtilen ve aşağıdaki hususları kapsayan ilk yatırım maliyetinin ve devamında da Merkezin işletme giderlerinin karşılanması gerekmektedir.

Bu kapsamda Bakanlığımızdan; AİDAM'ın RAC statüsü kazanması halinde,

- a) Araştırma faaliyetlerinin personeliyle birlikte yürütülmesine imkân verecek yeterli fiziksel imkânları haiz bir ofisin teknik ve teknolojik altyapısı ile birlikte tahsisi,
- b) Yeterli fiziksel imkânları haiz ofisin telefon, elektrik, su, doğalgaz, internet hizmetleri ve sarf malzemesi gibi ihtiyaçlarının maliyetlerinin karşılanması,

Bu belge, güvenli elektronik imza ile imzalanmıştır.

- c) Yeterli fiziksel imkânları haiz ofisin teknik ve teknolojik altyapısının ihtiyaç halinde yenilenmesi, bakımının ve onarımının yapılması,
- ç) Merkez'de görev alacak idari ve akademik tüm personelin ücret ve giderlerinin karşılanması,
- d) Merkezin yürüteceği faaliyetler için ihtiyaç duyacağı;
- a) Yurtiçi ve yurtdışı seyahatlerin giderlerinin karşılanmasını,
- b) Bilgisayar, yazıcı, tarayıcı, projektör ve dijital sınıf gibi gerekli tüm büro makine ve teçhizatının alımını,
- c) Eğitim ve araştırma olanakları kapsamında uzmanlık kütüphanesi oluşturulması için gerekli basılı yayınların alımı ve çevrim içi veritabanlarına üyeliklerin yapılmasını,
- d) Gerekli tüm online sistem ve üyelik ihtiyaçlarının sağlanmasını (Adobe Acrobat, Grammarly vs.),
- e) Muhasebe, tercüme, güvenlik, temizlik, bilişim gibi sair hizmet ihtiyaçlarının karşılanmasını ve
- f) Merkezin faaliyet alanı kapsamında düzenleyeceği organizasyonlara ilişkin masraf kalemlerinin karşılanmasını,

talep edilmektedir. Ayrıca, AİDAM'ın 93. Barselona Sözleşmesi Büro Toplantısında Bölgesel Aktivite Merkezi statüsü kazanmasına yönelik teklifte bulunulmasını takiben;

- a) Merkezin tek başına veya işbirliği içinde iklim değişikliği alanında projeler ve faaliyetler yürütmesinin desteklenmesi,
- b) Bakanlık bünyesinde yürütülen çalışmalar başta olmak üzere Merkezin faaliyet alanı kapsamında gerçekleştirilen faaliyetlerin çıktılarının paylaşılması ve uygun olduğu takdirde iklim değişikliği alanında yürütülecek projelerde Merkezin paydaş olarak yer alması,

hususlarında Bakanlığımız desteği talep edilmiştir.

Yukarıdaki izahat çerçevesinde, yapılan değerlendirmeler sonucu DEHUKAM'ın talep ettiği hususların UNEP/MAP sisteminde bulunan diğer Bölgesel Faaliyet Merkezleri statüsüne ulaşmak için gerekli olduğuna kanaat getirilmiş olup; bu yönde sürecin başlatılması ve nihayetinde söz konusu kararın alınması halinde Bakanlığımızca da imkânlar ölçüsünde yukarıdaki çerçevede gerekli desteğin sağlanmasına karar verilmiştir.

Bilgilerinizi ve gereğini rica ederim.

Eyyüp KARAHAN Bakan a. Genel Müdür

T.C. ÇEVRE, ŞEHİRCİLİK VE İKLİM DEĞİŞİKLİĞİ BAKANLIĞI İLE ANKARA ÜNİVERSİTESİ DENİZ HUKUKU ULUSAL ARAŞITRMA MERKEZİ ARASINDA AKDENİZ İKLİM DEĞİŞİKLİĞİ ARAŞTIRMA MERKEZİ ÇALIŞMALARINA YÖNELİK İŞBİRLİĞİ PROTOKOLÜ

T.C. Çevre, Şehircilik ve İklim Değişikliği Bakanlığı (bundan böyle "BAKANLIK" olarak anılacaktır) ve Ankara Üniversitesi Deniz Hukuku Ulusal Araştırma Merkezi (bundan böyle "DEHUKAM" olarak anılacaktır) arasında Akdeniz İklim Değişikliği Araştırma Merkezi (bundan böyle "AİDAM" olarak anılacaktır) çalışmalarına yönelik aşağıdaki şartlarla "İşbirliği Protokolü"nü imzalamak hususunda görüş birliğine varmışlardır:

MADDE 1: DAYANAK

İşbu Protokol, 1 sayılı Cumhurbaşkanlığı Teşkilatı Hakkında Cumhurbaşkanlığı Kararnamesinin (Teşkilat Kararnamesi) 389 uncu maddesinin 1 inci fikrasının a bendi ve 2 inci fikrası ile 2014/6798 sayılı Bakanlar Kurulu Kararı ile kabul edilen "Türkiye Ulusal Deniz Araştırma Stratejisi (TUDAS) Belgesi dayanak alınarak hazırlanmıştır.

MADDE 2: AMAÇ VE YORUM

İşbu Protokol'ün amacı, BAKANLIK ile DEHUKAM arasında, AİDAM çalışmalarına yönelik olarak Akdeniz'in Deniz Ortamı ve Kıyı Bölgesinin Korunması Sözleşmesi (Barselona Sözleşmesi) tahtında iklim değişikliğinin çevresel etkilerine yönelik akademik ve teknik çalışmalarda işbirliğine gidilmesidir.

İşbu Protokol tarafları arasında herhangi bir hukuki borç ve yükümlülük doğurmayacak, onları hukuken borç altına sokmayacaktır.

Aksi taraflarca bilahare kararlaştırılmadıkça, işbu Protokol'de yer alan hiçbir hüküm tarafların birbirleri adına hareket etme, onu ilzam etme veya adına herhangi bir yükümlülük yaratma ve üstlenme için yetki verdiği şeklinde yorumlanmayacaktır.

MADDE 3: İŞBİRLİĞİ

İşbirliği kapsamında;

BAKANLIK;

- (1) AİDAM'ın ulusal ve uluslararası platformlarda tanınırlığının artırılmasına katkı verecek,
- (2) AİDAM'ı Barselona Sözleşmesi tahtında Akdeniz Bölgesi'ndeki iklim değişikliğinin çevresel etkilerine yönelik akademik ve teknik çalışmalarını destekleyecek,
- (3) Halihazırda yürüttüğü ve ileride yürüteceği iklim değişikliği alanında yürütülen projelerde AİDAM'ı paydaş kılacak ve
- (4) Bu kapsamda AİDAM'ın akademik faaliyet icra edebilmesi için gerekli olan bütçesel desteği imkanları çerçevesinde sağlayacaktır.

AİDAM;

- (1) BAKANLIK tarafından deniz alanlarında Devletimizin hak, temel çıkar ve menfaatleriyle ilgili olarak yürütülen görevler kapsamında Barselona Sözleşmesi tahtında Akdeniz Bölgesi'ndeki iklim değişikliğinin çevresel etkilerinin bertarafına yönelik mevzuat ve politika oluşturulmasında ihtiyaç duyulan desteği sağlayacak ve
- (2) BAKANLIK personelinin Barselona Sözleşmesi tahtında Akdeniz Bölgesi'ndeki iklim değişikliğinin çevresel etkilerine yönelik akademik çalışmalar çerçevesinde kurumsal kapasitesinin geliştirilmesine katkı verecektir.

Taraflar, işbirliği doğrultusunda ortak çalışma projeleri oluşturacak ve Protokolün amacını gerçekleştirmeye yönelik alanlarda mevcut projelere diğer tarafın katılımını sağlayacaklardır. Bu kapsamda, Taraflar çalıştaylar ve kurslar düzenleyerek tanıtım ve farkındalık yaratma etkinlikleri (yayın, broşür, kitap, toplantı, konferans, seminer, web sitesi vb. hazırlanması) gerçekleştirecekler, bilimsel çalışmaların yapılabilmesi için kurumlarında mevcut ve kamuya açık bilgileri diğer taraf ile paylaşacaklardır.

Taraflar, işbu Protokol'ün icrası doğrultusunda iyi niyetle gayret sarf edeceklerdir.

MADDE 4: UYUŞMAZLIKLARIN HALLİ

Taraflar arasında işbu protokol ve ileride hazırlanacak ek protokollerin uygulanması, uyarlanması, Protokol kapsamındaki iş ve işlemlerin yürütülmesi hususlarında ortaya çıkabilecek herhangi bir uyuşmazlık; karşılıklı anlayış çerçevesinde ve iyi niyet kurallarına uygun şekilde çözümlenecektir.

İşbu Protokol'e göre yapılacak iş ve işlemlerde, Protokol'de belirtilen hususlar dışında kalan konularda Bakanlık mevzuatı hükümlerine aykırı olmayacak şekilde hareket edilecektir.

MADDE 5: YÜRÜRLÜĞE GİRME, TADİL VE SONA ERME

İşbu Protokol, 1 Kasım 2022 tarihinde imzalanmış olup, bu tarihte yürürlüğe girmiştir.

İşbu Protokol, herhangi bir süre ile sınırlı olmaksızın yürürlükte kalacak ve gerekli görülen hallerde tarafların karşılıklı yazılı rızası ile tadil edilebilecektir. Tarafların her biri işbu Protokol'ü, doksan (90) gün öncesinden yazılı ihbarda bulunmak suretiyle her zaman feshedebilecektir. Protokol'ün feshi halinde başlamış ve devam etmekte olan çalışmalar tamamlanmış olacaktır.
