WE ALL HAVE A RESPONSIBILITY TO DO OUR SHARE FOR THE ENVIRONMENT

The Environment Fund supports UNEP's scientific publications, including the recent Global Resources Outlook (2024) **"Bend the trend – Pathways to a liveable planet as resource use spikes"**. Building on 15+ years of work by the International Resource Panel, it illustrates how use of global resources continues to increase but also describes the potential to turn negative trends around - and put humanity on a trajectory towards sustainability.

* Amounts based on pledges, to be confirmed at the time of payment including possible effect of exchange rate fluctuation
 ** Based on percentage increase from previous year's contribution
 *** full share as per the Environment Fund Voluntary Indicative Scale of Contributions (VISC)
 USA does not participate in VISC and is not a member of any regional group. However, since USA attends Western Europe & Other Group meetings as an observer, their contributions are reported as part of the WEOG summary.
