**THE ENVIRONMENT FUND IS A TRUE GREEN INVESTMENT – AND BENEFITS ALL NATIONS**

**WE ALL HAVE A RESPONSIBILITY TO DO OUR SHARE FOR THE ENVIRONMENT**
The Environment Fund supports UNEP’s scientific publications, including the recent Global Resources Outlook (2024) "Bend the trend – Pathways to a liveable planet as resource use spikes". Building on 15+ years of work by the International Resource Panel, it illustrates how use of global resources continues to increase but also describes the potential to turn negative trends around - and put humanity on a trajectory towards sustainability.
